

THANKSGIVING  
IN LOWELL

Tomorrow's Observance Will Include Church Services in the Morning

Sports, Entertainments and Family Gatherings—Other Features

Lowell will observe Thanksgiving day tomorrow with a program that will combine devout services in the churches with rejoicing in the theatres, dance halls and sporting fields. The city will close its industrial and commercial doors for the day and retire to the quiet inner sanctums of church and home to give thanks for the city's present prosperity. And as usual, the concentric point of the day's observance, as far as material things go, will be the dinner table.

Thousands Forced to Crowd Into "Jits" or Walk to Work This Morning

LAWRENCE, Nov. 26.—Trolley car service on most of the local and interurban lines was suspended today by order of the public trustees of the Eastern Street Railway company, who claimed that because jitney competition the street cars were being operated at a loss. Thousands of mill workers were obliged to walk to their employment or crowd into the busses which were still running without license.

Notice that the trolley service would be discontinued unless the fit-

WORK ON FIRST  
STREET HIGHWAY

Work on the first street highway which has been going on since last September will be finished on schedule time, Jan. 1, despite the large number of rainy days that have interfered with the project since it was started. Commissioner Dennis A. Murphy of the street and highways department said today. The work has been done in an exceptionally speedy manner, the commissioner says.

Owing to the rain today the sewer men who were laid off last Saturday but who were scheduled to return to

their work this morning did not start again, but a small gang will go to work in South street Friday morning and the others Monday morning.

Commissioner Murphy planned to start work on the Princeton street sewer today but the state highway commission has notified him that it must approve his plans before the work can be started.

BOLSHEVIK AGENTS ARE  
WORKING IN LOWELL

Proof positive that Bolsheviki agents are at work in Lowell has been brought to light by the finding of hundreds of radical leaflets, issued by the so-called Communist Party of America, with headquarters in Chicago, which were distributed by unknown men throughout Blydenre, Centralville and the district adjacent to Broadway on Monday night. This propaganda urges the workers to rise and destroy the capitalists, capture the powers of the state, and gather in mass meetings to discuss the best means of accomplishing their ends. It also urges them to take control of the shops in which they are employed and follow the example of the soviet party in Russia in controlling their own lives, work and happiness.

The propaganda was left in doorways Monday night in the aforesaid districts of the city. Several copies were found by the police. Superintendent Welch said today that he will

# "THE REDS MUST GO"

Armistice Day Crime Aligns Northwest in Open Anti-Red War

(N.E.A. Special to The Sun)  
BY C. A. CLAY

SEATTLE, Nov. 26.—With thousands of citizens operating as self-appointed vigilantes against a background of determined action by the constituted authorities, democracy and Bolshevism are at last in open conflict in the northwest.

The showdown has come. The challenge spat out by the rifles of I.W.W. terrorists on Armistice day, when four world war veterans were shot to death and five wounded in Centralia, Wash., has been taken up by every man, woman and child of American loyalty. In every town and hamlet in this region, long troubled by the menace of anarchy, the decree of law and order is: "The reds must go."

"The reds have demanded bloodshed, and they'll get it," is the attitude of the average citizen, freely expressed.

## Massacre Climax of Plot

The American Legion has constituted itself the backbone of the anti-red movement, and from every city throughout the west comes word of its vigilance.

The Centralia massacre was of far wider scope and importance than any mere local crime.

It was the preliminary phase of a program of violence, of which the overthrow of the existing government was to be the climax. It was conceived and directed by direct-actionist "higher ups" in Portland, Tacoma and in Seattle, which the reds have considered the capital of the United States as far as their malignant activities are concerned.

Such is the opinion of government agents who have followed the moves of the destruction cult.

Hint of an organized murder program was given by the lone I.W.W. lynched by angered citizens of Centralia on the night of the outrage. Just before he was strung up to a bridge railing, the culprit said defiantly: "I was obeying orders. I did my duty."

The assassinations were the first fruits of ten months of sinister, sullen, insane plotting and preaching against all things American—against everything that does not jibe with the crazy theories of nihilism. Enraged over their failure to function during the attempted "revolution" of last February, when the general strike was staged and squelched in Seattle, red leaders have been nursing their wounds and planning revenge.

The Centralia crime was part of this revenge. The reds may try again—but they will have to try quickly. Their days are numbered.

Government and state officials have struck with a strong hand against lawlessness. Hundreds of alleged destructionists throughout the northwest are in jail following raids on red headquarters.

"We are in dead earnest," says United States Attorney Robert Saunders, who is directing the prosecution of the reds. "Treachery to the government cannot be overlooked. In my judgment the I.W.W. have gone far enough with their acts to emphasize the truth that their fundamental principle is the overturning of the government."

"Deportation proceedings will be started at once against all leaders in this organization who can be shown to be aliens," says Commissioner of Immigration Henry M. White.

Meanwhile there is an atmosphere

## STRAIGHTENED HIM OUT

Solomon Bequette, Flat River, Mo., writes: "Two years ago I was down on my back till I could hardly go. Foley Kidney Pills straightened me right up. I recommend them to all who have kidney trouble." Rheumatic pains, aching joints, sore and swollen muscles indicate that the kidneys are not properly filtering impurities from the blood. Foley Kidney Pills get right at the trouble and give prompt relief. Painful, irregular and sleep-disturbing bladder troubles also yield quickly to their tonic healing action. Burkhaw Drug Co., 415 Middlesex St., Moody's Drug Store, 301 Central St., Ad.

VICTIMS OF "RED" VENOM

Arrows indicate upper windows of the Roderick hotel, Centralia, Wash., from which the I.W.W. murderers fired on Armistice day paraders.

Lieut. Warren Grimm (right), Siberian veteran and strong anti-Bolshevist, was shot through the lungs and died two hours later. He was commandant of the Centralia post of the American Legion. Grimm was an attorney, former noted football star, and leaves a widow and 5-months-old baby.

Arthur McElfresh (center) was instantly killed. He was an overseas and Mexican border veteran, specially marked by the reds because of his anti-I.W.W. sentiments.

Dale Hubbard (left), veteran of an engineering regiment in France, gave chase to the fleeing murderer who was afterward lynched. The man fired five shots into his prostrate body an instant before capture. Hubbard had been married only three weeks.

Note on the sidewalk the wreckage from the porch, torn away by the soldiers, also the broken furniture and ashes of burned I.W.W. literature.

## WIDOWED BY REDS' WRATH

The I.W.W. bullet that killed Lieut. Warren Grimm, Siberian veteran, former University of Washington football star and commandant of Grant Lodge post, American Legion, at Centralia, Wash., left this young mother and her baby without a protector.

Mrs. Grimm was Miss Verna Barstead of Spokane. She and Grimm, who was one of three brothers noted for athletic prowess, were married just before he sailed for Siberia. The baby, little Verna, now six months old, was born while Grimm was fighting the Bolsheviks.

## "MRS. TOM THUMB" DIES AT AGE OF 77

MIDDLEBORO, Nov. 26.—Countess Primo Magri, probably better known as Mrs. Tom Thumb, died at her home at Warrentown, the ancestral residence, yesterday afternoon, after a long illness. Through it all she bore up wonderfully well and, although ill, observed her birthday anniversary last month. She was 77 years old. The countess was one of the best known illiputians in the world, having been taken around the world and before crowned heads, under the management of the late Phineas T. Barnum showman.

She was a daughter of James S. and Hulda (Warren) Bump. Another sister, Minnie, was small of stature and was before the public as an entertainer, as was the famed wife of the late General Tom Thumb.

She was a member of E. W. Pierce W.R.C. of this town, the Order of Eastern Star, Daughters of the American Revolution, and Nemasket Grange.

Count Magri, her husband, survives.

## Historical Sketch of Your Watch

How to Keep It In Good Running Order

## REGULATING

Always have your watchmaker, or jeweler regulate your watch. If this is not convenient you can do it yourself by observing the following directions:

If it runs fast, move the regulator towards the letter "S;" if slow, towards the letter "F." All watches, even of the same make, are not affected alike by the regulator, but the following is an approximation. The distance from one mark to the next on the index will alter the time about one minute per day.

In the higher grades, having the micrometer regulator, turn the screw to the left to make them run slower and to the right for faster.

To get the greatest accuracy from your watch, have a regular time for winding and keep it as nearly as practicable in the same position. It can be hung up at night, or, if worn in a vest pocket, the garment can be hung up. It is not a good plan to put your watch under the pillow.

## How American Women Break Down

Owing to the modern manner of living and the nervous haste of every woman to accomplish just so much each day, they overdo, and as a consequence develop ailments peculiar to their sex, as is indicated by backache, headache, nervousness, the blues, displacements and weakness.

Women who find themselves in this condition should slow down, and depend upon that good old fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to restore them to health and strength, for there is no other remedy known that so quickly restores a healthy, normal condition.

## Here is the Story of a Most Remarkable Recovery

Minneapolis, Minn.—"I was run down and nervous, could not rest at night, and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from me, so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."

## LIBERTY SQUARE S. & A. ASSOCIATION

The Liberty Square Social and Athletic association, a local organization that is growing by leaps and bounds, held its regular meeting Sunday afternoon at its well appointed quarters in Fletcher street. At the meeting, which was well attended, four new propositions for membership were received and referred to the investigating committee.

The committee appointed to conduct the dance to be held in Lincoln hall, Dec. 5, reported that everything is in readiness for the event and that all indications pointed to its being a huge success. After a spirited election, John Pury was chosen floor marshal for the dance.

The association is planning for a big banquet to be held in Odd Fellows hall on New Year's eve and great

progress has already been made along that line. It will be the first real big event in the history of the association and no stone will be left unturned to make it a memorable occasion. The committee in charge includes a bunch of live wires and they will be on the job every minute.

Great enthusiasm in connection with the dance Dec. 5, and the banquet New Year's eve was shown at the

meeting Sunday afternoon and it was the consensus of opinion that the association is in line for splendid progress. After hearing remarks for the good and welfare of the organization from President Convery, it was voted to adjourn.

## IN THE SUPERIOR COURT

Settlement Effected in Triple  
Action of Tort—Uncon-  
tested Divorce Cases

The case of Odile, Honore and Arthur Demers of Manchester, N. H., vs. Henry P. Clough of this city, which went to trial at the jury session of the superior court for civil cases yesterday morning, was brought to a close late yesterday afternoon, when counsel for both sides informed Justice Raymond that a settlement between the plaintiffs and the defendant had been effected.

This was a triple action of tort as a result of an automobile accident on the Lowell-Lawrence boulevard, during which it was claimed that the three plaintiffs were severely injured, while their motorcycle and sidecar were badly damaged. The ad damnum in each case was \$5000.

There being no other law case ready this morning Justice Raymond took up uncontested divorce cases and granted a decree in the case of Frank Corby formerly of this city and now of Woonsocket, R. I. vs. Margaret D. Corby, formerly of this city and now of California, the decree being granted on the ground of desertion. Court adjourned shortly after 11 o'clock until next Monday morning.

**Jury Waived Session**  
At the jury waived session, Justice King presiding, four or five decrees were granted this morning in uncontested divorce cases, all of which were from the end of the county. Inasmuch as the court calendar was exhausted at noon, court adjourned for the remainder of the term.

## HOSPITAL CASES

William J. Hogan, employed by Spillane, the plumber, received a compound fracture of the left leg while at work at the Highland club building in Princeton street at 9 o'clock this morning. The ambulance removed him to St. John's hospital.

Howard Walker, an employee of the Aberlath Construction Co. on the erection of the new plant for the Bay State Cotton Corp. in Broadway received an injury to his head while at his work this morning. He was treated at St. John's hospital.

WILL DISCONTINUE  
TROLLEY SERVICE

Notices appeared this morning in care running on the Middlesex street line to points beyond the car barns, announcing that trolley service between Stevens' corner, North Chelmsford, and the corner at the Chelmsford-Tyngsboro line, will be discontinued on Dec. 2.

This move on the part of the public trustees of the Eastern Massachusetts comes as the result of the special town meeting held in Chelmsford on Monday night of this week at which time the voters took no action on the trolley question, preferring to place it upon the table indefinitely.

Prior to this special meeting, hearings had been held in relation to the acceptance or rejection of the trolley act of 1916 and it was the ultimatum of the trolley company that unless the town voted to accept this act and then cause the withdrawal of the trolley, cars would cease to operate.

It is possible that this discontinuance will be averted through the medium of another special town meeting in Chelmsford and the acceptance of the trolley act prior to Dec. 2, but in view of the fact that the town already has voted to postpone action, it is not believed probable that another warrant will be issued.

## Thanksgiving in Lowell

Continued

with its burden of good things to eat.

A program so copiously varied that it will meet every taste has been arranged and it will be a severe temptation to those who have planned to spend the entire day by the family fireside. Church services will be more numerous than in many previous years, there will be sporting features galore, the theatres will offer special performances in the afternoon and evening and the dance halls will be wide open for the reception of those inclined to this form of enjoyment.

When the local mills closed this afternoon the employees began a rest which will continue until Friday morning. All the local clothing stores have announced their intention of remaining open until 9 o'clock this evening and most of the other stores will be open until the same hour. The barber shops will be closed all day tomorrow but will hold open house until 9:30 this evening to give meticulous males an opportunity to look their tonsorial best on the holiday. Provision stores will be open until a late hour this evening in an effort to provide the city's homes with turkey, or a "just-as-good" substitute, vegetables, fruits and all the other edibles that go to make Thanksgiving a day of delight for the epicure.

Thanksgiving eve parties and dances will be in evidence in every hall in the city tonight and large attendances are expected at all of them.

Many families are looking forward to the return of one or more of their members who are employed or live out of town and for whom Thanksgiving is a day of annual pilgrimage to the home fireside. Last year several thousand Lowell families were looking forward to the return of their soldier or sailor members, but this year, happily, most of them are already safe and sound at home.

## Church Services

The observances tomorrow will open formally with services in a number of Catholic and Protestant churches. There will be regular masses at 9 o'clock at St. Peter's, the Immaculate Conception and St. Michael's churches and at 8:45 at the Sacred Heart for members of various societies. At 10 o'clock a number of the Protestant churches in the Highlands, including the Highland Congregational, Calvary Baptist, Chelmsford Street Baptist, Grace Universalist and Highland Union Methodist Episcopal church, will unite in Thanksgiving services at the

Highland Union M. E. church at Loring and Grove streets, to which the public is cordially invited.

At 10:30 a number of Protestant churches of this city and Dracut will hold a union service at the Centralville M. E. church and to this the public is also invited.

Most of the other Protestant churches held Thanksgiving services last Sunday. All the Catholic churches will have masses of thanksgiving celebrated although the formal high masses will be confined to those previously mentioned.

## Sporting Events

Sporting events for the morning will include football at Spalding park when Lowell high will meet its biggest rival, Lawrence high, at 10 o'clock, another game at the Textile school campus in Moody street when the Lowell Indians will line up against the Manchester Giants at the same hour, and a 15-mile marathon race on the North common at 10:30 conducted under the auspices of the Red Wing club.

In the afternoon the Indian Seconds will meet the Boston Orioles on the Fair grounds at 2:30 and boxing fans will be given a treat at the Crescent A. A. at 3 p. m. when Johnny Downes will meet Frankie Brown in the main bout of an excellent program. The sporting program of the day will be concluded at the Crescent A. A. at 8:15 when Lowell will meet Lawrence at polo.

At the Institutions

The various institutions of the city will take good care of their inmates tomorrow. At the Chelmsford street hospital Supt. Martin Conley has arranged an inviting Thanksgiving dinner to be served at noon. The menu will include roast pork, mashed potatoes, mashed squash, turnip, gravy, pie and apple sauce. In the afternoon a suitable entertainment will be provided.

At the Ayer home a turkey dinner with all the "fixins" will be served and the children will play games in the afternoon. A similar program will be carried out at the Children's home in Hosford square.

The local theatres will have special performances on the holiday and capacity audiences will undoubtedly be on hand. The various dance halls have also arranged special features for the afternoon and evening of the holiday. At the Y.M.C.A. the annual students' party for the younger members of the association and their lady friends will be held in the evening beginning at 7 o'clock. Dancing, music, refreshments, swimming and other contests and movies furnished through the kindness of Maj. Walter R. Joyce of the Lowell Boys' club will be among the features. The Boys' club will keep open house all day tomorrow.

## BETTER THAN CALOMEL

Thousands Have Discovered  
Dr. Edwards' Olive Tablets  
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success. They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

handkerchiefs

DAME Fashion is so arrogant! It's not enough for her if you go flower-gay in frocks, in blouses, even underwear. Your collars, too, veils, waistcoats, spats, your very handkerchiefs must be tricked out in lovely reds, blues, greens and yellows.

But you just can't find these joyful things in the shops—they're sorry—they keep "hoping to have them in soon."

Only now you can have them! You can wash your handkerchiefs, veils and collars every color in the rainbow.

## Wash your spats and collars any color you like!

You just wash them with the wonderful new colored flakes—Twink. And they're not only laundered as perfectly as though you did them with Lux—but they're daintily, bewitchingly gay!

Every one of the Twink colors was selected with the help of the highest authorities on the colors of women's clothes. These colors come out right—every time—without the slightest streakiness or dingy look. And so fast that you can wash your Twinked blouse or collar several times with Lux before you need Twink it again.

## Amazingly easy and quick

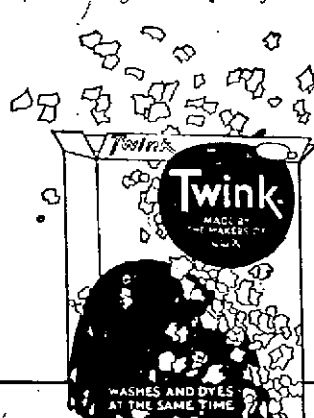

In an instant the flakes have dissolved into a gay hot lather. In go your veils, collars, spats—or your blouse or nightgown—you work them about a few minutes, then squeeze the suds through and through. A good rinsing in cold water, a quick pressing, and all in this twinkling you've a whole adorable row of new accessories. And ribbons the sun has faded, stockings that are too pale, all are twinkled back to their first brightness.

## All the stores have it

Texas with one, and I gave her three miles sharp cantering and trotting. Dewey, Jr., is a very cunning white guinea pig. I wish you could see Kermit taking out Dewey, Sr., and Bob Evans to spend the day on the grass. Archie is the sweetest little fellow imaginable. He is always thinking of you. He has now struck up a great friendship with Nicholas, rather to Mame's (the nurse's) regret, as Mame would like to keep him purely for Quentin. The last named small bolsherois person was in fear of disapproval this morning, having done a block at his mother's head. It was done in sheer playfulness, but of course could not be passed over lightly, and after the enormity of the crime had been brought fully home to him, he fled with howls of anguish to me and lay in an abandon of yellow-headed grief in my arms. Ethel is earning money for the purchase of the Art Magazine by industriously going up the weeds in the walk. Alice is going to ride Yaganka bareback this afternoon, while I try to teach Ethel on Diamond, after Kermit has had his ride.

Yesterday at dinner we were talking of how badly poor Mrs. Blank looked, and Kermit suddenly observed in an aside to Ethel, entirely unconscious that we were listening: "Oh, Ethel, I'll tell you what Mrs. Blank looks like: Like Davis' hen dat died—you know, de one dat couldn't hop up on de perch." Naturally, this is purely a private anecdote.

## Archie and Quentin

Oyster Bay, May 7, 1901. Blessed Ted: Recently I have gone in to play with Archie and Quentin after they have gone to bed, and they have grown to expect me, jumping up very soft and warm in their tomnies, expecting me to roll them over on the bed and tickle and "grahble" in them. However, it has proved rather too exciting, and an edict has gone forth that hereafter I must play with them before supper, and give up the play when they have gone to bed. Today was Archie's birthday, and Quentin resented Archie's having presents while he (Quentin) had none. With the appalling frankness of three years old, he remarked with great sincerity that "it made him miserable," and when taken to task for his lack of altruistic spirit he expressed an obviously perfunctory repentance and said: "Well, boys must lend boys things, at any rate."

## Incidents of Home-Coming

Oyster Bay, May 21, 1901. Blessed Ted: I enclose some Philippine revolutionary postage stamps. May be some of the boys would like them. Have you made up your mind whether you would like to try shooting the third week in August or the last week in July, or would you rather wait until you come back when I can find out something more definite from Mr. Post?

We very much wished for you while we were at the (San Francisco) exposition. By night it was especially beautiful. Alice and I also wished that you could have been with us when we were out riding at Genesee. Major Wadsworth put me on a splendid big horse called Triton, and sister on a thoroughbred mare. The would jump anything. It was sister's first experience, but she did splendidly and rode at any fence at which I would first put Triton. I did not try anything very high, but still some of the posts and rails were about four feet high, and it was enough to test sister's seat. Of course, all we had to do was to stick on as the horses jumped perfectly and enjoyed it quite as much as we did. The first four or five fences that I went over I should be ashamed to say how far I bounced out of the saddle, but after a while I began to get into my seat again. It has been a good many years since I have jumped a fence.

Mother stopped off at Albany while sister went on to Boston, and I came here alone Tuesday afternoon. St. Gaudens, the sculptor, and Dunne (Mr. Doolley) were on the train and took lunch with us. It was great fun meeting them and I liked them both. Kermit met me in high feather, although I did not reach the house until 10 o'clock, and he sat by me and we exchanged anecdotes while I took my supper. Ethel had put an alarm clock under her head so as to be sure and wake up, but although it went off she continued to slumber profoundly, as did Quentin. Archie waked up sufficiently to tell me that he had found another turtle just as small as the already existing treasure of the same kind. This morning Quentin and Black Jack have neither of them been willing to leave me for any length of time. Black Jack simply lies curled up in a chair, but as Quentin is most conversational, he has added an element of harassing difficulty to my effort to answer my accumulated correspondence. Archie announced that he had seen "the Baltimore orioles catching fish." This seemed to warrant investigation;

but it turned out he meant bare swallows skimming the water.

## BAXTER RAPS GOVERNOR

Declines Appointment—Says "We Are Living Under Royal Governor"

BOSTON, Nov. 26.—There are whispered threats in political circles that some of the members of the executive council will attempt to "block" Gov. Coolidge's program of consolidating and reorganizing state boards, departments and commissions by opposing some of his many nominations.

There were many stories told in the state house corridors yesterday of how the friends of disappointed candidates were going to oppose certain of the governor's nominations. It is a fact, however, that Charles S. Baxter, ex-mayor of Medford, campaign manager of ex-Gov. McCall, and a member of the Metropolitan park commission, declined appointment to the new Metropolitan district commission. The new office pays \$1000, whereas Mr. Baxter receives only \$600 as a member of the Metropolitan park commission.

## Tinkham Declines Post

Herbert L. Tinkham of Brockton, nominated to be an associate commissioner in the department of labor and industry, announced yesterday that because of lack of time he could not accept.

Mr. Baxter gave out to the newspapers early yesterday morning a copy of the letter he wrote Gov. Coolidge. It follows:

"I am informed through the newspapers that you have sent my name to the governor's council as a member of the Metropolitan district commission.

"I hereby request you to withdraw my name from the council as I do not desire to accept the appointment."

## Say Baxter's Note Means War

It is an open secret that Mr. Baxter is displeased because the governor did not retain the services of a number of Mr. Baxter's close friends, most of whom took office under the administration of ex-Gov. McCall.

Political observers say that the tone of Mr. Baxter's note means "war" on Gov. Coolidge. It will be remembered that during the last 10 days of the recent state campaign Mr. Baxter devoted a greater part of his time to arranging for speaking tours of republican "spottishers."

## "Living Under Royal Governor"

Mr. Baxter said yesterday: "We are living under the regime of a royal governor, and the right of petition is about destroyed here in Massachusetts. He shut himself away from everybody, except Winthrop Murray Crane and William M. Butler, and he is as far away from the public as he was from the Boston police force at the time of the strike."

"His crowd is out booming him for president, which every one who knows him, knows to be ridiculous. I couldn't subscribe to his campaign and others who felt the same have been treated in the same way."

"He has taken away men trained in the service, at the expense of the state, and put on a lot of unknowns, who are unskilled in the service which the public demands."

"His secretaries and a few of his friends kept him shut off from every one who was interested in the public service. I wouldn't serve, or wouldn't agree to serve on the Metropolitan district commission, unless I knew with whom I would be called upon to serve. And I would not take the position as a sop to my feelings."

"And you can say, furthermore," said Mr. Baxter, "that there will be plenty of other statements coming, now that Gov. Coolidge wants it that way."

Something About Painful Feet—Questions Answered

The following article on "Painful Feet" is another in the series of daily health letters prepared for The Sun by the United States public health service, Washington, D. C.:

A physician was consulted recently by a school teacher who complained of rheumatic pains in the legs extending to her hips and the base of the spine. She had taken medicines and couldn't understand why she was not getting well.

After a thorough physical examination, the doctor diagnosed the case as one of arch trouble, and accordingly prescribed properly fitting shoes.

In a short time the pains disappeared; the fatigue that compelled her to "crawl" home after school was gone, and she was happier mentally.

This case is mentioned to emphasize the necessity of properly fitted shoes, especially for those who are obliged to stand for long periods at a time.

It is distinctly worth while for teachers to keep their feet in good condition, for this does much to prevent fatigue.

Narrow, ill-fitting shoes which tend to produce flat feet, blisters and bunions, greatly impair efficiency, and by the pain and discomfort which they cause, give rise to secondary troubles of various sorts.

The shoes should permit the toes to spread and move quite freely. Exercise of any kind that brings the foot on tip too is an excellent mode of prevention. Folk dancing does this admirably.

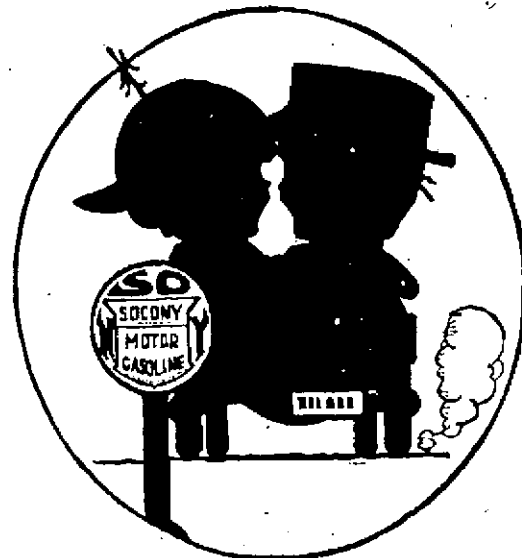

Q. How many people died in the United States last year from tuberculosis?

A. The latest figures available are those for 1917, in which year tuberculosis in its various forms caused 110,255 deaths, of which 57,047 were due to tuberculosis of the lungs. This is for the United States registration area comprising about 73 per cent. of the estimated population of the United States.

Q. Do roaches spread disease and can you suggest some effective way of getting rid of roaches?

A. They do. Stop feeding them. Hence clean up dishes promptly. Brush up crumbs. Keep garbage covered. Kill them by sprinkling borax

A. It is probable that you are really suffering from lead poisoning, which is still common in the pottery industry. Consult a doctor at once and be sure to tell him about your work. ### RULE MEASURE

Provides Two Parliaments  
With Council or Senate  
Chosen by the Two

Bill Expected to Be Introduced  
in Parliament Within Next  
Two Weeks

LONDON, Nov. 26.—A new home rule bill setting up two parliaments in Ireland, with a council or senate of 40 to be chosen by the two, will probably be introduced in parliament within the next two weeks.

Daily sessions are being held by the cabinet committee in charge of the measure, the subject under discussion at present being finance, which is in charge of a sub-committee under the chairmanship of J. Austen Chamberlain, chancellor of the exchequer.

Control of customs has always been a point of sharpest difference when other home rule schemes have been debated and was one of the rocks upon which the Irish convention was shipwrecked. Control of police is another knotty point.

Carson Silent

The most hopeful sign of an agreement is the silence which Sir Edward Carson, the Ulster leader, has preserved since the latest Irish kit was flown. Sir Edward has not issued any mandates to the Ulster volunteers "to keep their powder dry," while the presence of two hitherto staunch unionist leaders, Walter Hume Long and Baron Birkhead, on the committee shows that Ulster is tending toward conciliation.

It is the supposition that there has been an understanding on the main points before the committee, and that, in fact, there was a tacit agreement before the committee was named. The final word, however, does not rest with parliament, but with the Sinn Fein party. If that organization pursues its policy of refusing recognition of any British law, this British-planned Irish parliament may come to nothing, since the Sinn Fein polled a majority of the Irish votes at the last election. Moderates, however, believe the Sinn Fein leaders may not be able to keep the mass of their followers in line against an offer of home rule which promises to satisfy most of the ambitions of the old nationalist party.

The other alternative remains, that the Sinn Fein may capture the new southern parliament and promptly declare Ireland an independent republic. It would be possible in such case to carry on the work of the parliament without recognizing any imperial overlordship.

## LARCENY OF CLOTHING

Direct Sentence and Fine for  
Young Men Charged With  
Larceny

Convicted of stealing various articles of clothing from local stores during the past month, Martin J. McCarthy of Lawrence was sentenced to four months in the house of correction, and Edward Mansfield of Lowell was fined \$25 in police court today.

They were charged with stealing a pair of shoes from one store, a sheepskin coat from another merchant, and a skirt and some dresses from another. According to the admissions of the two they had "hooked" the clothes to get money for "jakey." They had also sold their own clothes, they said, taking in exchange cheaper garments and a small sum of money.

In connection with the case, Benjamin Tattian, a local tailor, was found guilty of receiving stolen property, and fined \$20.

Mansfield said he had sold Tattian the stolen skirt, receiving 38 cents. The skirt was valued at \$3, according to its owner. Tattian said he had told sorry for Mansfield, who told him a hard luck story, and had given him all the loose change he had in his pockets.

Reckless Driving

On the charge of reckless driving, George Belandis of Draught was fined \$20. Belandis figured in an auto collision on Bridge street recently.

Found guilty of operating an automobile in a manner to endanger the lives and safety of the public, Leo Parent paid a fine of \$35. A charge of operating without a certificate of registration was dismissed.

John Lunney, for drunkenness, was sentenced to the state farm. He appealed.

Frank E. Harris, owner of the hotel, applied for a permit to hold dances for public amusement some time ago, and at last evening's meeting of the license commissioners he was granted a license to do so.

## OFFICIAL STATE VOTE

Coolidge Won Over Long by  
125,101 Votes—Langtry's  
Plurality 130,142

BOSTON, Nov. 26.—Governor Coolidge had a plurality of 125,101 votes over Richard H. Long in the recent state election, and had a majority over all candidates of 114,057, according to the official announcement of the vote made by the executive council today. The official vote for governor was:

Calvin Coolidge (republican)...137,774  
Richard H. Long (democrat)...112,673  
Win. A. King (socialist)...7,941  
Paulsen (specialist labor)...2,331  
Chas. B. Ernst (prohibitionist)...1,679

Other republican candidates on the state ticket received pluralities over democratic opponents which ranged from 78,791 for Treasurer-elect Fred J. Burrell to 130,142 for Secretary of State A. P. Langtry.

Only one district, in Melrose, of these senatorial and representative districts which voted on the question, cast the necessary majority of votes in favor of instructing its legislators to legalize the sale of four per cent. liquors, and to define them as non-intoxicating. Twelve other districts showed more votes in favor of such instructions than were opposed, but did not meet the law's requirements that a majority of all votes cast should be in favor of the measure to carry instructions.

SAYS ELLIS ISLAND NEAR FORUM OF BOLSHEVISM

NEW YORK, Nov. 26.—Byron H. Uhl, acting commissioner of immigration at Ellis Island, admitted today to the house immigration committee investigating conditions there, that privileges had been granted during the regime of former Commissioner Frederic C. Howe, which if unchecked, might have led to the establishment of "a forum of Bolshevism" on the island.

Uhl, appearing before the committee when it resumed its hearing this morning, made this admission after Chairman Johnson had asked if, under the administration of his predecessor, the island "was not a gambling house, a heavy house and a forum of Bolshevism."

In reply to further questions, Uhl also admitted that previous to the resignation of Mr. Howe last September, immoral women had been allowed to circulate among other prisoners and that women had been permitted to roam about the island. He further admitted that one Chinese crew had indulged in gambling to such an extent that a seaman had lost \$3000.

Following the arrival from Seattle of a trainload of Reds, he said, anarchistic papers and literature had been circulated on the island.

EXAMINE EXPLOSIVES

TAKEN IN N. Y. RAID

NEW YORK, Nov. 26.—Expert chemists today began a thorough examination of the high explosive chemicals accidentally discovered yesterday in the headquarters of the Union of Russian Workers when federal agents and city detectives entered the building in quest of several radicals for whom they held warrants. An expert from the bureau of mines at Washington has been summoned here to take charge of the examination.

A number of little bottles, found hidden in a secret panel in the wall, according to experts of the police "bomb squad" contained sufficient explosive material to manufacture at least 100 deadly bombs. The labels on the bottles bore the names of well known chemical concerns and the police sought the aid of these firms in an endeavor to trace the purchasers.

U. S. PEACE DELEGATION

READY TO COME HOME

PARIS, Nov. 26.—Any delay which may eventually be found necessary in the exchange of ratifications required to put the German peace treaty into effect, will not change the plans of the American peace delegation. It was learned today. Under Secretary of State Pick and the other delegates will leave Paris on the evening of Dec. 5, and will sail from Brest on December 6.

Only a couple of experts will be left here for the purpose of completing the work in hand.

The subsequent participation by Americans in the work of the peace conference, according to the view here, will probably be extremely limited unless there are indications early in the December session of the senate that a satisfactory ratification of the treaty is in sight.

How to Take Care

of a Child's Teeth

Every up-to-date mother will brush the little one's child-size teeth with a good dental preparation and see that they are both daily. She will not permit elaborate use of tooth and tooth pastes or others likely to prove harmful.

Prof. Lewis B. Allen of Westfield, Mass., advises the use of Abdon Dental Cream in all homes where there are children. Abdon is a calcium carbonate, soapless and mixed with the well-known antiseptic oils of clove, cinnamon and eucalyptus, making an ideal composition, one-third cream, one-third polishing, one-third antiseptic. It is effective and safe. A tube containing 35 brushings can be bought anywhere at a popular price and guaranteed.—Adv.

## DISABLED SOLDIERS

Task of Rehabilitating Men  
Attended With Eminent  
Success

WASHINGTON, Nov. 26.—The task of rehabilitating the thousands of soldiers disabled in the war to fit them to resume their places as self-supporting citizens, has been attended with eminent success by the general hospitals of the United States, according to a report today by the general staff of the army.

An educational staff of 1217 officials, enlisted men and civilians is employed in the work of training the disabled soldiers. Of the 14,955 men discharged from hospitals previous to Sept. 30, after undergoing training, 13,474 or 90 per cent. had been qualified either to resume their former occupations or to engage in some new line of work.

TO REJECT HINES' OFFER

ON OVERTIME PAY

CLEVELAND, Nov. 26.—A decision rejecting the offer of Director General Walker D. Hines of time and one-half for overtime, in slow freight service was expected to be reached late today by the general chairman of the four railroad brotherhoods in conference here.

It was understood that acceptance or rejection of the offer would have no bearing on the request of the trainmen and firemen for a general wage increase of approximately 50 per cent.

Director General Hines "away from home" rule, which provides for a uniform 15-hour rule for all crews held away from home terminals, and accepted by the conference yesterday.

Reports from Chicago that the conference was considering a general strike of the brotherhoods to enforce demands for a general wage increase, were denied last night by W. G. Lee, president of the Brotherhood of Railroad Trainmen.

NO REPLY FROM MEXICO

Mexican Senate at Secret Session Decides to Ask Carranza for Information

WASHINGTON, Nov. 26.—According to the state department's announcement today, the Mexico City press announces that the Mexican senate at a secret session Monday decided to ask President Carranza for full information regarding the Jenkins case. The press also quoted the sub-secretary of foreign affairs as saying that the government was making full investigation in Puebla and that the "serious" newspapers in the United States were treating the subject calmly and carefully. The department's announcement follows:

"The department has not yet received the answer of the Mexican government in the case of the consular agent William O. Jenkins.

A dispatch from Mexico City says the press there announces that the Mexican senate at an executive session November 24 decided to ask President Carranza for full information on the Jenkins case. The Mexico City press quotes the sub-secretary of foreign affairs of Mexico as saying that public opinion in the United States is being excited by certain newspapers but that the serious newspapers are treating the subject calmly and carefully, that the Mexican authorities are continuing their investigation in Puebla and the Mexican foreign office is receiving reports constantly for use in preparation of its reply to the American note which, according to the press, was expected to be handed to the American embassy at Mexico City, November 25."

IN MEMORIAM

In loving remembrance of our son, Francis Edward Devlin, who died Thanksgiving day, Nov. 25th, 1918.

A precious one from us has gone, The voice we loved is stilled. A place is vacant in our hearts, Which never can be filled. We think we see his loving smile, Although on earth he has passed. But in our memory fresh he is, And will be to the last.

Father and Mother,  
JOSEPH E. DEVLIN,  
ANNA E. DEVLIN.

Time lost

By Sickness and Enforced Idleness.

Many of the days of sickness and misery, too often accompanied by loss of pay, may easily be charged to neglect or indiscretion on the part of the individual. Just a little more care in the matter of diet and attention to regularity of habits will change such days into happy and profitable ones. Give heed to Nature's first warning of approaching trouble, keep your stomach and digestion right and your bowels regular,—then everything will look cheerful, and your day's work will be easier.

On the first appearance of acid stomach, nausea, headache or constipation, take one or two teaspoonfuls of "L. F." Atwood's Medicine, and the functions will resume their normal activity, you will avoid the expense of sickness, and earn your usual pay. This remedy has been a household refuge for more than sixty years. Get a bottle today from your dealer for fifty cents, or write us to mail a free sample. The "L. F." Medicine Co., Portland, Me.

## BUILDING CONTRACTORS ELECT OFFICERS

At a meeting of the building contractors of this city, held last evening in the plumbers' rooms over the Lowell Trust Co., their temporary organization was made permanent, and the following officers were elected: Daniel F. Carroll, president; D. H. Walker, first vice president; J. P. Thomas, second vice president; P. F. Meloy, secretary, and J. F. Dwyer, treasurer. A preliminary report was made by the committee on by-laws and at the next meeting, which will be held next Tuesday at the same place, it is expected that the constitution of the organization will be ready for adoption.

The objects of the association, which will be similar to that of Boston, are as follows: First, to avoid, or at least to minimize strikes to the lowest possible degree; second, to stabilize the industry; third, to avoid the so-called differentials among crafts, the cause of many disputes in the past; and, fourth, to avoid the so-called regional or jurisdictional disputes, which often resulted in strikes.

In commenting on these four objects, President Carroll said:

"To begin with, one who has followed the building industry of late will have noticed the movement to standardize. This new organization of ours will help that movement along. At present, the Lowell men are not organized, and this results in the various crafts, who are members of unions, coming along at different times during the year for new agreements. If one craft gets five cents an hour more, the other crafts want the same, and there is endless trouble. Under the new system, there is intended to be only one general agreement between all the contractors and all the unions, at the beginning of the year.

"Standardization also takes another form, and one that will be a direct benefit to all the workmen. I can best illustrate that by the building which is being put up by the Bay State Mills

In Broadway. An old-time firm would stop work for the winter, but the firm that is putting up the building won't. They are going right ahead, and the mill will have its new building all the sooner, earning money for it that will more than pay the slight extra cost of preparing for work in cold weather. That works both ways. It benefits the builder and workmen. Instead of eight or nine months of work for the members of the craft, it means work the year round. Thus better building methods will bring about a relatively smaller cost to the builder, for he will more than make up in quicker business what he paid extra for the quick job. In the old days it took two years to put up a mill. Now the big fellows guarantee operation in six months.

## HEALTH CENTRE IN CONGESTED DISTRICT

Representatives of local humanitarian and social service agencies were present at a conference held in the rooms of the Girls' Community Service club yesterday afternoon under the auspices of the Lowell Guild and the Red Cross for the purpose of discussing ways and means for establishing a health centre in a congested district of the city in an effort to reduce Lowell's infant mortality rate. Mrs. Edward N. Burke presided and the speakers were Mayor Perry D. Thompson, Miss Elizabeth Ross of Boston, divisional director of public health nursing for the Red Cross; Mrs. Burke, Dr. Simpson, Dr. Brunelle and Otto Hockmeyer.

Mrs. Burke outlined the definite plan of the Red Cross by saying that in a certain district a health centre will be established, with a Red Cross nurse and assistants in charge to look out for all children under school age and refer them to the proper organization for the specific help they may require. Mayor Thompson spoke of the health steps being taken at city hall, backed by the board of health and assured the co-operation of the board in any movement planned. He also described the new health centre and clinic about to be opened for urinary-genital diseases.

Miss Ross endorsed the definite program planned by the Red Cross and further said:

"Your city is doing something that is definite. You are talking about health centres. Here in this city it means that your city government is assuming its responsibility for the health of the city of Lowell. Finally, perhaps, the whole responsibility will fall upon the shoulders of your responsible people, and the whole thing will be taken care of by the taxes, as it should be. But we have not yet reached that point. The Red Cross wants to help. They have presented this scheme of working through the guild. The idea is to put into that congested district a special child welfare nurse. What we want to do is to take care of the children below school age in that district, to really know the people, and to establish good pre-natal, good maternity and good post-natal work, and to care for the children of pre-school age.

"One of the problems in a city of this type is the question of mothers working in the mills. It is a very big problem. It is one of the problems that we list under the head of Anarchism. One of the things that you should expect of them is that they have decent homes and that the mother stays at home and takes care of the children. It is not always the case that they need the money that the mother brings in. It is often that they need to be taught to conserve life. Sometimes they think of their children as assets, and of the incomes

## Found Relief After He Had Given Up Hope

How a Rochester Sufferer From  
Headaches and Indigestion Re-  
gained Health and Strength

The expression "worried himself sick" is often heard of a man who has become nervous and melancholy. As a matter of fact the sickness is invariably the cause and not the result of worry. When the blood becomes thin and weak the nerves fail to get nourishment and sleeplessness, headaches, and minor physical disturbances occur. The victim becomes worried and often grows melancholy and depressed. Early return to health is possible if the tonic which Mr. Edmund P. Goodwin of No. 17 Walnut street, Rochester, N. H., endorses, is tried in time.

"I was sick so long without any relief from the medicines which were prescribed for me," says Mr. Goodwin, "that I grew worried and was about ready to give up hope of recovery. I was all run down and without energy. My stomach was so weak that I had frequent attacks of indigestion. I had headaches continuously and spells of dizziness. I suffered from shortness of breath and heart flutterings.

"I had heard of Dr. Williams' Pink Pills for years and finally decided to give the remedy a trial. In a short time there was a noticeable improvement in my condition and I continued the treatment with new hope for my recovery. In a few weeks I was able to eat a good meal without distress. Then the headaches grew less severe and gradually disappeared. I feel much stronger now and no longer worry. Dr. Williams' Pink Pills helped me and I am glad to recommend them to others."

Your own druggist can supply you with Dr. Williams' Pink Pills or you can order direct from the Dr. Williams' Medicine company, Schenectady, N. Y., at 60 cents a box. Write for the free booklet, "Diseases of the Nervous System."

that they can bring in. You have got to know the people of the district, and get their confidence. You can perhaps get the mother to leave her work a little earlier before the baby's birth than she would otherwise do. Sometimes they do not care very much whether the baby lives or dies. Many times the mother is over-burdened and thinks she cannot struggle against the whole situation. You cannot talk to a family and tell them the children must have so much milk every day, without finding out whether they have money to buy that amount of milk. That is one of the propositions that we have to meet, and we have got to meet it as a city."

## AMUSEMENT NOTES

**R. F. KEITH'S THEATRE**  
Thanksgiving day will be most appropriately observed at the R. F. Keith theatre tomorrow, with three gala performances, beginning, respectively, at 1.30, 4.30 and 8 P. M. The complete bill will be put on at each show, and so all who desire to include in the big day's list of joy a snappy entertainment will get full opportunity. "Flirtation," a pretty dancing musical comedy, with Dorothy Van and Frank Ellis in the leading parts, tops the list of likeable things. Miss Van is a decidedly captivating miss who surely knows how to tap out entrancing steps. Mr. Ellis is a youthful, off-

hand comedian. The Ellsworths, Harry and Grace, are wonderful dancers, the former quite eclipsing the efforts of the Russian Cossacks in their work. Emma Stephens, the personality so popular in the leader for the week, Her voice is pleasing, her manner is 100 per cent. likeable and her choice of songs leaves nothing to be desired. Miss Stephens is one of the best entertainers. And then there is "Who Is to Blame?" a rattling little comedy, played by Elsie Williams & Co. It will strike the funny bone frequently. Other good things on the bill are: Bessie Leonard, the dough-boy girl; Prosper & Maret, athletes, and the Braminos, novelty musicians.

**OPERA HOUSE**  
If you would see a play that will make you feel glad you are alive then be sure and see "Mother Carey's Chickens" which is being capably presented this week at the Opera House by the Lowell Players. The mellowing influence of Mother Carey wins every one in the play over to her brood, even old Dr. Lord, and then spreads all over the audience. It strikes everything that is biggest and best in every breast. A more winsome and adorable play would be hard to find and it will surely linger long in the memory of all who see it. Miss Fields and Miss Knowles are giving a true and faithful portrayal of the characters of Nancy, the daughter, and Mother Carey, respectively, in a manner that is richly deserving of the many good things that are being said of their work. John Meehan and the rest are also found in the principal parts. Miss Helen Scott is most amusing in the principal comedy part. She is so funny that the members of the cast have to hold themselves in check to prevent laughing outright at her stunts and makeup. Thursday's matinee, Thanksgiving, will be given at 3 o'clock, extra matinee Friday afternoon.  
**THE STRAND**  
The most successful photoplay in which Tom Mix has appeared here, "The Speed Maniac" will be shown at the Strand for the first time today. Against a background of a charming love story, Mix stages new and powerful scenes that show not only the cleverness of the show star as an actor and his long practiced skill of muscle and nerve, but also a marvelous intuition with which he dares death yet most skillfully calculates his hairbreadth escapes. The big auto race in which Mix's car is wrecked the record of a girl in a runaway trolley, and a big boxing match at which a young girl appears disguised as a boy furnish a few of the many thrills of the picture. The screen version of this well-known story is said to be far and away better than the stage production, for it provides for a treatment of details that are so important and enjoyable in a story of this kind. Miss Griffith is also given greater opportunity than ever before to demonstrate her exceptional skill as a member of the "voiceless drama." Miss Griffith has occasion to wear many different costumes. She appears variously as the majestic young queen of the ballroom,

## SYMPHONY ORCHESTRA

Splendid Concert Here Under  
Auspices of the Highland  
Club

The Boston Symphony orchestra came to Lowell last evening to play before an audience which completely filled the Strand theatre and which was quick to ovine its appreciation of the artistry of this noble band of musicians. Partially because of the eminent success of two similar concerts given last season and for the pure love of the music itself, the Highland club managed last evening's appearance and its entorprise was richly rewarded.

In the place of Mr. Rabaud as director, came Pierre Monteux, a fellow-countryman of last year's leader. He seems to bring added life and zest to the work of the orchestra and his every motion last night radiated spirit and verve.

Mr. Monteux presented a program calculated to arouse waning interest in the higher forms of orchestral music. Sombre at times, it nevertheless did not fail in its educational intent and the cordial response it received placed the indelible stamp of approval upon the leader's choice.

Tschaikowsky's sixth symphony was presented first. Throughout the four movements the pathetic motive is apparent, but the beauty of music rather tends to place melancholy thoughts in the background. To some this symphony is as the life of a man. The story is to them of man's illusions, desires, loves, struggles, victories and the end, but each hearer has his own thoughts when he is reminded by the instruments. The third movement, the march-scherzo, was nobly played; brilliant in the extreme and brightly colored to depict man's triumph in knowing and gaining all that there is in earthly fame. It serves as the pretext for the final lamentation which was brought to an impressive conclusion.

The prelude and love-death from Wagner's "Tristan and Isolde" was played immediately after a brief rest interval. Its rendition was a fine achievement for the orchestra which rose to the sweeping demands of the text in admirable style. The melodies were carried up in ever growing crescendo, majestic in the heights attained and telling in the retarding and quieter passages to follow.

The prelude to Debussy's "The Afternoon of a Faun" brought to light an entirely new tonal effect. Its theme is somewhat obscure until one catches the spirit of the poem, but its descriptive phrases grow more prominent as the music unfolds. The chief theme is announced by the flutes and is carried through a gamut of surprises until the violoncello and flute again take up the closing song. The limpid flow of harp tones were delicately traced and as the theme disappeared and came again fresh chords sprang out until the whole work seemed to vanish as a mist scatters in clear air.

The friendly William Tell overture brought the program to a close. It could hardly have been given better, and the vigorous strains of the familiar finale sets heads a-nodding in sympathetic rhythm.

## PROMOTING ANARCHY

Lowell Man Found Guilty in Criminal Court on Serious Charge

Konstanty Dobrolowski, 26, of 161 Lakewood avenue, this city, was found guilty yesterday afternoon in the superior criminal court at East Cambridge on a charge of promoting anarchy and was sentenced to nine months in the house of correction by Judge O'Connell. His brother, Felix Dobrolowski, was tried on a similar charge, but his plea of nolo was accepted and the case against him placed on file.

The Dobrolowski brothers were arrested on Monday, Nov. 17, by state and local police, following the finding of a poster in the window of a store in Lakewood avenue alleged to depict a woman slain by capital during labor troubles in Pennsylvania. Patrolman John J. Ganley of the Lowell department testified in court yesterday that on Oct. 31 his attention was called to the poster. He said that above the picture was the inscription: "How Long Are We Going to Stand for This?"

Patrolman Ganley stated that he and Inspector Dwyer interviewed the two brothers and that while Felix denied all knowledge of the poster, Konstanty admitted that he had placed the poster in the window after receiving it from a radical publication. In pronouncing sentence, Judge O'Connell said that the case seemed to be a single instance of propaganda work rather than a part of a system as far as Dobrolowski was concerned and for that reason he intended to make the sentence light. It is the first conviction to come under the anti-anarchy law passed by the state legislature last May.

## Use Famo Every Day If You Want Healthy Hair

The daily use of FAMO on the scalp is as necessary as the tooth-brush three times a day.

FAMO does kill the seborrhea germ that causes dandruff, after a few applications.

But that is really not enough. Unless the scalp is kept absolutely clean, the dandruff germ will return.

We know of nothing but the daily use of FAMO that can make it impossible for the dandruff bacilli to grow and FAMO is the one hair preparation that you can safely use daily with beneficial results.

This regular use of Famo means not only a clean, healthy head.

It means also, soft, luxuriant hair and new hair—unless, indeed, the hair roots are dead.

FAMO prevents falling hair and itching scalp.

It has given relief to thousands of sufferers from dandruff.

It retards grayness. Alcohol dries the scalp and hastens grayness.

The application of FAMO takes but a moment.

Sprinkle FAMO on the head and almost at once it is absorbed into the scalp glands and is destroying the deadly seborrhea germ.

So use FAMO every day. No massaging or shampooing is necessary.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

The larger bottle contains a third more than the average.

If it does not give satisfaction, money will be refunded.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff.

### FIRST IN SERIES OF WHIST PARTIES

The Mathew Temperance Institute held an enjoyable whist party last evening at its rooms in Central street, with music and dancing as supplementary features. Miss Martha J. Markham and John J. O'Grady won the first prizes, two chickens each. Mrs. Rhodes Schofield and William Ryan, the second prizes, to chickens each. Mrs. Rhodes and Arthur Flaherty won the third prizes, two five-pound packages of sugar. The booby prizes were soap and

soapine, won by Miss Lillian McGlynn and Walter Sloan.

The Mathews plan to have a similar party each week throughout the winter season. The committee in charge of last evening's successful affair included Patrick Nestor, Thomas Durkin, Bernard Tully, Arthur Flaherty and Gayton Welch.

Dame de Lourdes, the event being for the benefit of the organization. The attendance was large and an elaborate program was given. The early part of the evening was devoted to whist under the direction of Arthur Beaucage and later the following entertainment program was given:

Notre Dame de Lourdes' orchestra, Arthur Gormier, piano; Alime Allain violin; E. St. Cry, clarinet; Clarence Norkey, cornet and Philip Maille, drums; song by the young women of Notre Dame de Lourdes sodality; recitation, Albert Beaucage; recitation, R.

Lambert, one-act comedy, Joseph Be-

langer, Romeo Loeau and Romeo Loeuanger; military drill by the Zouaves; cake auction; address by Rev. Joseph Denis, O.M.I.; orchestra.

The scores were Misses Lillian Beauregard, Eglantine Lessard, Marie Perrin, Polores Arseneault, Dora Camille, Cora Lafleur, Leona Lafleur and Flora Robert.

The judges were Severin Belanger, Joseph Albert, Frank Ricard, Joseph Denis and Edmond Maille.

American Woolen Co. Announces Sick Benefit and Accident Insurance Plan

"Motherhood Insurance," a part of a plan announced by the American Woolen company, assures every prospective mother in the employ of that corporation of four weeks' benefits without any cost to her.

The American Woolen company today announced its employee a plan of free sick and accident benefits effective at noon, Dec. 1, 1919. The plan includes every employee of the American Woolen company and its subsidiary companies.

The basis on which these benefits are computed is as follows:

No employee is insured under the plan who is not on the payroll of the company on Dec. 1, 1919, working for full time and full pay. An employee who is not at work Dec. 1st because of disability will be insured from the date of his return to employment on full time and full pay. After Dec. 1, 1919, new employees will be eligible when they have been in the employ of the company for a period of six continuous months.

Those on the payroll Dec. 1, 1919, and who have been employed for less than six months will receive 10 per cent of their average weekly income.

Those employed continuously over six months and not more than one year will receive 50 per cent of their average weekly income.

Those employed continuously over one year and not more than two years will receive 60 per cent of their average weekly income.

Those employed continuously over two years and not more than three years will receive 70 per cent of their average weekly income.

Those employed continuously over three years and not more than four years will receive 75 per cent of their average weekly income.

Those employed continuously four years and over will receive 80 per cent of their average weekly income.

No employee will receive less than \$8 per week nor more than \$30 per week, regardless of his average weekly earnings.

These benefits will cover all cases of disability arising from sickness or accident inside or outside of the worker's place of employment, and are supplemental and in addition to the indemnities provided by the compensation acts of the different states where American Woolen company mills are located for accidents arising at occupation to the extent of the difference between the indemnities provided for by the above plan and the indemnities provided by the compensation acts of such states, except that new employees hired after Dec. 1, 1919, will be entitled only to benefits as provided by the compensation act until after they have completed six months' continuous service.

The benefits will begin only after seven days' loss of time and will continue thereafter for a period not to exceed 26 continuous weeks so that for

accidents occurring at occupation the amount of indemnity paid beyond 26 weeks and the duration of indemnity beyond 26 weeks, shall be only that provided for by the compensation law of the state in which the mill in which an employer works is located.

Benefits for maternity cases, including any illness due to such cases, for employed women will be paid for a period of four weeks only. In amounts dependent on length of service, as outlined in the above plan.

These benefits are in addition also to the American Woolen company group life insurance now in effect.

This is one of the most liberal announcements yet made by any corporation in this section and will undoubtedly produce a spirit of co-operation sufficiently strong to preclude the possibility of petty labor troubles.

The mills in this section, the employees of which will receive the benefits contained in this announcement, are the Beaver Brook, Bay State, Dracut Waste, Lambhead and Wamee mills, all branches of the American Woolen company.

# ANNIVERSARY AND ANNUAL ROLL CALL

It was a pretty gathering that took place in Castle hall last evening for the observance of the 48th anniversary of the founding of S. H. Hines' lodge, Knights of Pythias and the annual roll call of the organization. Sixty-seven members of the lodge answered the roll call and in addition there were guests present from Wamee and Chevalier-Middlesex lodges of Lowell, Black Prince lodge of Lawrence, Roaring Brook lodge of Keene, N. H., Mount Belknap lodge of Iacopia, N. H., and Queen City lodge of Manchester, N. H.

In the early part of the evening a brief business session was held and later the doors were thrown open to the public and entertainment numbers were given by Commissioner James E. Donnelly, George Freeman, the Honey Boy quartet and others. Remarks were made by Past Grand Chancellor Clifford E. Jones, deputy of the lodge; P. C. Clarence J. Way, P. C. Samuel Scott and Brother Merrill of Chevalier-Middlesex lodge. In the course of the evening light refreshments were served and cigars were passed. The committee in charge of the event was as follows:—Fred W. Ireland, chairman; William H. Harvey, Wallace Langell, Daniel E. Starkey, Ernest L. Griffin and Charles S. Pettigrew.

# THE FAMILIAR 2-2-2

The superintendent of schools looked out at the cold rain this noon and decided it was not the sort of weather for grammar and primary school children to be out of doors and therefore, ordered the no-session signal sounded on the fire alarm bells at 12:30 o'clock.

# Urge Release of Fr. O'Donnell

LONDON, Nov. 26.—Father O'Donnell, the Australian chaplain, who was arrested on Aug. 18, charged with the use of traitorous and disloyal language, pleaded not guilty when arraigned before a court martial here today. Premier Hughes of Australia, recently appealed by cable to Lord Milner, secretary of state for the colonies, asking for Father O'Donnell's release and saying that the clergyman, who was a chaplain with Australian troops during the war, "had proved himself a patriot."

# Pay Increases for Naval Men

WASHINGTON, Nov. 26.—Pay increase for officers and men of the navy will be recommended to congress by the house naval committee soon after the opening of the regular session next week, Representative Kelly, republican, Michigan, sub-committee chairman, stated today. Except for recruits, whose pay is \$33 a month, increases would be general under a plan approved by the sub-committee.

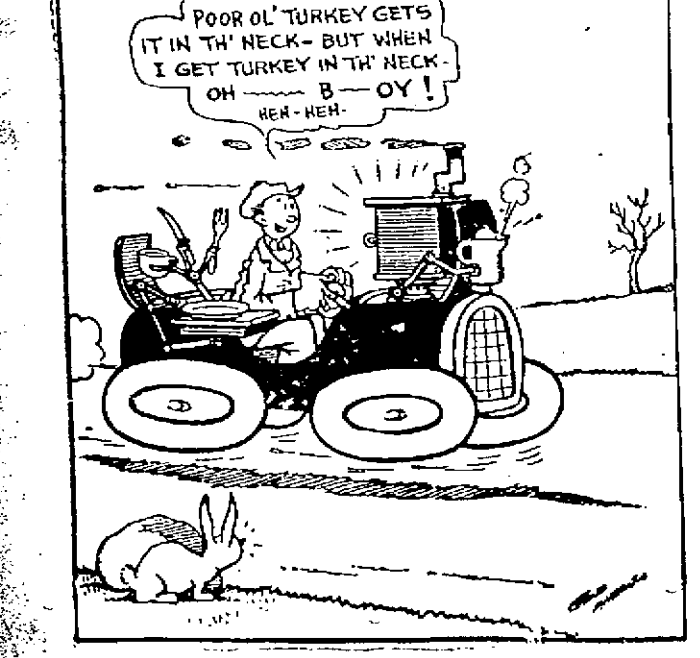

# Denikine's Army Retreating

LONDON, Nov. 26.—General Denikine's army in southern Russia, is retreating, the Bolsheviks having captured 10 towns in three days and still advancing, according to a wireless despatch received here from Moscow. Bolshevik troops are entering Ukraine where they intend to stay, the despatch says. Admiral Kolchak's forces in central Siberia are retiring rapidly, according to the despatch, and the reds have reached a point 87 miles east of Omsk.

# Franco-American Office Closed

PARIS, Nov. 26.—The closing of the Franco-American commission offices, as announced in the Journal Officiel, means only that current questions in the process of treatment by the commission, are to be transferred to the under secretary of state in the ministry of war, who will assign a special attache to deal with them, it is said here. This will be called the office of the Franco-American liquidation bureau and will begin operations Dec. 1.

# EXERCISES IN SCHOOLS

Thanksgiving Day Programs in Local Public and Private Schools

Lowell schools observed Thanksgiving today with appropriate programs of exercises. A number of the schools held formal exercises in the school hall, while others confined their efforts to programs carried out in the individual classrooms. But in some manner or other the spirit of Thanksgiving was brought to the minds of the pupils in song, story or recitation.

The reading of Governor Coolidge's Thanksgiving proclamation, recitation of Thanksgiving poetry, patriotic musical numbers and the rehearsing of the first Thanksgiving day were among the prominent features of the day's exercises. And in many of the programs there ran again that motif that was so prominent last year—thanks and gratitude that the world war is over and most of the country's fighters have returned.

At the high school there were no formal Thanksgiving exercises although the students met in the assembly hall during the final period to make plans for support of the football eleven at tomorrow morning's game with Lawrence high.

At the Lincoln, Colburn, Washington and Riverside schools as well as in many private schools, the exercises were held in each classroom. Programs carried out in other schools were as follows:

# GOOD-BYE, WEAK NERVES!

"Nothing wrong but my nerves." We hear it everywhere. Nervousness is a disease. A man or woman might better have a broken arm or leg than a shattered, run-down, nervous system.

Overwork and worry drains the nerve cells of all their strength and vitality; then come the sleepless nights, poor blood, nervousness, worry, and fear, that go with a run-down nervous system.

In cases of this kind, Phosphated Iron rarely fails to strengthen and build up the phosphata-hungry nerve centers. It takes hold right from the start.

The way the majority of people "come back" is remarkable. You can almost see their nerves grow strong, steady and peaceful. Their eyes sparkle, their cheeks are filled out, and flushed with the healthy, ruddy glow that only pure, red, frozied blood can give, and their whole system is alive with youth, energy and good spirits.

Phosphated Iron will do all this for old or young if they will give it a chance. Get a box today and watch it build you up.

# LAWRENCE WITHOUT STREET CARS AGAIN

Lowell people who had occasion to visit Lawrence this morning saw the unusual sight of a city overrun with jitneys and two street cars in operation. As a result of the act of the Day State in withdrawing all its city line cars, the Lowell-Lawrence cars and those running between Lawrence and Haverhill by way of North Andover were the only ones which appeared in the streets. The Lowell car runs as far as the transfer station where the Haverhill electric meets it.

Not only was the fleet of jitneys composed of automobiles of every conceivable size and make, but many of them came from distant cities. Large busses from Lynn and Brockton were in operation, also Haverhill, Beverly and Swampscott.

# SACO-LOWELL SHOP STRIKERS MEET

The striking employees of the Saco-Lowell shops met for a routine business session in Grafton hall at ten o'clock this morning. Reports of shop and picket committees were read and accepted and it was announced that the men will meet again tomorrow. Thanksgiving day morning at 9 o'clock. As far as now developments were concerned the meeting produced none. The strikers will commence to draw strike benefit money next week, the first payment of which will come on a week from Tuesday. The constitutional benefit is \$5 to married men and \$5 to single men per week, but this may vary according to local conditions.

The secretary of Machinists' local 133 announced today that approximately 150 new members have been enrolled since the strike went into force. As the Saco-Lowell officials had nothing to say, the situation stagnated.

# CITY OF LOWELL

# Instruction to Contractors

The High School Building Commission will receive sealed bids at their office in the City Hall in the City of Lowell for the construction and completion of an addition to the High School building in the City of Lowell on property bounded by Kirk Street, Anna Street and Franklin Street in the City of Lowell, Mass.

The Commission will receive bids to let the entire work under one General Contract.

Bids for the work must be made on the blank forms provided for the purpose and bound in the specification. The bid shall not be detached from the specification and shall be returned to the Commission with all blanks properly filled in and enclosed in a sealed envelope endorsed:

"Bids for the Construction of the New Addition to High School, Lowell, Mass."

Bids will be received up to 10 a. m., January 19, 1920. At a time set by the Commission the bids will be opened and the award of the contract made as soon thereafter as practicable by the Commission.

The Commission reserves the right to reject any and all bids.

Plans and specifications will be ready to estimate from on November 24th, 1919.

Plans and specifications may be seen at the office of the Architect, Henry L. Bourke, 325 Hildreth Building, Lowell, Mass., and at the office of the Engineer, Richard L. Kimball Co., 5 Beacon Street, Boston, Mass.

Contractors desiring copies of plans to take away will be required to pay the cost of same and are requested to order such plans from Leister & Probst, 55 Franklin Street, Boston, Mass., who will furnish blue prints of all drawings when so ordered by the Contractors in writing. The Contractor is to designate the number of drawings he wishes.

Contractors desiring copies of specifications to take away will be required to order such specifications from the Architect who will furnish the copy of specifications upon receipt of a check for fifteen dollars (\$15.00) payable to the order of the High School Building Commission, Lowell, Mass.

The Commission, however, accepts no responsibility for the delivery of these drawings, and the bid to be made and based wholly upon the plans on file at the Architect's office.

All questions as to interpretation of the plans and specifications made before the bids are submitted shall be addressed in writing to the Architect and written answers to such questions will be sent to every firm on record as proposing to bid.

# REAL "WOOLLY" WOLF COMES TO LOWELL

Several people who were in the vicinity of Merrimack square shortly before 10 o'clock this morning were given an opportunity to get a good look at a real live wolf, which was being given a little exercise through the streets of this city by a young man employed by Emerson & Parkhurst of Chelmsford Centre. This wolf, which is believed to be about six months old, is one of three recently purchased by Messrs. Emerson and Parkhurst from a trapper of northern Vermont. The animal is of a silver gray and weighs about 40 pounds. The other two are younger and smaller and their fur is of a darker shade. The young man who accompanied the "visitor" stated that the animals were purchased for their fur and that their days are numbered. They are being fed on meat, potatoes and bread and they are big feeders. They have been tamed to a certain extent, but they must not be given too much freedom for they are very wicked and have to be watched very closely. The wolf wore a strong collar around its neck and shoulders and was attached to a heavy chain.

# STRIKERS RETURN TO WORK

The twenty employees of the beam house of the American Hide & Leather Co., who went out on strike last week after being refused an increase in wages, returned to work this morning and were given their former positions. The men struck without permission from the union and therefore their strike was not approved by the organization, so it is claimed. Monday morning they attempted to return to work, but at that time they were informed that their places had been filled. This morning, however, they were all put back to work.

# Banish Catarrh

Breathe the Hyomel for Two Minutes and Relieved Sprung Up Head

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe the Hyomel.

It should clean out your head and open up your nose in two minutes and allow you to breathe freely.

Hyomel often ends a cold in one day, and brings quick relief from snuffles, hard crusts in the nose, hacking, spitting and catarrhal mucus.

Hyomel is made chiefly from a soothing, healing antiseptic oil, that comes from the eucalyptus forests of inland Australia where Catarrh, Athma, Bronchitis, Tonsillitis, Influenza, Paruiculous and Consumption were never known to exist.

Hyomel is pleasant and easy to breathe. Just pour a few drops in the hard rubber inhaler, used as directed and relief is almost certain.

A complete Hyomel outfit, including inhaler and one bottle of Hyomel, costs but little at drug stores everywhere. If you already own an inhaler you can get an extra bottle of Hyomel at drug stores.—Adv.

# Lake Superior in Grip of Storm

SAULT STE. MARIE, Mich., Nov. 26.—The storm that has swept Lake Superior since last Saturday, showed no signs of abatement today, reports reaching here indicating that shipping generally was laying up in various harbors. A high northeast gale was lashing the east end of the lake and two more vessels have been driven ashore in the blinding snowstorm. The steamer W. C. Richardson, disabled while seeking shelter from the storm, was being towed to this port. No word that would indicate the fate of the crew of the Myron, which went down Saturday, has been received and the owners of the vessel have all but abandoned hope for their rescue.

# Demands by Esthonians Granted

REVAL, Tuesday, Nov. 25.—Demands by the Esthonian government that the Northwestern Russian government cease activities within the boundaries of Esthonia have been complied with, according to information in official circles here. Bolshevik forces continue their attacks against the Esthonians in the direction of Narva, using heavy forces in the fighting, which is very severe. New Bolshevik regiments are constantly being sent against the Esthonian positions, but Esthonian morale is said to be good and, being in fortified positions their losses have been small compared with those suffered by the reds. Bolshevik peace agitation is reported not to be influencing the rank and file of the Esthonian army.

The old way of laundering meant a cluttered, steaming-hot kitchen—a dozen different utensils were used

In the modern way of laundering—with Rinso—you just SOAK your clothes clean. The Rinso way means an orderly, cool kitchen—no utensils but the wringer and a basket

No more of this!

One day in every week—one-seventh of a lifetime—women used to spend on washday tasks like this! Rinso washes your clothes WITHOUT RUBBING

# The Modern Way of Washing

You just *soak* your clothes clean instead of the old rubbing and boiling

Your clothes wore out this metal washboard—what did it do to your clothes?

YOU know the old way of washing well enough. The cluttered, messy kitchen. The long standing over the steaming boiler. The rubbing, rubbing of your clothes on the washboard—rubbing that frayed the edges of collars and cuffs, and faded the color out in specially hard-rubbed spots.

Next Monday, try the modern way of washing!

Just *soak* your clothes clean! Soak them with the wonderful new form of soap for the family washing—Rinso, the new soap product, in fine granules.

*Different from anything ever before produced*

Rinso is different from anything you have ever used before.

There is no solid soap to stick to the fabric—there are no harsh cleansing agents in it. Your clothes *soak* as safely in Rinso suds as in water alone.

Its fine granules are so rich in cleansing

value, they loosen every bit of dirt as the clothes are soaking.

*Makes clothes last twice as long*

You rinse the clothes in the morning, and all the loosened dirt is gone. Only a few badly soiled spots will need a light rubbing between your hands.

All the rubbing of cake soap on your clothes is saved, all the cruel rubbing on the washboard.

You need never boil your clothes, except occasionally, if you wish to sterilize. For Rinso cleans as perfectly in cold water as in hot!

Saved from all this hard treatment, your clothes actually last twice as long!

*Try it on the hardest things to wash*

Give Rinso just one trial—a hard trial. Try it on kitchen aprons, that have so many hard-to-get-out things spilled on

them. Try it on dish towels, that you think now you have to *boil* clean. Try it on your small boy's suits, with the dirt just ground in

You will be amazed at the simplicity of it—at the ease—at the clothes so clean and white, without all the old-fashioned work.

You simply cannot believe how wonderful Rinso is until you have used it week after week, and seen how beautifully white your clothes keep. Until you have seen how much longer they wear, and keep their colors.

*Start using Rinso this week*

Begin with your very next week's washing to launder clothes the modern way.

See what a simple matter the weekly washing becomes when you follow the easy directions on the Rinso package.

Get Rinso from your grocer. One package will do your whole week's washing.—Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)

No more of this!

No more hours of drudgery over a steaming boiler. Rinso washes your clothes WITHOUT BOILING

Just soak the clothes over night. And rinse them out spotlessly clean!

Rinso is not a "washing powder"

The fine granules of Rinso look much like a "washing powder," but—make this test. Use a heaping teaspoonful to a glass of boiling water

## FIGHTING FOR LIFE

Startling facts which should make every citizen of Massachusetts sit up and take notice are being brought to light regarding the current danger of tuberculosis here.

Dr. Bernard W. Carey, in charge of the state's manifold activities against the White Plague, states that at least ninety per cent of the people, which means nine out of each ten of us, are carriers of the tubercle bacillus. This does not mean that we are affected with it in the active form. It means that at some time, usually before we reach the age 40, we acquired the germ. In the greater proportion of us the bacilli are "healed over," that is they are in an inactive state. But the fact, the doctor says, remains that they are in us.

Now tuberculosis is primarily an infection of youth. We get it principally when we are children—too often very young. But we overcome it. The germ lies dormant in our bodies. We go along about our business finely enough, until the day comes when we have laid a stress upon our powers of resistance, upon our physical reserve of stamina, upon the "money in the bank" which the strength which we store away means to us. We are depleted and the inactive tubercle bacillus becomes active. The original seat of infection may have been in the abdomen, in the glands of the neck, in the lungs.

During thirteen weeks of continuous autopsy work in Germany at a leading medical school there in 1914—before the war—Dr. Carey was able to find but three cases out of the hundreds which were autopsied which did not carry the tuberculosis germ.

In connection with another phase of this subject, Dr. William R. P. Emerson, professor of children's diseases at Tufts college medical school, makes the statement now, that the need of the nutrition clinic for our school children and for all children is becoming one of the most pressing requirements of the country.

The answer to this, the physician states, is because one-third—that means one child in every three—are under-nourished. This includes children of the pre-school age—the babies—and those of school age.

It is a fact that we get germs when our resistance is low. If the baby or the growing child is given food that does not properly supply the demands and the needs of the body or if not given sufficient quantities of the right kind of food to satisfy the needs of his system, he becomes an easy victim of the tuberculosis germ.

The first thing for us to do then, if we are going to rout out this deadly plague, is to look after the children. The tuberculosis fight begins with the little ones. The nutrition clinic for delicate children and for all children who are shown by examination to be under-nourished is a positive and pressing need in Massachusetts.

Not a child should be permitted to go to school who is not well fed and properly fed.

If this idea can be carried home to all of us it is highly probable that we shall gain a lap on tuberculosis. If we are to be able to carry out the nutrition clinic idea and to push all the other allied activities which are a part of the tuberculosis battle, it behooves us all to give what aid we can.

The sale of the Red Cross Christmas Seals begins December 1 and continues for ten days. We should all "get aboard." Every one of us should buy liberally. We should all volunteer for personal service where it is possible. It is an essential to success. The drive should go over the top with a whoop. Let Lowell in this as in other drives do her full duty.

In mill cities such as ours the percentage of deaths from tuberculosis is usually greater than in those in which a higher proportion of the people work in the open air. It is not implied, however, that factory conditions in Lowell are bad. They are as good as could be found anywhere else in the country, as good as conditions can be where large numbers of people are employed in the various processes of textile manufacture.

We have, therefore, a local and special reason for putting our shoulders to this movement for the sale of Red Cross Christmas Seals, a

part of the proceeds of which will be devoted to fighting the White Plague.

## THANKSGIVING

We each of us—have many good and sufficient reasons for being thankful on Thanksgiving day, although some of us may not think so. And not the least of these is that we are Americans.

The Americanism, planted on the virgin soil of a new land, an unbroken wilderness of savages and waste, shaped and guarded by the lifeblood of men noble and brave, is ours by inheritance and ours by acceptance. Through the hands of American patriots, in days of peace and war, it has come to us. It is indefinable, without limit, and comes alike to the old and the young, the rich and the poor, the man and the woman, the native and the foreign-born who will accept it.

It is this Americanism which stands so solidly against the enemy of civilization, the foe of humanity, the Red plotter of anarchy. It is this Americanism in our breasts which makes of Americans a people united when the time-honored principles of freedom and democracy are attacked. It is this same Americanism which so stoutly withstands the onslaughts of the foreign agitator and his co-conspirator, the native born, discontented advocate of minority rule.

Just as this spirit of Americanism made it possible for the people of the United States to throw the weight of the mightiest nation on earth into the scales of war when right and justice were sorely tried, just so will Americanism save the land from the internal chaos toward which the extremists on our shores would hurl America in their mad endeavor to make of our government what the small handful of citizens desire and what the vast majority fear most earnestly—and with reason.

"When we have the rule Russia now has," exclaimed one Bolshevik sympathizer recently, "you'll hear no more of 'Americanism.' What is 'Americanism,' anyhow?" he screamed.

Americanism, we would like to explain to this individual, is government by the majority, not by the minority. It is government by ballot, not by bullet. It is government by law, not by license. And this is why we Americans give thanks for our Americanism.

He was right when he insisted that Americanism would become extinct with the advent in America of Russianism. Nothing more true was ever spoken. Americanism and Russianism could not live in the same land. Before Russianism could triumph here Americanism must die. Some there are who believe Americanism can be killed in American hearts. They are those who believe Russianism can rear its ugly head in the new world. We don't believe it. There are over ninety millions of other Americans who don't believe Americanism will ever cease to exist. Nothing in all the world is more alive, nor stronger, than this Americanism for which we Americans give thanks this day.

War's reaction—the period of social unrest and economic disturbance—has not weakened the spirit that dwells in the hearts of Americans, the spirit that took of a new world and made it the greatest, richest, most democratic country on earth. A year of peace has made us better Americans than ever, stronger Americans, more democratic Americans, more ardently wedded to the American doctrine that right shall prevail, that the majority shall rule, and that common justice shall go alike to all Americans.

Are we thankful that this is so? Most certainly! Truly and honestly thankful that we have this heritage of Americanism and that we may pass it on to our children's children.—N. E. A.

According to law and as a result there is some delay. On the other hand it is reported that Russian Reds are coming in here across the Mexican border. The government should see that no such invasion is tolerated. If this report be true, they are coming here to spread the soviet propaganda and help their fellow conspirators in promoting the revolutionary movement in this country. The proper treatment for these men would be to line them up in front of firing squads and have them disposed of in that way rather than by deportation. But as we have said the government is acting on strictly legal lines and will undoubtedly continue to do so; but the authorities are mistaken if they think that the people of the United States will tolerate any delay in driving these vipers out of the country.

## LOWELL'S THANKSGIVING

If we consider the conditions that exist in many other cities throughout this country we shall easily realize how much Lowell has to be thankful for. Although we have many different nationalities making up our population yet we are fortunately comparatively free from revolutionary elements that have made so much trouble in other cities.

Although we have had several strikes, none of them has been of very great importance, nor has any proved very injurious to the community. Our labor unions have shown a conservative policy by refusing to follow the advice of radicals a few of whom have undoubtedly found their way into the ranks of the union.

Our textile industries have fortunately been able to avoid labor troubles and are in a fairly prosperous condition. There is very little lack of employment for those who want to work although there is considerable difficulty in placing men in the particular kind of work for which they are best adapted. These conditions, however, will right themselves very soon and all that is needed is continued work at fair wages to insure permanent prosperity.

That we are free from any epidemic such as the influenza, free from the scourges of war and rejoicing in the fact that so many of our soldier boys have been able to return home, is proof that on the whole Lowell has a great deal to be thankful for.

There is very little poverty in our city despite the high cost of living and although the price of turkey is high, yet there will be more Thanksgiving turkeys disposed of at the family board this year than ever before in our history, for which let us be duly thankful.

## MR. FORD ON STRIKES

Henry Ford in a recent issue of his paper, the Dearborn Independent deals with labor strikes in rather an original way and in reference to the general subject says:

"When two unreasonable parties refuse to reach an agreement their quarrel should be confined to themselves alone; it should be prevented from doing harm to others. But when two reasonable parties cannot come to agreement, it is time to look behind the scenes for a third party whose interest is to keep them quarrelling. This applies to labor disputes as well as other disputes. Sometimes both employer and employee are unreasonable and do not seek agreement but conquest; in which case their unreasonable conduct ought not to be permitted to cause inconvenience or loss to the public. But there have been occasions when both employers and employees were reasonable enough to be able to reach an agreement, and were prevented by hidden influences.

"There are interests that make money out of certain kinds of strikes. If these strikes did not pay somebody, there would be fewer of them."

It is not quite clear what Mr. Ford has in mind when he makes the final statement, whether he refers to a rival business or the professional agitators who usually find fat picking in some strikes, but in the long run the strikers or their friends have to pay the bill.

## CITY AUDITOR'S DUTIES

The city auditor is obliged to afford any citizen of Lowell facilities for securing information in regard to the present state of municipal finances, but he is not obliged to set the entire force of his office to work on campaign documents for any particular candidate. The books of the auditor's office and the reports of the financial condition of the city are available to all candidates alike, and the statement that the auditor refused to make out any elaborate digest of present and past expenditures and future contingencies, even if true, does not indicate that that official was not wholly within his rights in so doing.

## SEEN AND HEARD

Don't feel neglected if the lady of the house doesn't serve turkey tomorrow—you won't be alone in the world.

By feeling the bumps on a man's head, asserts Squire Abner Harrington, you often can tell what sort of a woman his wife is.

Could it be that the members of the school board feared there would be a surplus of harmony if the Boston Symphony orchestra and the school committee held forth on the same evening?

If I have a dollar and you have a dollar and we exchange, you have a dollar and I have a dollar. But if I have an idea and you have an idea and we exchange, you have two ideas and I have two ideas.—Howard (Kan.) Courant.

A book-agent may be defined as a person who thinks he knows more about your business than you do and is confident that he can show you ways to improve your methods even though he has studied your business from the necessarily concentrated pages of an advertising booklet.

Besides, maybe he isn't. Bella—Aren't you worried because you don't know where your husband goes, when he is out late at night? Donna—Not nearly so much as I would be if I knew.—Cartoons Magazine.

Air Was All Right In the bustling Christmas shopping crowd the little man was knocked down, trampled upon, and kicked about.

Then they made room for him. "Stand back," somebody cried. "Give him air, and hurry up with a drink of whiskey."

"Never mind about the air, doctor," the patient whispered.

Two Sisters Meet The other day two sisters met. "An everyday happening," you say? "Not on your life!" These sisters, Mrs. S. R. Whitney of Kentucky, and Mrs. Mary Lloyd of Jackson, Miss., hadn't seen each other in 62 years. They were separated in 1857, and their ways through life were so far from each other that they never came within calling distance until one was 83 and the other 85.

New Walk Promoter One of our best little old fashioned writers has this to say:

"The short, tight skirt, the fuller hips, the lack of bedecked on dinner gowns have combined to bring on a new walk. It is not easy to describe, but a few slim, young people can do it very well. The body is thrown back from the waist and there is a suggestion of the goose step in the way the feet are thrown out. The hips move in such a way as to attract attention to the draperies or pockets or whatever else may trim them, and the result is as strange as a new dance and not more graceful."

You agree with us, don't you, that it couldn't be more graceful? Of course.

Thank God For Rainy Day

Most of us are made more or less unhappy by rainy days and the following article by Rev. Chas. Steitz, staff writer on religious topics for the N.E.A., may assist us in obtaining a different viewpoint.

It's raining. And in spite of what Solomon said about the monotony of the dropping of a rainy day, I like it—sometimes. I like it not only because God made the rainy day as well as the sunny day, and therefore it must have its "hidden" blessings for mankind, but because I think I've discovered some of these secret blessings for myself. We'd get eternally tired of the constant shining of the sun—no soft mornings when the clouds carry mist and when the hills are crowned with "color." Give me the rainy day when sounds are softened—the kind of a day when the house seems cozier than ever, when the world is shut out and our loved ones shut in. Then is the time that we get closer together, and we have a chance to smile at each other. We discover things in the house that we never noticed before, and the old familiar things take on new meaning with their darker tones and their more intimate setting. And when it pours and pours as

## RED PILLS

for Pale and Weak Women

During my married life, I have had twelve children, but nevertheless, I had enjoyed the best of health until the change of life which left me in a critical state of health and in a weakened condition. I had been advised by friends to try RED PILLS, which were sold at a very reasonable price. I did as I was told, and after using about six boxes, I was astonished to see how much better I was feeling; therefore I continued to take them regularly until I was completely recovered. Without any outside help, I attend to all the household duties, cooking, and sewing for eight people, and still I enjoy perfect health.

RED PILLS are for women only.

They are always sold in boxes of fifty pills, 50 cents a box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

though the heavens would fall, we say to each other: "How fortunate that we have such a comfortable home." The mists that gather about the stately buildings make it appear that heaven has come closer to the city, and the low-lying clouds that touch the tree tops create the feeling that God is not far away. You sit cozily near the window and read and dream and plan and hope—and the rain brings a calmness that clears your mind of troubles and perplexities. The world takes on new meaning and life is sweetened and broadened and deepened.

Thank God for a rainy day!

## Try Making Your Own Cough Remedy

You can save about \$2, and have a better remedy for the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes. Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membrane so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute relief or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

SHOES that not only look well but that will give splendid service—

AND the wear is assured by the painstaking care with which the leathers are selected.

EVEN our least expensive Shoes can be depended upon to wear well; for poor stock never goes on to our shelves.

BROGUE Shoes in heavy fan leathers and double soles make a sport of wet winter weather.

The new Florsheim Shoes—just arrived—are as handsome specimens of footwear as we ever have seen.

ing of men and women, always progresses on the theory that his listener is interested when nine times out of ten he is not and is really squirming within. A book agent "got" me the other day and talked to me for at least 15 minutes without my showing the slightest sign of interest. And yet he seemed a perfectly intelligent, likable fellow in other respects. Finally he said: "So it's only a matter of price, is it?" and walked off almost insolently.

What's the answer? The high cost of clothing is the cause of the army coat becoming the most popular coat this winter. I am told. I notice that many local ex-service men are wearing the khaki coat instead of paying \$30 or \$50 for a new one. Some of them have had the coats dyed various colors, particularly blue and black, and they present a smart appearance, too. The former, darning boys say that they are the warmest thing in coats that ever happened, and feel mighty glad that Uncle Sam has allowed them to retain possession of their garments.

THANKSGIVING PRAYER ADOP-  
TED BY INTER-CHURCH MOVEMENT OF N. O. AMERICA  
The following beautiful Thanksgiving prayer has been officially adopted by the Inter-Church World Movement of North America for use in the churches of all Protestant denominations participating in the movement. Almighty God, Who in earlier days led our fathers forth into a large inheritance, give us grace, we humbly beseech Thee to pass through these days of unrest and turmoil in confidence and courage that what has been so well begun will come to rich completion.

Bless our land with the fruits of honest toil. Save us from the discord which misunderstanding brings. Keep our feet in the path of righteousness. Teach us to love liberty and justice and to practice them to the upbuilding of the entire world as well as our own native land. Fashion into one people the multitudes brought hither out of many countries and make them true Americans. Give us grateful hearts for the abundant harvests of the year. In the time of our prosperity temper our self-confidence with the recollection that "every good and every perfect gift is from above." Let no anxiety rob us of the consciousness of Thine abiding love. In the day of trouble suffer not our trust in Thee to fail. Be patient with us when our purposes break down or our endeavors seem of no avail. Go with us into Thanksgiving Day. Teach us to give thanks for all the blessings of the time, to fear nothing but the loss of Thee and to perceive the sun of Thine enduring love forever shining behind every cloud. Bless us all at the Thanksgiving hour. Be with those who cannot be with us as well as those who can. Make us, wherever we may be, one in that unity of hope and faith and love which neither time nor distance can destroy. And send us forth into the future with Thanksgiving faces and Thanksgiving hearts—eager to labor, strong to endure, and useful to the land we love. Amen.

HOUSE OF CORRECTION  
Convicted of larceny in two separate complaints, James Laird, a Lowell young man, was sentenced to six months in the house of correction in the superior court in East Cambridge yesterday. A third charge of larceny was thrown out following a disagreement of the jury. Laird was arraigned in Lowell police court some time ago on charges of snatching women's pocketbooks and sentenced to 15 months in the house of correction. He appealed the case.

PAY DAY AT CITY HALL  
Municipal employees were paid off today instead of Friday by the treasurer, so that they may have the benefit of their money for the holiday. This week's payroll, totals \$29,593.66 and includes the payment of the precinct officers who served at the city primaries.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double its beauty. You can have nice, thick hair.

## NEW BANKING ROOMS

Lowell Institution for Savings Has Well Appointed Quarters

The new home of the Lowell Institution for Savings in Shattuck street was thrown open for public gaze and inspection at 3 o'clock this afternoon. The privilege extending until well into the evening. This old banking house has moved down stairs to the ground floor of a splendidly remodeled building, sturdy in its exterior appearance and decidedly attractive and thoroughly modern in its interior appointments. The highly polished woodwork shone like glass, while the metal counter tops and other furnishings added to beauty of the decorative scheme. Flowers adorned the railings and office desks and the bank personnel, headed by Edward B. Carney, treasurer, took justifiable pride in greeting many friends and showing them the splendid plant.

The changes which have converted the bank building from an old fashioned landmark into a modern, solidified structure of sand brick and heavy stone trimmings have been sweeping. Until the present changes it was three stories in height and the roof slanted to ridge poles above that. Now it is a two-story affair with a flat roof. A heavy copper cornice changes the aspect of the building as much as any other one thing. A great light shaft in the roof brings direct sunlight down into the ground floor space of the new banking rooms. The trustees of the bank are inclined to nickname the building as the "daylight bank" as windows are numerous on three sides and the overhead light shaft adds materially to the light. The old time balustrade rimming the second story windows on Shattuck street remains.

Another striking change in the old

structure is the elimination of the oval rotunda which made the second floor an unusual one. This was built in 1915 to be the stock exchange of Lowell, but the exchange never materialized. The great central light shaft occupies much of the space used by the rotunda.

The new ground floor banking rooms are wonderfully attractive. The entering door is on the rounded corner in Shattuck street and the exit is on Merrimack street and the exit is on

EDWARD B. CARNEY,  
Treasurer

the corner of Shattuck and Middle streets. There is a wide door and a comfortable vestibule. This vestibule is finished in mahogany with cement floor and rubber mat. The entire floor is covered by the public is of high-grade terrazzo. One is struck at once on entering by the large size of the public space of the bank. It is large enough to permit of 1000 persons

standing at one time. A handsome feature of this section of the banking rooms is the huge fireplace and mahogany mantel on the Shattuck street side. The old fashioned iron and the beautiful clock add much to the appearance of the room.

At the left on entering, a few feet back from the door is the treasurer's consulting room, a mahogany paneled wall with ground glass windows. Adjoining this, behind the mahogany waist high railing is the treasurer's office where Edward B. Carney, the treasurer, and the third treasurer of the bank in all its 50 years, will have his desk. From his location the treasurer's counter continues straight across the length of the room so that the public space on the Shattuck street side is cut off from the working part of the bank. This counter is of the same mahogany finish, has nine openings for business and the counter itself is covered with linoleum with glass as a surface at the window openings. A dark bronze grill tops the counter from end to end.

Inside the counter the bank workers will be enclosed in a grill protection which will include the entire working space. On the Middle street side, beyond the working space and somewhat in the rear, is the telephone exchange room, also done in mahogany. In this will be the typewriters and adding machines. The clerks' dressing rooms and the stock room are in the rear corner. At the other end, behind the treasurer's space, is the trustee's room, a handsomely finished apartment done in mahogany. The entire bank is equipped with electric fixtures of an unusual and decorative style. The ceilings are cream color and the walls buff. In the center, in the rear of the counter work space, are the public coupon booths and behind them the toilet rooms. Flanking these coupon booths are the huge vaults, one on each side.

These vaults merit a description as they are the last word in safety and mechanism. The first is reached by the public for the purpose of using the safety deposit boxes, the vault having a capacity of 2500 such boxes of varying size and fitted with the double keyhole safety system. Entrance to this is by a special door through the counter and the passage is through a grillwork entry leading to the vault and the coupon booths. The huge safe door weighs 10 tons, has a time lock and possesses all the burglar alarm devices available. It is of special construction, steel, etc.

The vaults are both of steel and reinforced concrete and possess tops that are so heavily constructed that they cannot be crushed in. The safety deposit box vault is open on all four sides so that one may walk entirely around it. Within this vault one is impressed by its solidity and strength. In its rear, behind a steel fence, are the bank's own security boxes where millions of value will be safely stored. The other vault, larger in area, will be for the books and records of the bank. This has a five-ton door and will be fitted up for storing the books.

The entire ground floor is occupied by the banking rooms and has an area of 6500 square feet. It forms a most attractive room for both customers and bank workers. In the basement the foundations for the vaults form two more vaults with heavy doors where storage can be had. The boilers and coal pockets are also there. In this basement the construction revealed an old and half forgotten well, long since filled up, where early tenants of the bank building were accustomed to draw water.

## WE HAVE MUCH TO BE THANKFUL FOR

Old Man Gloom will tell you there's nothing left for us humans to be thankful for tomorrow.

But he's all wrong.

And we can prove it.

First, consider, if you will, the case of beer. True, we haven't any in Lowell just yet, and perhaps never will, but we can still smoke.

And after they take our smokes away—which appears to be a possibility in the not far distant future—there is no law that we know of which prohibits gun chewing.

Then here's another thing.

Back in the days when Thanksgiving was first inaugurated, a poor man had to walk to his daily toll.

Now he can ride luxuriously to work in a street car and laugh at the wealthy citizens whose autos have broken down while on their way to business.

Back in those days one learns from the histories that a man was in constant danger of being shot by Indians.

In this present year of grace one can't even get "half shot."

A fellow had to go to church every Sunday then, whether he was sleepy or not.

Now he can stay in the hay from sunrise until sundown, and no one asks any questions.

In those times one had to go out and shoot a turkey for Thanksgiving.

But today all that is necessary is a trip to one's butcher, who will give one all the turkey he desires—at anywhere from 40 to 50 cents a pound.

Again, there are lots of things one gets free nowadays. There's fresh air, salvation, influenza and a lot of other things we can't think of this minute.

Which proves what we have already said, that Old Man Gloom is all wrong. There's lots of things to be thankful for—if one has the time and energy to think them up.

However, what we really started to ungarl from our Remington was a little yarn about the cost of a Thanksgiving dinner. Perhaps you've already purchased yours, in which case we ask you to hand the story to some one who hasn't.

An investigation of the local market has proved to us that for the small sum of 77 one may buy a fine dinner for the holiday—provided one's family isn't too large, or "company" is expected.

The piece de resistance, by which we refer to friend turkey, can be

thought, as aforesaid, at prices ranging from 40 to 50 cents a pound. Also the dealers will give you a written guarantee that it is not a cold storage bird—at least, one dealer we met stated he was willing to go even to this limit to back his convictions.

Ducks and geese, for the man with an epicurean taste, are not very plentiful here. Some marketmen have green geese at 45 cents a pound, and there are a few stores where fancy ducks are purchasable at 50 cents a pound. But the average dealer appears to be specializing this year in turkey, chicken and fowl. These cost from 30 to 50 cents a pound.

For those who prefer sucking pigs to turkey or chicken, there are many dealers who have just what you want at \$1.50. Fresh hams are bringing 35 to 40 cents a pound and whole hams cost from 30 to 40 cents.

Vegetables are plentiful. Squash is

four cents a pound, onions 5 to 8 cents, and turnips, carrots and parsnips 5 and 6 cents. Potatoes run from 50 to 55 cents a peck, squash and pumpkin may be bought at 4 cents, and spinach sells at 45 to 55 cents a peck.

Celery sells at 33 cents a bunch and string and butter beans 28 to 34 cents a quart.

Cranberries are going begging at 10 cents a quart as a result of the sugar shortage. Mixed nuts sell for 30, 40, 45 and 50 cents a pound and Italian chestnuts are 40 and 45 cents.

English walnuts sell at from 35 to 45 cents a pound. But why enumerate, read The Sun ads and see for yourself.

**Cured His Rupture**

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no loss of time, no trouble, have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me. Eugene M. Fuller, carpenter, 1237 Marceline avenue, Manhattan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Adv.

## BIG GAME TOMORROW

Lowell and Lawrence, Rivals  
for 25 Years, Meet at  
Spalding Park

When the football teams of the Lowell and Lawrence high schools lineup opposite each other at Spalding park Thanksgiving day morning it will mark the 25th anniversary of the date on which these rival institutions commenced athletic relations in this great city of school and college sports.

Since 1894 Lowell started the ball rolling with a 21 to 0 victory over Lawrence. The two schools have met 21 times. Thirteen of these games have resulted in Lawrence victories, five have been wins for the crimson and gray, while an even half dozen have been fought to a tie score. In 1894, 1897, 1898, 1910, 1912 and 1913 no games were played, but in each of the intervening seasons two contests were staged, which bring the total to 24.

## Quarter Century of History

The two eleven-men which represent the schools this year have a quarter century of tradition and rivalry in the background to serve as incentive power for this last game on the 1915 schedule of each team. As regards weight, Lawrence seems to have the edge. A slight advantage will be her's in the forward line and her backs will carry more pounds. Her season also has been a trifle more fortunate, but in this game, when each eleven is sure to rise to dizzy heights of accomplishment, it is in excess of pre-season form. It is the team with the feet and brains which comes out on top.

Lowell's forward line from tackle to tackle averages 151 pounds, with substitutes available will bring this average down a little, but not much. The backfield is light, but courageous. Any backfield quartet Coach Conway sees fit to play will average about 137 pounds. The Lawrence ball-carriers will stand a little better—than 140 pounds per man.

## Record of Games Played

The record of games played between the two high schools since 1894 follows:

1894—Lowell 24, Lawrence 0.
1895—Lowell 4, Lawrence 0.
1896—1897—No game.
1898—Lowell 5, Lawrence 33.
1899—No game.
1900—Lowell 0, Lawrence 30, 1st game.
1901—Lowell 0, Lawrence 11, 2nd game.
1902—Lowell 0, Lawrence 0.
1903—Lowell 6, Lawrence 5.
1904—Lowell 0, Lawrence 17, 1st game.
1905—Lowell 0, Lawrence 29, 2nd game.
1906—Lowell 0, Lawrence 24, 1st game.
1907—Lowell 0, Lawrence 12, 2nd game.
1908—Lowell 0, Lawrence 12, 1st game.
1909—Lowell 11, Lawrence 0, 2nd game.
1910—Lowell 5, Lawrence 0.
1911—Lowell 0, Lawrence 0.
1912—Lowell 0, Lawrence 0.
1913—Lowell 0, Lawrence 7.
1914—Lowell 0, Lawrence 28.
1915—Lowell 12, Lawrence 13.
1916—Lowell 0, Lawrence 0.
1917—Lowell 0, Lawrence 7.
1918—No game.

According to this tabulation Lawrence has secured a total of 235 points to Lowell's 71. The games have been played at Lawrence and 14 in this city. Aside from the 20 to 0 victory scored by Lawrence in 1914 the games during the past 10 years have been bitterly fought and violent. It has been gained by the margin of a single touchdown. In fact after the disastrous stretch of games between the years of 1902 and 1905, the rival

eleven have been such in worth as well as name.

## Arousing the Spirit

A huge mass meeting, addressed by F. N. Woodward, acting headmaster, and Coach James Conway, was held this noon at the school in the final attempt to bring out a record crowd Thursday morning. The team occupied chairs on the stage and were cheered individually and collectively. Capt. O'Day spoke briefly and echoed the optimistic feeling of his men. But Mullins will lead in songs and cheers tomorrow and hopes to have a strong section in each point at the game. The contest will get under way promptly at 10 o'clock. Two 15 and two 12 minute periods will be played. The local team worked out at Spalding park yesterday afternoon. No scrimmage was on the program, and each man was in top condition.

The following officials have been selected for the game: Referee, Robert Gault, Harvard; Umpire, W. S. Cannell, Tufts; head linesman, Ralph Kendall, Bates.

## BOXING BOUTS HERE TOMORROW AFTERNOON

Tomorrow afternoon the Crescent A. A. will stage its weekly boxing entertainment with Johnny Downes of Boston and Frankie Brown of New York meeting in the main bout of 12 rounds. Downes appeared here a week ago and made a blue showing. He is a fast, aggressive and hard hitting performer. He is ever ready to mix with an opponent and seldom backs away. He boxed Patsy Green of Cambridge here and he hit him with everything but the water bucket. He has been training diligently all week and feels confident that he will win from Brown. The New Yorker has been in the game some time and during his career has met many of the leaders of his class. A word from his training camp says that he is in the pink of condition. Frankie Mullins of Lowell, who is traveling at a fast clip and who has been enjoying a remarkable success this season, will tackle Young Kenney of Lawrence, who boxed here several years ago. Kenney is attempting to stage a "come back" and those who have seen him in training aver that he is in old time form. There will be two other bouts.

The mat-maker of the Crescent A. A. notified The Sun today that Frankie Brown arrived here this morning and expressed great confidence in his ability to beat Downes tomorrow night. Brown has a great record and his recent bout with Harry Carlson at Marienborg gave him a great boost. In this section the Nov. 21, he and Carlson engaged in a whitewash number and while the referee called it a draw, many of the miners gave Brown the best of the mill. He also has the distinction of scoring a knockdown on Johnny Kilbane at Philadelphia. He also put several battles against Benny Valdez and Battling Peck recently. Downes has been matched to meet Carlson in Boston next week, but a win for Brown tomorrow night will give him the Boston bout.

## SWEET REVENGE

## Vocational Eleven Humbles H. S. 2nds, 6 to 3

The Lowell Vocational school football team yesterday showed its resentment towards the second rate opposition being sent against it and subsequently handed its way to a victory over the high school subs, 6 to 3. Some few days ago the vocational boys, unknown but unafraid, lined up against the high school first eleven and the result was sad, but there was great improvement in the work of the team yesterday in addition to the contributing fact that the H.S. seconds were not any too powerful. Glenson scored high school's three points with a drop kick from the 20-yard line in the first period. He and Daley alternated at carrying the ball throughout the game, but they were given little support. Daley, by the way, looks like first team material. It was not until the fourth period that vocational instigated an advance that looked particularly threatening. They worked the ball nearer and nearer to the line, however, until they faced a fourth down on the two-yard line, with a foot to make for a second first down, touchdown to go. A line plunge squeezed out the necessary foot, but that's all. It was a delicate piece of measuring which decided the distance. In three plays the vocational backs carried over the ball. It wasn't a back who scored as a matter of fact, but Capelle, right tackle, who came from his position and shot through a wide hole on the opposite side of the line. The try for goal was missed and

## INDIANS FACE N. H. GIANTS TOMORROW

The Indian football team of this city will play the Giants of Manchester, N. H., at the Textile school tomorrow at 10 o'clock. The visiting eleven combination is the strongest amateur combination in the Granite state and is sure to give the Lowell team one of the bitterest arguments of the season. If present plans materialize the boys of the North Chelmsford Industrial school will attend the game as the guests of the Indians.

15-Mile Road Race Attracts Many Local Pluggers

The Red Wing A.C. which has conducted several first rate athletic meets in months past will stage a 15-mile road race on the North common Thanksgiving day, commencing at 10.30 a. m. Among the entered runners is Fred Couture, winner of the Lawrence-Lowell race on Columbus day. He is favored to win again tomorrow, but will set lots of fight. Chris Roddy, James Grose, Charlie Bryant, Joe Christo, George Goldard and Jimmy Carr. As an added attraction Joe Wells and Frank Thomas

will race over a one-mile course. Carl Richardson will hold the starter's gun, while Mike Whenn, Jack St. Clair and James Mullen will serve as judges.

## BRITT AND TIPLITZ BOX FAST DRAW

BOSTON, Nov. 25.—But for a great rally that Frankie Britt made in the 12th round of his battle with Joe Tiplitz of Philadelphia in Mechanics building last night, the referee would probably have given Tiplitz the award, instead of calling the bout a draw. There were many among the large crowd of spectators who were of the opinion that Tiplitz should have received the decision, but the award

seemed to please a majority of the fans.

The bout was a good one. From the start Tiplitz made Britt's stomach the target for his left hook, and in every round he slammed many punches in that spot. He also did some stiff jabbing. In most of the rounds hanging Britt in rapid-fire fashion with both hands.

In the 11th round he shook up Britt badly and it looked as if he would soon clinch the verdict. In the last session, however, Britt surprised the fans by the way he came back. He went after Tiplitz in great shape, sending both hands to the jaw and body. Tiplitz did not make many returns, as he was tired under the punishing Britt handed to him. Tiplitz tried often to land a right on Britt's jaw, but most of those punches landed on the back of the shoulder. Those that did reach the spot were not relished by the Philadelphiaan, neither were the blows that Britt caught him on the ear, face and body while at close quarters.

There was good swapping of punches and both men did some good countering. Each was warned several times by the referee. Britt, far, showing Tiplitz' head back with his head while in the clinches, and Tiplitz for hitting with a backhand punch.

MEL COOGAN SUSPENDED  
MILWAUKEE, Nov. 25.—The Wisconsin boxing commission yesterday suspended Mel Coogan, Brooklyn "light-weight" boxer, and his manager, "Scotty" Monteith, for eight months for failure to post forfeit for the Pinky Mitchell bout in time and because Coogan boxed within six days prior to the originally arranged date of the bout, causing a postponement of the contest.

## SPORT WORLD STARS WHO MAY WELL BE THANKFUL

Around the festive board of the sport fans will be seated this day, in spirit if not in flesh, champions new and old.

Walter Hagen, winner of the metropolitan and open golf championships, will be there.

"Kid" Gleason, smiling even though his hopes of a world's champion ball club were denied, still can be thankful that he won the championship in the American League.

Seated next to him we have Pat Moran, leader of the world's champion Reds, gloomily gazing out upon a world in which there is nothing left to conquer.

bearing in his hands the turkey, symbol of thanksgiving.

The sport fan, smiling over the return of sports after the eclipse by war, Jack Dempsey, no longer a contender, but "The Champion," smiles thankfully when he thinks of the past ten months.

Willie Lloppe, supreme in the world of billiards, sees no rival to mar his Thanksgiving dinner.

And the unknown, too, is there. The college football champion, the hero of the undergraduate, as yet unselected and over the naming of whom much ink and good white paper will be wasted.

All will partake of their Thanksgiving cheer with right good will in memory of a year which has brought to each much of profit and pleasure.

## WHIRLWIND POLO GAME

Lowell Defeats Salem in One of the Fastest Games of the Season

Playing whirlwind polo all the way, Lowell won from Salem before a large and appreciative crowd at the Crescent rink last night by the score of 3 to 0.

Victory had not come Lowell's way on the home surface for some time, and the players were out to change the luck. True, the absence of one of the regulars for over a week had much to do with recent reverses, but with the lineup again intact, and the team in its stride following victories at Providence and Lawrence on Saturday and Monday nights the Harkins clan, out loose a burst of speed and brilliancy right at the outset, completely bewildered the opposition and gave Lowell a lead that never was threatened.

All the Lowell men were at their best. Every one did his bit and did it well. There was complete co-ordination, artistic driving, hooking and passing, remarkable blocking and obstruction. In fact, everything that goes to make a high class exhibition was in Lowell's repertoire last night.

The always brilliant Harkins was more brilliant than ever, the speedy and industrious Davies was in rare form, the ever reliable and effective Griffith was there with balls on O'Brien played his best and most strenuous game of the season, while Pence at goal was ever alert and "always in the way" of opposing bullet-eye shooters.

And while it is doubtful if any team in the league could have stopped

Lowell last night, the visitors certainly put up a fight all the way.

Kid Williams went like a house afire. He was here, there and everywhere but at every turn he was confronted with a Lowell man he never relaxed but play as he could, he was unable to shake off the Lowell defense men. Hardy, too, never worked harder. He was in the game all the way, rough at times, but that was to be expected under the circumstances. Alexander was busy all the time, but he too found the Lowell obstruction too formidable.

Lowell fans were all set for a strenuous battle and they came to cheer and root to see Lowell halt Salem's march to the top rung. A victory meant first place for Salem. Lowell and the fans were there to hope and pull for Lowell's success. None were disappointed and the vigorous applause and the complimentary remarks indicated that "these present" greatly enjoyed the outcome.

After just a little over three minutes of play Griffith hammered in the first score and the rink rocked with applause. Five seconds later Davies hooked one in. More applause. Four seconds later another landed in the net, a product of Harkins' hooking. Vigorous cheering and applauding. "Elo 'em up," cried the fans. Salem was desperate and all hands worked at great speed to stem the tide. It took more than nine minutes to land the next goal, this by Davies and 19 seconds later Harkins registered his second, and his team's fifth. Here the period ended.

After Davies had opened the second stanza auspiciously for Lowell, William came through with Salem's last of the night. Harkins followed with a brace and Griffith brought the period to an end with a beautiful shot from the head of the rink.

In the final period with victory certain, Lowell played more of a defensive game, and Salem came to the front with two out by Williams and the other by Hardy, but the rally was short lived and while both teams played fast polo right up to the time there was no further scoring. The score:

team is credited with 14 wins and 15 losses. Of the last 20 games played 13 have been wins. This shows that the management made a ten strike in getting such a player as Dufresne. His acquisition makes Lawrence a championship contender.—Lawrence Tribune.

All Lowell men played remarkable polo last night.

Griffith did a great job in covering Williams.

Providence has signed George Huffer, a star goal tend, who hails from the west.

The rival Lawrence team will play Lowell at the Crescent rink tomorrow night.

Lowell's whitewash of Lawrence on Monday night was a bitter pill for the down-river boys, and they are out to turn the tables here tomorrow night.

"Premier" Asquith, formerly of Lowell, will make his first local appearance in a Lawrence uniform tomorrow night. "Squid" has a number of friends here and they will undoubtedly give him a good hand when he hops into the cage tomorrow night.

Jigger Higgins is a big favorite with the fans and was given a fine reception when he led the Worcester team on the floor. He was cheered throughout the game for his brilliant playing.

INDIAN 2NDS AND ORIENTS ARE READY

When the Indian 2nd team meets the Orientals of East Boston on the old Fair grounds tomorrow afternoon two of the best 135-pound eleven in the state will match strength and resourcefulness. The Orientals have had a most successful season and come highly recommended as a team of class and power.

Likewise have the Indian 2nds enjoyed a prosperous year, meeting and mowing down all comers who have ventured to sample their style of play. It may be that other state eleven will challenge the winner of tomorrow's game and if so the Lowell team will defend its claim to the championship until snow flies.

**"Ellis Island Soviet" Continues Strike**

NEW YORK, Nov. 26.—"The Ellis Island Soviet" continued its hunger strike today while the house immigration committee held a hearing in the same building on immigration and deportation problems. Seventy-three radicals, avowedly anxious to go to Soviet Russia, but on strike against attending deportation proceedings before immigration inspectors, again scorned a call to breakfast this morning. This was the fourth meal they have missed since adding a hunger strike to a "silence" strike, in an effort to see visiting relatives without an iron barrier between them.

**Members of Parliament Seek Increase**

LONDON, Nov. 26.—Labor members of parliament are agitating for an increase in their parliamentary salaries, which now are about \$2000 per annum. The present salary, which represents a pre-war purchasing value of approximately \$800, is regarded as hopelessly inadequate for the maintenance of a legislator in London. The demand which is being canvassed is that every member of parliament living out of London should be entitled to traveling expenses and a subsistence allowance of \$5 for every day on which he attends parliament.

**Sign Armistice Treaty Today**

PARIS, Nov. 26.—Plenipotentiaries of Jugo-Slavia will sign the Austro-peace treaty at 5 o'clock this afternoon. They will attach their signatures simultaneously to the treaty for the protection of racial minorities, to the arrangement of reparations concerning Italy and also to the financial arrangement concerning the sharing of expenses in the liberation of the former Austro-Hungarian monarchy. The time for the signing of the Bulgarian peace treaty has been definitely fixed. The Bulgarian plenipotentiaries will sign the document at the Neuilly town hall at 10.30 o'clock Thursday morning.

cording to a telegraphic report from Chihuahua City this morning.

General Angeles was sentenced to death by four Carranza generals in the Teatro de Los Heros (Theatre of the Heroes) at 10.15 o'clock last night. He was immediately taken from the building through a rear entrance to await execution, which was set for 7 a. m. today. This is the time he was shot, according to the report reaching here.

General Angeles was entirely unmoved apparently as sentence was passed. Throughout the trial the military leader, famous among military men of the world as the man who brought the French 75-millimetre gun to perfection and made it admittedly the best piece of artillery ordnance in the world, had presented a smiling countenance to his accusers.

General Angeles had been decorated by the French government, with the Cross of the Legion of Honor, in recognition of his services during the war. Referring to the Columbus raid by Villa forces in 1916, General Angeles was quoted as having declared to the military court: "We showed ourselves to the whole world—for while the American is clean in mind, body and environment, we are absolutely and unequivocally opposite."

The other rebels executed with Angeles were Major Noster Enciso de Arco and Antonio Trillo. All three men were captured near Parral, Chihuahua, by a force of home guards, Nov. 15.

**No Cars in Lawrence**

Continued

ney competition was removed, was given about two weeks ago by the railway trustees. Jitney licenses were revoked by the city council on Monday, but the buses continued operation on a "free will offering plan." Street car service ended with the completion of regular runs last night.

The bus owners, who have organized and are circulating petitions for a referendum on the question of substituting jitney for trolley service, attempted to meet the situation by bringing scores of additional vehicles from surrounding cities during the night. These were operated along the lines formerly traversed by the street cars. No fares were collected but contributions were accepted. The owners said returns were larger than if the usual fare of seven cents had been charged.

A special meeting of the city council was called this forenoon to consider the situation. The question of substituting the jitney for the trolley was submitted to the voters at the city election the referendum proposed by the bus owners was also taken up. The drastic action of the railway trustees was not entirely expected. It had been thought today's action of the city council would be awaited before the threatened threat was put into effect. Any provisions that may have been made for the 250 uniformed railway employees affected, have not been announced.

Four jitney drivers summoned into court as a test case were charged with violating the city ordinances by running a public conveyance without a license. They were found guilty and fined \$10 each. All appealed.

Judge J. J. Mahoney of the district court who heard the cases, informed the police that in his opinion it would be futile to continue to bring jitney drivers into court for all would be likely to appeal their cases, and then continue to run. He suggested that the only way to deal with the present situation was to take steps to secure an injunction restraining the jitneys from running now that their licenses have been revoked by the city council.

Alderman Peter Carr, who as director of the department of public safety, is head of the police department, takes the ground that the withdrawal of the street car service has created an emergency, and this morning he notified the jitney drivers that he would not interfere with their running or with their charging fares so long as the street cars were not in operation.

At a special meeting today the city council adopted resolutions requesting a special committee comprising Mayor Hurley, Alderman Peter Carr and City Clerk Edward J. Wade to confer with Gov. Coolidge and request him to take

steps to have operations resumed immediately by the street railway company and that the commissioner of public safety be instructed to take whatever legal action he considered advisable to carry out the revocation of the jitney licenses.

It was later ascertained that an interview with the governor would be impossible as he would be obliged to leave the state house early and it was decided to seek a conference with the public trustees of the street railway company and the public service commissioners instead.

The council planned to meet again at 4.30 o'clock to receive a report from the special commission. At the meeting this forenoon, Atty. John C. Trewey, representing the jitney association, requested the council to defer action on the resolution and permit the jitneys to operate until Dec. 3, when the people could pass on the question at the election, but no action was taken.

## OUR THANKSGIVING DAY

Washington Correspondent  
Digs Into Ancient Archives  
for Thanksgiving History

BY GEORGE B. WATERS

WASHINGTON, D. C., Nov. 26.—How thankful are the people for the things that make them happy!

This is what impresses one who digs into the ancient archives at the state department library and reads the dusty and faded documents of a century and a half, offering thanks to Almighty God for his blessings.

A true history of the Thanksgiving proclamations would be a fair history of Uncle Sam's wars.

And if a president should ever forget to issue a proclamation, the people would celebrate Thanksgiving just the same. They had Thanksgiving before they had presidents and one year they had two of them.

The first Thanksgiving day in America was held by the Pilgrims soon after their arrival here.

The first declaration by the continental congress for Thanksgiving was made Nov. 1, 1777, for the surrender of Burgoyne.

The next year John Witherspoon of the continental congress wrote one with a single sentence, 300 words.

The last revolutionary proclamation

was reported to congress Oct. 18, 1783, thanks the first Thursday in December, fixing Thanksgiving on the second Thursday in December. There has been no happier moment in the history of the United States.

In those days a Thanksgiving proclamation was as important as a League of Nations covenant, or an industrial conference is today.

George Washington issued two Thanksgiving proclamations and an interesting point about them was that they were intended for any one who believed in God. John Adams issued one which appealed only to Christians. Thomas Jefferson was opposed to Thanksgiving days and wouldn't issue any.

The first Washington proclamation was written by himself Oct. 3, 1789, the original of this is lost. But the original of the second one he signed is preserved. It was written by Alexander Hamilton, secretary of the treasury.

It was Lincoln who inaugurated the national Thanksgiving. He held two in one year, his first being Aug. 6, 1863, to thank God for the victory of Gettysburg and the same year he proclaimed Nov. 26 as national Thanksgiving. That was while the Civil war was raging.

Andrew Jackson had the people offer

President Cleveland used to send his proclamation to the state department in his own handwriting. Mr. McKinley was the first president to dictate his to a stenographer. Taft had the state department prepare his, and one was written by Miss Anne Shortridge, law clerk in the office of Harry Hoyt, then first counselor of the state department. She was perhaps the first woman to prepare a presidential proclamation.

President Wilson has written his own proclamations, and in them stands out, emboldened by the light of sound and noble sentiment, the story of his love for man and God.

## UNCLE SAM, M. D. ON THANKSGIVING DINERS

Thanksgiving is the one day in the year when every healthy American likes to put worries and cares away and interest himself only in making sure that there is a very fine turkey on the table to which he can address himself.

It is neither the time nor the place

## GRANITE CANOPY COVERING THE WORLD FAMOUS BOULDER "PLYMOUTH ROCK"

THE PILGRIM FATHERS

Called "Separatists," being Puritans who had "broken off" from public churches, having seceded from the Church of England.

Fled to Leyden, Holland.  
Planned emigration to the new world; receiving King James' consent, and the financial assistance of English merchants (at 50 per cent interest.)

Returned to England for expedition.

Sailed from Plymouth, England, in the Mayflower, less than a hundred in number, including Myles Standish, English soldier, not a member of the Pilgrim congregation.

Sighted Cape Cod, exploring the coast.

Landed December 21, 1820, on that boulder (Plymouth, Mass.), which ever since has been known as Plymouth Rock.

Their first Thanksgiving Day was celebrated the following fall, after they had harvested their first crops.

to become a death's head at the feast with the health officer's customary warning "beware overeating." Quite naturally no one would beware anyway, and what one eats will be limited largely by the size of the fowl and the capacity of the individual.

In this matter a little common sense will help a great deal. The average healthy person should feel perfectly safe in satisfying his appetite. No sensible person will stuff, or eat until he feels uncomfortable. To chew the food well, is a good rule, and one which will not interfere with the thorough enjoyment of the meal.

The person who frequently suffers from indigestion should be careful not to overtax his stomach.

After all the hearty meal at Thanksgiving is part and parcel of the custom of celebration. It is not this meal, nor the one at Christmas that does the harm, but the habit of overloading the stomach every day, the constant overeating and the meals eaten in haste.

With turkey and "fixins" on the menu it may be foolish to suggest a brisk walk before dinner to sharpen the appetite. However, after the feast a long walk in the open air to aid digestion, will pretty well take care of the Thanksgiving dinner.

THANKSGIVING DINNERS  
TO BE DISTRIBUTED

Girls of the Community Service club will distribute 15 heavily laden baskets of Thanksgiving dinners and other supplies to as many families this evening. Automobiles have been offered for this work by Miss Irene Hogan, Mrs. Napoleon Demaris, Mrs. Joseph Burke and Miss Mildred Biscornet. The club girls have secured the names of worthy families through their church parishes and have shown great delight in being able to bring this spirit of thanksgiving into so many homes.

One of the best dances of the season will be held in the club rooms S. B. Ringrose of Fitchburg will preside this evening, when several hundred side

members and friends will gather for informal sociability. Fine dance music will be provided.

On Friday evening at 7.45 o'clock a Thanksgiving social will be held by the girls, with the Normal school girls, as guests. English folk dances and songs will be included in the informal program and a luncheon will be served.

## UNION THANKSGIVING SERVICES

Union services will be held tomorrow at the Centralville Methodist Episcopal church at Bridge street. Representative congregations from the French M. E. mission, Fifth Street Baptist, Highland Congregational, and the Braintree Congregational church are cordially invited to attend this service which begins at 10.30 a. m. The Rev. preaches, when several hundred side

# "THE REDS MUST GO"

Armistice Day Crime Aligns Northwest in Open Anti-Red War

(N.E.A. Special to The Sun)  
BY C. A. CLAY

SEATTLE, Nov. 26.—With thousands of citizens operating as self-appointed vigilantes against a background of determined action by the constituted authorities, democracy and Bolshevism are at last in open conflict in the northwest.

The showdown has come. The challenge spat out by the rifles of I.W.W. terrorists on Armistice day, when four world war veterans were shot to death and five wounded in Centralla, Wash., has been taken up by every man, woman and child of American loyalty. In every town and hamlet in this region, long troubled by the menace of anarchy, the decree of law and order is: "The reds must go."

"The reds have demanded bloodshed, and they'll get it," is the attitude of the average citizen, freely expressed.

## Mammoth Climax of Plot

The American Legion has constituted itself the backbone of the anti-red movement, and from every city throughout the west comes word of its vigilance.

The Centralla massacre was of far wider scope and importance than any mere local crime.

It was the preliminary phase of a program of violence, of which the overthrow of the existing government was to be the climax. It was conceived and directed by direct-actionist "higher ups" in Portland, Tacoma and in Seattle, which the reds have considered the capital of the United States as far as their malignant activities are concerned.

Such is the opinion of government agents who have followed the moves of the destruction cult.

Hint of an organized murder program was given by the lone I.W.W. lynched by angered citizens of Centralla on the night of the outrage. Just before he was strung up to a bridge railing, the culprit said defiantly: "I was obeying orders. I did my duty."

The assassinations were the first fruits of ten months of sinister, sullen, insane plotting and preaching against all things American—against everything that does not jibe with the crazy theories of nihilism. Enraged over their failure to function during the attempted "revolution" of last February, when the general strike was staged and squelched in Seattle, red leaders have been nursing their wounds and planning revenge.

The Centralla crime was part of this revenge. The reds may try again—but they will have to try quickly. Their days are numbered.

Government and state officials have struck with a strong hand against lawlessness. Hundreds of alleged destructionists throughout the northwest are in jail, following raids on red headquarters.

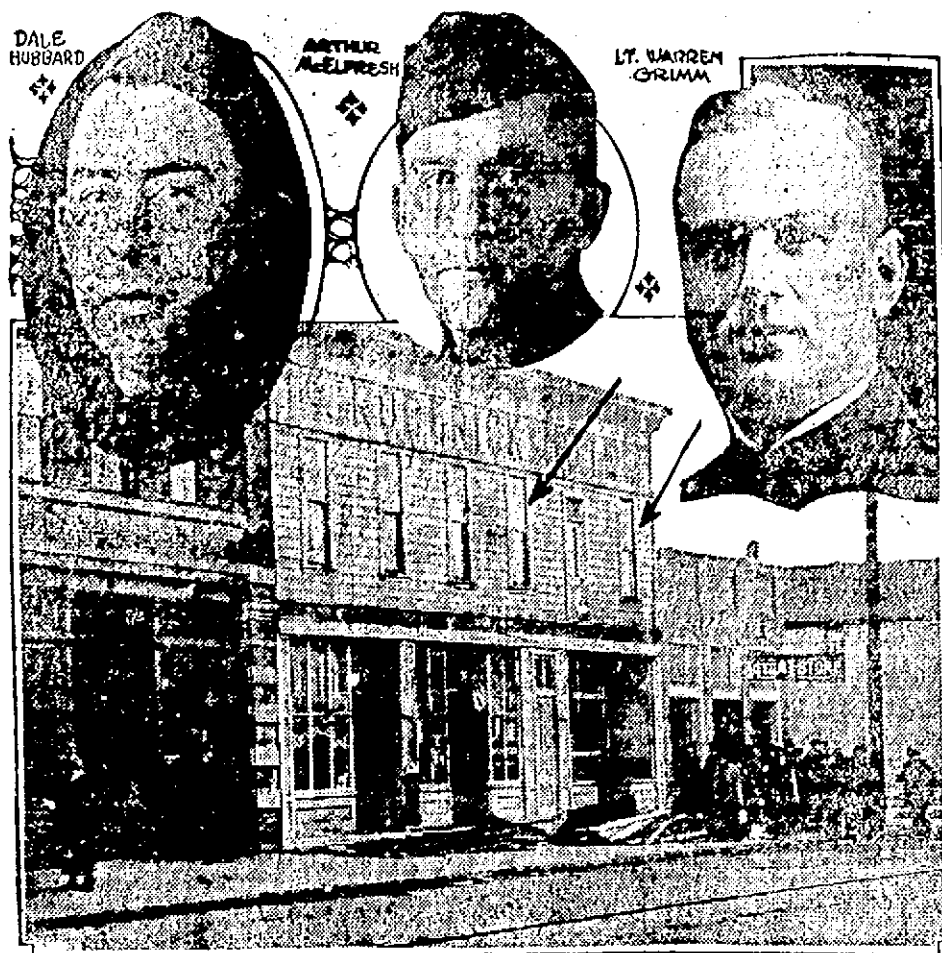

"We are in dead earnest," says United States Attorney Robert Saunders, who is directing the prosecution of the reds. "Treachery to the government cannot be overlooked. In my judgment the I.W.W. have gone far enough with their acts to emphasize the truth that their fundamental principle is the overturning of the government."

"Deportation proceedings will be started at once against all leaders in this organization who can be shown to be aliens," says Commissioner of Immigration Henry M. White.

Meanwhile there is an atmosphere

## STRAIGHTENED HIM OUT

Solomon Bequette, Flat River, Mo., writes: "Two years ago I was down on my back till I could hardly go. Foley Kidney Pills straightened me right up. I recommend them to all who have kidney trouble." Rheumatic pains, aching joints, sore and swollen muscles indicate that the kidneys are not properly filtering impurities from the blood. Foley Kidney Pills get right at the trouble and give prompt relief. Painful, irregular and sleep-disturbing bladder troubles also yield quickly to their tonic healing action. Burkinshaw Drug Co., 415 Middlesex St., Mead's Drug Store, 301 Central St.—Adv.

VICTIMS OF "RED" VENOM

Arrows indicate upper windows of the Roderick hotel, Centralla, Wash., from which the I.W.W. murderers fired on Armistice day paraders.

Lieut. Warren Grimm (right), Siberian veteran and strong anti-Bolshevist, was shot through the lungs and died two hours later. He was commandant of the Centralla post of the American Legion. Grimm was an attorney, former noted football star, and leaves a widow and 6-months-old baby.

Arthur McElfresh (center) was instantly killed. He was an overseas and Mexican border veteran, specially marked by the reds because of his anti-I.W.W. sentiments.

Dale Hubbard (left), veteran of an engineering regiment in France, gave chase to the fleeing murderer who was afterward lynched. The man fired five shots into his prostrate body an instant before capture. Hubbard had been married only three weeks.

Note on the sidewalk the wreckage from the porch, torn away by the soldiers, also the broken furniture and ashes of burned I.W.W. literature.

## WIDOWED BY REDS' WRATH

The I.W.W. bullet that killed Lieut. Warren Grimm, Siberian veteran, former University of Washington football star and commandant of Grant Lodge post, American Legion, at Centralla, Wash., left this young mother and her baby without a protector.

Mrs. Grimm was Miss Verna Barstead of Spokane. She and Grimm, who was one of three brothers noted for athletic prowess, were married just before he sailed for Siberia. The baby, little Verna, now six months old, was born while Grimm was fighting the Bolsheviks.

almost of relief on the part of loyalists, that the enemy is at last out in the open and that "this mess is to be cleaned up."

For the time being, anything may happen. But no one doubts the outcome of the battle.

Americans whose solely tried patience has snapped say the Bolsheviks of

the northwest have crossed their rubicon. Staid citizens are filling their pistol pockets, and the real west is aroused to prove once and for all that Americanism is in the saddle and will continue to rule.

The reds are skidding towards their final jump-off.

## "MRS. TOM THUMB"

DIES AT AGE OF 77

MIDDLEBORO, Nov. 25.—Countess Primo Magri, probably better known as Mrs. Tom Thumb, died at her home at Warrentown, the ancestral residence, yesterday afternoon, after a long illness. Through it all she bore up wonderfully well and, although ill, observed her birthday anniversary last month. She was 77 years old. The countess was one of the best known illiputians in the world, having been taken around the world and before crowned heads, under the management of the late Phineas T. Barnum showman.

She was a daughter of James S. and Hulda (Warren) Bump. Another sister, Minnie, was small of stature and was before the public as an entertainer, as was the famed wife of the late General Tom Thumb.

She was a member of B. W. Pierce W.R.C. of this town. The Order of Eastern Star, Daughters of the American Revolution, and Nemasket Grange.

Count Magri, her husband, survives.

## Historical Sketch of Your Watch

How to Keep It In Good Running Order

## REGULATING

Always have your watchmaker, or jeweler regulate your watch. If this is not convenient you can do it yourself by observing the following directions:

If it runs fast, move the regulator towards the letter "S;" if slow, towards the letter "F." All watches, even of the same make, are not affected alike by the regulator, but the following is an approximation. The distance from one mark to the next on the index will alter the time about one minute per day.

In the higher grades, having the micrometer regulator, turn the screw to the left to make them run slower and to the right for faster.

To get the greatest accuracy from your watch, have a regular time for winding and keep it as nearly as practicable in the same position. It can be hung up at night, or, if worn in a vest pocket, the garment can be hung up. It is not a good plan to put your watch under the pillow.

## How American Women Break Down

Owing to the modern manner of living and the nervous haste of every woman to accomplish just so much each day, they overdo, and as a consequence develop ailments peculiar to their sex, as is indicated by backache, headache, nervousness, the blues, displacements and weakness.

Women who find themselves in this condition should slow down, and depend upon that good old fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to restore them to health and strength, for there is no other remedy known that so quickly restores a healthy, normal condition.

## Here is the Story of a Most Remarkable Recovery

Minneapolis, Minn.—"I was run down and nervous, could not rest at night, and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from me, so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."

## LIBERTY SQUARE S. & A. ASSOCIATION

The Liberty Square Social and Athletic association, a local organization that is growing by leaps and bounds, held its regular meeting Sunday afternoon at its well appointed quarters in Fletcher street. At the meeting, which was well attended, four new propositions for membership were received and referred to the investigating committee.

The committee appointed to conduct the dance to be held in Lincoln hall, Dec. 5, reported that everything is in readiness for the event and that all indications pointed to its being a huge success. After a spirited election, John Furcy was chosen floor marshal for the dance.

The association is planning for a big banquet to be held in Odd Fellows hall on New Year's eve and great

progress has already been made along that line. It will be the first real big event in the history of the association and no stone will be left unturned to make it a memorable occasion. The committee in charge includes a bunch of live wires and they will be on the job every minute.

Great enthusiasm in connection with the dance Dec. 5, and the banquet New Year's eve was shown at the

meeting Sunday afternoon and it was the consensus of opinion that the association is in line for splendid progress. After hearing remarks for the good and welfare of the organization from President Convery, it was voted to adjourn.

## IN THE SUPERIOR COURT

Settlement Effectuated in Triple  
Action of Tort—Uncon-  
tested Divorce Cases

The case of Odile, Honore and Arthur Demers of Manchester, N. H., vs. Henry P. Clough of this city, which went to trial at the jury session of the superior court for civil cases yesterday morning, was brought to a close late yesterday afternoon, when counsel for both sides informed Justice Raymond that a settlement between the plaintiffs and the defendant had been effected.

This was a triple action of tort as a result of an automobile accident on the Lowell-Lawrence boulevard, during which it was claimed that the three plaintiffs were severely injured, while their motorcycle and sidecar were badly damaged. The ad damnum in each case was \$5000.

There being no other law case ready this morning Justice Raymond took up uncontested divorce cases and granted a decree in the case of Frank Corby formerly of this city and now of Woonsocket, R. I. vs. Margaret D. Corby, formerly of this city and now of California, the decree being granted on the ground of desertion. Court adjourned shortly after 11 o'clock until next Monday morning.

Jury Waived Session.  
At the jury waived session, Justice King presiding, four or five decrees were granted this morning in uncontested divorce cases, all of which were from the end of the county. Inasmuch as the court calendar was exhausted at noon, court adjourned for the remainder of the term.

## HOSPITAL CASES

William J. Hogan, employed by Spillane, the plumber, received a compound fracture of the left leg while at work at the Highland club building in Princeton street at 9 o'clock this morning. The ambulance removed him to St. John's hospital.

Howard Walker, an employee of the Aherthaw Construction Co., on the erection of the new plant for the Bay State Cotton Corp. in Broadway received an injury to his head while at his work this morning. He was treated at St. John's hospital.

WILL DISCONTINUE  
TROLLEY SERVICE

Notices, appeared this morning in cars running on the Middlesex street line to points beyond the car barns, announcing that trolley service between Stevens' corner, North Chelmsford, and the corner at the Chelmsford-Tyngsboro line, will be discontinued on Dec. 3.

This move on the part of the public trustees of the Eastern Massachusetts comes as the result of the special town meeting held in Chelmsford on Monday night of this week at which time the voters took no action on the trolley question, preferring to place it upon the table indefinitely.

Prior to this special meeting, hearings had been held in relation to the acceptance or rejection of the trolley act of 1918 and it was the ultimatum of the trolley company that unless the town voted to accept this act and then cause the withdrawal of the trolley, cars would cease to operate.

It is possible that this discontinuance will be averted through the medium of another special town meeting in Chelmsford and the acceptance of the trolley act prior to Dec. 2, but in view of the fact that the town already has voted to postpone action, it is not believed probable that another warrant will be issued.

## Thanksgiving in Lowell

Continued

with its burden of good things to eat.

A program so copiously varied that it will meet every taste has been arranged and it will be a severe temptation to those who have planned to spend the entire day by the family fireside. Church services will be more numerous than in many previous years, there will be sporting features galore, the theatres will offer special performances in the afternoon and evening and the dance halls will be wide open for the reception of those inclined to this form of enjoyment.

When the local mills closed this afternoon the employees began a rest which will continue until Friday morning. All the local clothing stores have announced their intention of remaining open until 9 o'clock this evening and most of the other stores will be open until the same hour. The barber shops will be closed all day tomorrow but will hold open house until 9:30 this evening to give meticulous makes an opportunity to look their tonsorial best on the holiday. Provision stores will be open until a late hour this evening in an effort to provide the city's homes with turkey, or a "just-as-good" substitute, vegetables, fruits and all the other edibles that go to make Thanksgiving a day of delight for the epicure.

Thanksgiving eve parties and dances will be in evidence in every hall in the city tonight and large attendances are expected at all of them. Many families are looking forward to the return of one or more of their members who are employed or live out of town and for whom Thanksgiving is a day of annual pilgrimage to the home fireside. Last year several thousand Lowell families were looking forward to the return of their soldier or sailor members, but this year, happily, most of them are already safe and sound at home.

## Church Services

The observances tomorrow will open formally with services in a number of Catholic and Protestant churches. There will be regular masses at 9 o'clock at St. Peter's, the Immaculate Conception and St. Michael's churches and at 8:45 at the Sacred Heart for members of various societies. At 10 o'clock a number of the Protestant churches in the Highlands, including the Highland Congregational, Calvary Baptist, Chelmsford Street Baptist, Grace Universalist and Highland Union Methodist Episcopal church, will unite in Thanksgiving services at the

Highland Union M. E. church at Loring and Grove streets, to which the public is cordially invited.

At 10:30 a number of Protestant churches of this city and Braintree will hold a union service at the Centralville M. E. church and to this the public is also invited.

Most of the other Protestant churches held Thanksgiving services last Sunday. All the Catholic churches will have masses of Thanksgiving celebrated although the formal high masses will be confined to those previously mentioned.

## Sporting Events

Sporting events for the morning will include football at Spalding park when Lowell high will meet its biggest rival, Lawrence high, at 10 o'clock, another game at the Textile school campus in Moody street when the Lowell Indians will line up against the Manchester Giants at the same hour, and a 15-mile marathon race on the North common at 10:30 conducted under the auspices of the Red Wing club.

In the afternoon the Indian Seconds will meet the Boston Orientals on the Fair grounds at 2:30 and boxing fans will be given a treat at the Crescent A. A. at 3 p. m. when Johnny Downes will meet Frankie Brown in the main bout of an excellent program.

The sporting program of the day will be concluded at the Crescent A. A.

at 8:15 when Lowell will meet Lawrence at polo.

## At the Institutions

The various institutions of the city will take good care of their inmates tomorrow. At the Chelmsford street hospital Supt. Martin Conley has arranged an inviting Thanksgiving dinner to be served at noon. The menu will include roast pork, mashed potatoes, mashed squash, turnip, gravy, pie and apple sauce. In the afternoon a suitable entertainment will be provided.

At the Ayer home a turkey dinner with all the "fixins" will be served and the children will play games in the afternoon. A similar program will be carried out at the Children's home in Hoarson square.

The local theatres will have special performances on the holiday and capacity audiences will undoubtedly be on hand. The various dance halls have also arranged special features for the afternoon and evening of the holiday.

At the Y.M.C.A. the annual students' party for the younger members of the association and their lady friends will be held in the evening beginning at 7 o'clock. Dancing, music, refreshments, swimming and other contests and movies furnished through the kindness of Maj. Walter R. Jones of the Lowell Boys' club will be among the features. The Boys' club will keep open house all day tomorrow

for the youngsters of the city.

The Knights of Columbus, Y.M.C.A. and Community club in Dutton street will hold open house all day, although no special programs have been arranged. The same holds true of the various clubs and fraternal organizations of the city.

The Community Service club, the girls' organization, will hold a dance in its quarters in the Runnels building in the evening.

The local restaurants have all prepared special Thanksgiving menus for the holidays and many of them have arranged special musical features.

The schools of the city closed this afternoon and will not re-open until Monday morning.

At the Y.W.C.A. in John street a

special dinner will be served in the cafeteria, a "tasty pull" will be held in the evening and the High School Student club will pack Thanksgiving baskets for worthy poor people.

The Salvation Army will have no formal program, but will give dinners to a dozen or so poor families of the city.

# Theodore Roosevelt's Letters to His Children

Edited by

Joseph Bucklin Bishop

COPYRIGHT, 1919 BY CHARLES SCHMIDT'S SONS.

Today's installment of Roosevelt's letters to his children are two which this wonderful father wrote to his son Ted and these letters as do all of the series, reveal the downright loveliness of the man.

Ted was the first of the children to leave home for school. He was desperately homesick at first, but soon got into the swing of school life. Mame, the nurse mentioned, as an old family servant, adored by the children, Roosevelt writes in his autobiography that the only time they ever offended her was when, through mistaken devotion, they named a favorite pig "Mame." The Roosevelt home was at all times overrun with pets, ranging from bear cubs to ponies, from snakes to badgers.

Advice and News

Blessed Ted:

Oyster Bay, May 7, 1901.

It was the greatest fun seeing you, and I really had a satisfactory time with you, and came away feeling that you were doing well. I am entirely satisfied with your standing, both in your studies and in athletics. I want you to do well in your sports, and I want even more to have you do well with your books; but I do not expect you to stand first in either, if so to stand would cause you overwork and hurt your health. I always believe in going hard at everything, whether it is Latin or mathematics, boxing or football, but at the same time I want to keep the sense of proportion. It is never worth while to absolutely exhaust one's self or to take big chances unless for an adequate object. I want you to keep in training the faculties which would make you, if the need arose, able to put your last ounce of pluck and strength into a contest. But I do not want you to squander these qualities. To have you play football as well as you, and make a good name in boxing and wrestling, and be cox of your second crew, and stand second of third in your class in the studies, is all right. I should be rather sorry to see you drop too near the middle of your class, because as you cannot enter college until you are 19, and will therefore be a year later in entering life, I want you to be prepared in the best possible way, so as to make up for the delay. But I know that all you can do you will do to keep substantially the position in the class that you have so far kept, and I have entire trust in you, for you have always deserved it.

The weather has been lovely here. The cherry trees are in full bloom, the peach trees just opening, while the apples will not be out for 10 days. The May flowers and bloodroot have come, the anemones and bellwort have come, and the violets are coming. All the birds are here, pretty much, and the warblers troop through the woods. To my delight, yesterday, Kermit, when I tried him on Diamond, did excellently. He has evidently turned the corner in his riding, and was, just as much at home as possible, although he was on my saddle with his feet thrust in the leathers above the stirrup. Poor mother has had a hard time with Yaganka, for she rubbed her back, and as she sadly needs exercise and I could not have a saddle put upon her, I took her out bareback yesterday. Her gait is so easy that it is really more comfortable to ride her without a saddle than to ride

Allice, Now Mrs. Longworth, Known as "Sister" in the Letters, and Her Father Were Great Chums

Texas with one, and I gave her three miles sharp cantering and trotting.

Dewey, Jr., is a very cunning white guinea pig. I wish you could see Kermit taking out Dewey, Sr., and Bob Evans to spend the day on the grass. Archie is the sweetest little fellow imaginable. He is always thinking of you. He has now struck up a great friendship with Nicholas, rather to Mame's (the nurse's) regret, as Mame would like to keep him purely for Quentin. The last named small boisterous person was in fact disgraced this morning, having flung a block at his mother's head. It was done in sheer playfulness, but of course could not be passed over lightly, and after the enormity of the crime had been brought fully home to him, he fled with howls of anguish to me and lay in an abandon of yellow-headed grief in my arms. Ethel is earning money for the purchase of the Art Magazine by industriously hoing up the weeds in the walk. Alice is going to ride Yaganka bareback this afternoon, while I try to teach Ethel on Diamond, after Kermit has had his ride.

Yesterday at dinner we were talking of how badly poor Mrs. Blank

looked, and Kermit suddenly observed in an aside to Ethel, entirely unconscious that we were listening: "Oh, Ethel, I'll tell you what Mrs. Blank looks like: Like Davis' hen dat died—you know, de one dat couldn't hop up on de perch." Naturally, this is purely a private anecdote.

Archie and Quentin

Oyster Bay, May 7, 1901.

Blessed Ted: Recently I have gone in to play with Archie and Quentin after they have gone to bed, and they have grown to expect me, jumping up, very soft and warm in their tommyes, expecting me to roll them over on the bed and tickle and "grabbie" in them. However, it has proved rather too exciting, and an edict has gone forth that hereafter I must play with them before supper, and give up the play when they have gone to bed. Today was Archie's birthday, and Quentin resented Archie's having presents while he (Quentin) had none. With the appalling frankness of three years old, he remarked with great sincerity that "it made him miserable," and when taken to task for his lack of altruistic spirit he expressed an obviously perfunctory repentance and said: "Well, boys must lend boys things, at any rate."

Incidents of Home-Coming

Oyster Bay, May 21, 1901.

Blessed Ted: I enclose some Filipino revolutionary postage stamps. Maybe some of the boys would like them. Have you made up your mind whether you would like to try shooting the third week in August or the last week in July, or would you rather wait until you come back when I can find out something more definite from Mr. Post?

We very much wished for you while we were at the (San Francisco) exposition. By night it was especially beautiful. Alice and I also wished that you could have been with us when we were out riding at Genesee. Major Wadsworth put me on a splendid big horse called Triton, and sister on a thoroughbred mare. The would jump anything. It was sister's first experience, but she did splendidly and rode at any fence at which I would redo at Triton. I did not try anything very high, but still some of the posts and rails were about four feet high, and it was enough to test sister's seat. Of course, all we had to do was to stick on as the horses jumped perfectly and enjoyed it quite as much as we did. The first four or five fences that I went over I should be ashamed to say how far I bounced out of the saddle, but after a while I began to get into my seat again. It has been a good many years since I have jumped a fence.

Mother stopped off at Albany while sister went on to Boston, and I came here alone Tuesday afternoon. St. Gaudens, the sculptor, and Dunne (Mr. Dooley) were on the train and took lunch with us. It was great fun meeting them and I liked them both. Kermit met me in high feather, although I did not reach the house until 10 o'clock, and he sat by me and we exchanged anecdotes while I took my supper. Ethel had put an alarm clock under her head so as to be sure and wake up, but although it went off she continued to slumber profoundly, as did Quentin. Archie waked up sufficiently to tell me that he had found another turtle just as small as the already existing treasure of the same kind. This morning Quentin and Black Jack have neither of them been willing to leave me for any length of time. Black Jack simply lies curled up in a chair, but as Quentin is most conversational, he has added an element of harassing difficulty to my effort to answer my accumulated correspondence.

Archie announced that he had seen "the Baltimore Orioles catching fish." This seemed to warrant investigation, but it turned out he meant barn swallows skimming the water. (Continued Friday)

## BAXTER RAPS GOVERNOR

Declines Appointment—Says "We Are Living Under Royal Governor"

BOSTON, Nov. 26.—There are whispered threats in political circles that some of the members of the executive council will attempt to "block" Gov. Coolidge's program of consolidating and reorganizing state boards, departments and commissions by opposing some of his many nominations.

There were many stories told in the state house corridors yesterday of how the friends of disappointed candidates were going to influence members of the council to oppose certain of the governor's nominations.

It is a fact, however, that Charles S. Baxter, ex-mayor of Medford, campaign manager of ex-Gov. McCall, and a member of the Metropolitan park commission, declined appointment to the new Metropolitan district commission. The new office pays \$1000, whereas Mr. Baxter receives only \$600 as a member of the Metropolitan park commission.

Tinkham Declines Post

Herbert L. Tinkham of Brockton, nominated to be an associate commissioner in the department of labor and industry, announced yesterday, that because of lack of time he could not accept.

Mr. Baxter gave out to the newspapers early yesterday morning a copy of the letter he wrote Gov. Coolidge. It follows:

"I am informed through the newspapers that you have sent my name to the governor's council as a member of the Metropolitan district commission.

"I herobly request you to withdraw my name from the council as I do not desire to accept the appointment."

Say Baxter's Note Means War

It is an open secret that Mr. Baxter is displeased because the governor did not retain the services of a number of Mr. Baxter's close friends, most of whom took office under the administration of ex-Gov. McCall.

Political observers say that the tone of Mr. Baxter's note means "war" on Gov. Coolidge. It will be remembered that during the last 10 days of the recent state campaign Mr. Baxter devoted a greater part of his time to arranging for speaking tours of republican "spellingbinders."

Living Under Royal Governor

Mr. Baxter said yesterday: "We are living under the regime of a royal governor, and the right of petition is about destroyed here in Massachusetts. He shut himself away from everybody, except Winthrop Murray Crane and William M. Butler, and he is as far away from the public as he was from the Boston police force at the time of the strike."

"His crowd is out booming him for president, which every one who knows him, knows to be ridiculous. I couldn't subscribe to his campaign, and others who felt the same have been treated in the same way."

"He has taken away men trained in the service, at the expense of the state, and put on a lot of unknowns, who are unskilled in the service which the public demands."

"His secretaries and a few of his friends kept him shut off from every one who was interested in the public service. I wouldn't serve, or wouldn't agree to serve on the Metropolitan district commission, unless I knew with whom I would be called upon to serve. And I wouldn't take the position as a sop to my feelings."

"And you can say, furthermore," said Mr. Baxter, "that there will be plenty of other statements coming, now that Gov. Coolidge wants it that way."

Something About Painful Feet—Questions Answered

The following article on "painful feet" is another in the series of daily health letters prepared for The Sun by the United States public health service, Washington, D. C.:

A physician was consulted recently by a school teacher who complained of rheumatic pains in the legs extending to her hips and the base of the spine. She had taken medicines and couldn't understand why she was not getting well.

After a thorough physical examination, the doctor diagnosed the case as one of arch trouble, and accordingly prescribed properly fitting shoes.

In a short time the pains disappeared; the fatigue that compelled her to "crawl" home after school was gone, and she was happier mentally.

This case is mentioned to emphasize the necessity of properly fitted shoes, especially for those who are obliged to stand for long periods at a time.

It is distinctly worth while for teachers to keep their feet in good condition, for this does much to prevent fatigue.

Narrow, ill-fitting shoes which tend to produce flat feet, blisters and bunions, greatly impair efficiency, and by the pain and discomfort which they cause, give rise to secondary troubles of various sorts.

The shoes should permit the toes to spread and move quite freely.

Exercise of any kind that brings the foot on tip toe is an excellent mode of prevention. Folk dancing does this admirably.

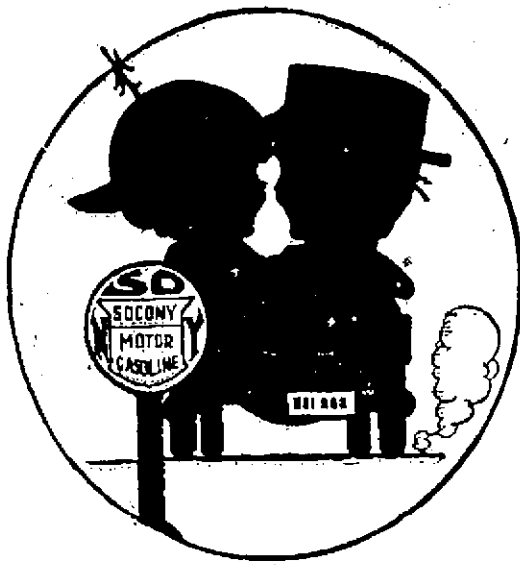

Q. How many people died in the United States last year from tuberculosis?

A. The latest figures available are those for 1917, in which year tuberculosis in its various forms caused 110,255 deaths, of which 77,617 were due to tuberculosis of the lungs. This is for the United States registration area comprising about 72 per cent of the estimated population of the United States.

Q. What is Dakin's solution?

A. As a result of their study of the treatment of infected wounds, Carrel and Dakin devised a neutral

## NEW IRISH HOME RULE MEASURE

Provides Two Parliaments  
With Council or Senate  
Chosen by the Two

Bill Expected to Be Introduced  
in Parliament Within Next  
Two Weeks

LONDON, Nov. 26.—A new home rule bill setting up two parliaments in Ireland, with a council or senate of 40 to be chosen by the two, will probably be introduced in parliament within the next two weeks.

Daily sessions are being held by the cabinet committee in charge of the measure, the subject under discussion at present being finance, which is in charge of a sub-committee under the chairmanship of J. Austen Chamberlain, chancellor of the exchequer.

Control of customs has always been a point of sharpest difference when other home rule schemes have been debated and was one of the rocks upon which the Irish convention was shipwrecked. Control of police is another knotty point.

Carson Silent

The most hopeful sign of an agreement is the silence which Sir Edward Carson, the Ulster leader, has preserved since the latest Irish kite was flown. Sir Edward has not issued any mandates to the Ulster volunteers "to keep their powder dry," while the presence of two hitherto staunch unionist leaders, Walter Hume Long and Baron Birkenhead, on the committee shows that Ulster is tending toward conciliation.

It is the supposition that there has been an understanding on the main points before the committee, and that, in fact, there was a tacit agreement before the committee was named. The final word, however, does not rest with parliament, but with the Sinn Fein party. If that organization pursues its policy of refusing recognition of any British law, this British-planned Irish parliament may come to nothing, since the Sinn Fein polled a majority of the Irish votes at the last election. Moderates, however, believe the Sinn Fein leaders may not be able to keep the mass of their followers in line against an offer of home rule which promises to satisfy most of the ambitions of the old nationalist party.

The other alternative remains, that the Sinn Fein may capture the new southern parliament and promptly declare Ireland an independent republic. It would be possible in such case to carry on the work of the parliament without recognizing any imperial overlordship.

## LARCENY OF CLOTHING

Direct Sentence and Fine for  
Young Men Charged With  
Larceny

Convicted of stealing various articles of clothing from local stores during the past month, Martin J. McCarthy of Lawrence was sentenced to four months in the house of correction, and Edward Mansfield of Lowell was fined \$25 in police court today.

They were charged with stealing a pair of shoes from one store, a sheepskin coat from another merchant, and a skirt and some dresses from another. According to the admissions of the two they had "hooked" the clothes to get money for "jakey." They had also sold their own clothes, they said, taking in exchange cheaper garments and a small sum of money.

In connection with the case, Benjamin Tattian, a local tailor, was found guilty of receiving stolen property, and fined \$20.

Mansfield said he had sold Tattian the stolen skirt, receiving 38 cents. The skirt was valued at \$3, according to its owner. Tattian said he had felt sorry for Mansfield, who told him a hard luck story, and had given him all the loose change he had in his pockets.

### Reckless Driving

On the charge of reckless driving, George Belamis of Dracut was fined \$20. Belamis figured in an auto collision on Bridge street recently.

Found guilty of operating an automobile in a manner to endanger the lives and safety of the public, Leo Parent paid a fine of \$25. A charge of operating without a certificate of registration was dismissed.

John Lunnery, for drunkenness, was sentenced to the state farm. He appealed.

## HOTEL DANCING

Local Hostelry Gets Dance  
License From License Board

For the first time in its history, Lowell now has an honest-to-goodness danceteria.

Dancing is to be staged in the main dining room of the Harrington hotel each evening, except Sundays, and guests may trip the light fantastic between courses the same as is the custom on 42nd St. Broadway.

Frank E. Harris, owner of the hotel, applied for a permit to hold dances for public amusement some time ago, and at last evening's meeting of the license commissioners he was granted a license to do so.

### Licensees Granted

## OFFICIAL STATE VOTE DISABLED SOLDIERS

Coolidge Won Over Long by  
125,101 Votes—Langtry's  
Plurality 130,142

BOSTON, Nov. 26.—Governor Coolidge had a plurality of 125,101 votes over Richard H. Long in the recent state election, and had a majority over all candidates of 114,057, according to the official announcement of the vote made by the executive council today. The official vote for governor was:

Calvin Coolidge (republican)...317,774  
Richard H. Long (democratic)...192,673  
Wm. A. King (prohibitionist)...7,641  
Wm. A. King (socialist labor)...2,331  
Chas. B. Ernst (prohibitionist)...1,679

Other republican candidates on the state ticket received pluralities over democratic opponents which ranged from 78,791 for Treasurer-elect Fred J. Burrell to 130,142 for Secretary of State A. F. Langtry.

Only one district in Melrose, of those senatorial and representative districts which voted on the question, cast the necessary majority of votes in favor of instructing its legislators to legalize the sale of four per cent. liquor, and to define them as non-intoxicating. Twelve other districts showed more votes in favor of such instructions than were opposed, but did not meet the law's requirements that a majority of all votes cast should be in favor of the measure to carry instructions.

## SAYS ELLIS ISLAND NEAR FORUM OF BOLSHEVISM

NEW YORK, Nov. 26.—Byron H. Uhl, acting commissioner of immigration at Ellis Island, admitted today to the house immigration committee investigating conditions there, that privileges had been granted during the regime of former Commissioner Frederic C. Howe, which if unchecked, might have led to the establishment of "a forum of Bolshevism" on the island.

Uhl, appearing before the committee when it resumed its hearing this morning, made this admission after Chairman Johnson had asked it, under the administration of his predecessor, the island "was not a gambling house, bawdy house and a forum of Bolshevism."

In reply to further questions, Uhl also admitted that previous to the resignation of Mr. Howe last September, immoral women had been allowed to circulate among other prisoners and that women had been permitted to roam about the island. He further admitted that one Chinese crew had indulged in gambling to such an extent that a seaman had lost \$3000.

Following the arrival from Seattle of a trainload of Reds, he said, anarchist papers and literature had been circulated on the island.

## EXAMINE EXPLOSIVES TAKEN IN N. Y. RAID

NEW YORK, Nov. 26.—Expert chemists today began a thorough examination of the high explosive chemicals accidentally discovered yesterday in the headquarters of the Union of Russian Workers when federal agents and city detectives entered the building in quest of several radicals for whom they held warrants. An expert from the bureau of mines at Washington has been summoned here to take charge of the examination.

A number of little bottles, found hidden in a secret panel in the wall, according to experts of the police "bomb squad" contained sufficient explosive material to manufacture at least 100 deadly bombs. The labels on the bottles bore the names of well known chemical concerns and the police sought the aid of these firms in an endeavor to trace the purchasers.

## U. S. PEACE DELEGATION READY TO COME HOME

PARIS, Nov. 26.—Any delay which may eventually be found necessary in the exchange of ratifications required to put the German peace treaty into effect, will not change the plans of the American peace delegation, it was learned today. Under Secretary of State Polk and the other delegates will leave Paris on the evening of Dec. 5, and will sail from Brest on December 6.

Only a couple of experts will be left here for the purpose of completing the work in hand. The subsequent participation by Americans in the work of the peace conference, according to the view here, will probably be extremely limited unless there are indications early in the December session of the senate that a satisfactory ratification of the treaty is in sight.

## How to Take Care of a Child's Teeth

Every up-to-date mother will get the little one a child's size tooth brush and a good dental preparation and see that they use both daily. She will not permit a paste of potash and carbolic and tooth pastes or others likely to prove harmful.

Prof. Lewis B. Allen of Westfield, Mass., advises the use of Abolodon Dental Cream in all homes where there are children. Abolodon is calcium carbonate, speckled and mixed with the well-known antiseptic oils of cloves, cinnamon and eucalyptus, making an ideal composition one-third cleaning and two-thirds polishing, one-third antiseptic. It is effective and safe. A tube containing 55 brushings can be bought anywhere at a popular price and guaranteed.—Adv.

## FUNERALS

ANDERSON—The funeral of Mrs. Sarah B. Anderson took place Wednesday morning from her home, 33 Bay street, at 9 o'clock, and was largely attended by many sorrowing relatives and friends. At St. Patrick's church a funeral high mass of requiem was celebrated at 9 o'clock by Rev. Fr. Curtin. The choir sang the Gregorian mass, the solos being sustained by Miss Murphy and Mr. O'Brien. Mr. Shannon presided at the organ. There were many beautiful floral offerings which showed the high esteem and feelings by which she was held by her relatives and friends. In attendance at the funeral were relatives from Lawrence, Amesbury, Gloucester and Newburyport. The casket was borne from the church to the hearse by the following relatives: Mrs. William A. Higgins, Thomas F. Dyer, Denis J. Dyer and William Dyer. After the mass the funeral cortege proceeded to Newburyport, Mass., where burial took place in the family lot in St. Patrick's cemetery, where Rev. Fr. Ryan read the committal prayers at the grave. The funeral arrangements were under the direction of Undertaker William A. Mack.

CONSIDINE—The funeral of John Considine took place this morning at 9:30 o'clock from his home, 669 Broadway, and was largely attended by sorrowing relatives and friends, including the following delegation from the Holy Name society of St. Patrick's church of which deceased was an esteemed member: Daniel Redding, Patrick Ronchon, Patrick Regan and Matthew James. The cortege proceeded to St. Patrick's church where at 10 o'clock a solemn high funeral mass was sung by Rev. Mr. Sullivan, assisted by Rev. Joseph Curtin as deacon and Rev. Francis Keenan as sub-deacon. The choir sang the Gregorian mass, the solos being sustained by Miss Alice E. Murphy, Mr. Daniel S. O'Brien and Mr. James E. Connolly. Mr. Shannon presided at the organ. There was a profusion of beautiful floral tributes and of spiritual bouquets. The hearse was followed by the following relatives: Patrick Flanagan, John Vaughan, Patrick Ward and Thomas Sullivan. At the grave Rev. Dr. Sullivan read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers James P. O'Donnell & Sons.

ABUEI—The funeral of Frank Abuei took place yesterday afternoon from the home of his parents, Frank F. and Dorothy Abuei, 100 Trades street. Services were held at St. Anthony's church at 4 o'clock, the prayers being read by Rev. Fr. Perry. Burial took place in St. Patrick's cemetery. Undertaker H. M. McEloughlin Sons in charge.

IN MEMORIAM  
In loving remembrance of our son, Francis Edward Devlin, who died Thanksgiving day, Nov. 25th, 1918. A precious one from us has gone, The voice we loved is stilled, A place is vacant in our hearts, Which never can be filled. ## Child Almost Dead Grandmother Saves Life

ROXBURY, Mass. A grandmother in Roxbury writes: "I put great faith in your medicine, and one of my children was dying. The doctor said she could not live until morning, and I ran out to the drug store, got a bottle of Dr. True's Elixir, was so excited I gave her the half of the bottle at once, and she did not give her the other half. I thought it was either kill or cure for the doctor says she is dying anyway, but she did not die. She went to sleep the first sleep for a week, and the next morning she passed two worms, red in color, six inches long. The doctor came to see if she was dead, but he ran out pretty quick, as she was sitting in her chair eating a bowl of oatmeal and milk. That was twenty-four years ago, and now she has a baby girl of her own, seven months old, who is also using Dr. True's Elixir." (Name on request.)

Constipation, headaches, tired feeling, weakness, spots before the eyes, bad breath, sleeplessness, irritability, dizziness, and many other signs of sickness, can be relieved, if you take the prescription known as Dr. True's Elixir. The Family Laxative and Worm Expeller. It has done much for sick people, men, women and children, for since 1851—over 68 years.

Take Dr. True's Elixir—give it to your children—The Family Laxative and Worm Expeller. AT ALL DRUGS. DR. J. F. True & Co., Auburn, Me.—Adv.

## ADMIRAL MILLO QUILTS AS DALMATIAN GOVERNOR

ROME, Nov. 26.—Rear Admiral Enrico Millo, who has acted as governor of Dalmatia, as well as commander of the occupation forces in that country, has resigned the former office.

Rear Admiral Enrico Millo recently has taken a prominent part in developments along the Dalmatian coast. When Captain Gabriele d'Annunzio, who has held Piumo for the last two months, with his "irregular" Italian troops, landed at Zara, south of Piumo, on Friday, Nov. 14, he was welcomed by Admiral Millo, who later swore allegiance to the d'Annunzio movement. His action was deprecated in a semi-official statement issued at Rome, but it was said Admiral Millo would remain in his position in Dalmatia pending decision by the government as to what steps it would pursue.

Admiral Millo's title to the "governorship" of Dalmatia was apparently solely by virtue of appointment by d'Annunzio. An account of d'Annunzio's expedition to Zara, sailed from Rome last Saturday, said that d'Annunzio in his speech to the people of Zara concluded by presenting Admiral Millo as "the first governor of Italian Dalmatia." It was stated that afterwards Admiral Millo announced that he had sent a telegram to Rome accepting the governorship of Dalmatia, "in the name of the king of Italy."

Indications from today's despatch appeared to be that in compliance with the wishes of the Rome government, Admiral Millo has renounced the title bestowed upon him by the d'Annunzio expedition.

## PLAN "BARRACK HOTEL" ALONG BATTLE FRONT

PARIS, Nov. 26.—Hotelmen seeing fortunes in the expected flood of American and other tourists next year, are planning to erect "barrack hotels" along the battle front. The national chamber of hotel keepers, co-operating with the government, is seeking private capital to put up such temporary buildings during the winter.

DUBLIN, Nov. 26.—Widespread suppression of Sinn Fein and other organizations in Ireland has been ordered by the government. The Official Gazette today publishes a proclamation prohibiting and suppressing Sinn Fein organizations, Sinn Fein clubs, the Irish volunteers, the Cumannannamahan and the Gaelic league in all counties and boroughs of Ireland.

## Lloyd George Discusses Prohibition

LONDON, Nov. 26.—Premier Lloyd George said today that he never had thought the introduction of prohibition in Great Britain possible, even during the war but that he was watching the American experiment sympathetically, with a mind free from preconceived opinions. The premier's reply to a temperance deputation, to which he made this remark, foreshadowed legislation before Christmas in connection with the control of liquor.

## SYMPHONY ORCHESTRA

Splendid Concert Here Under  
Auspices of the Highland  
Club

The Boston Symphony orchestra came to Lowell last evening to play before an audience which completely filled the Strand theatre and which was quick to evince its appreciation of the artistry of this noble band of musicians. Partially because of the eminent success of two similar concerts given last season and for the pure love of the music itself, the Highland club managed last evening's appearance and its enterprise was richly rewarded.

In the place of Mr. Rahaud as director, came Pierre Montaux, a fellow-countryman of last year's leader. He seems to bring added life and zest to the work of the orchestra and his every motion last night radiated spirit and verve.

Mr. Montaux presented a program calculated to arouse waning interest in the higher forms of orchestral music. 'Sombre at times, it nevertheless did not fail in its educational intent and the cordial response it received placed the indelible stamp of approval upon the leader's choice.

Tschalkowsky's sixth symphony was presented first. Throughout the four movements the pathetic motive is apparent, but the beauty of music rather tends to place melancholy thoughts in the background. To some this symphony is as the life of a man. The story is to them of man's illusions, desires, loves, struggles, victories and the end, but each hearer has his own thoughts when he is reminded by the instruments. The third movement, the march-scherzo, was nobly played; brilliant in the extreme and brightly colored to depict man's triumph in knowing and gaining all that there is in earthly fame. It serves as the pretext for the final 'lamentation' which was brought to an impressive conclusion.

The prelude and love-death from Wagner's 'Tristan and Isolde' was played immediately after a brief rest interval. Its rendition was a fine achievement for the orchestra which rose to the sweeping demands of the text in admirable style. The melodies were carried up in ever growing crescendo, majestic in the heights attained and telling in the retarding and quieter passages to follow.

The prelude to Debussy's 'The Afternoon of a Faun' brought to light an entirely new tonal effect. Its theme is somewhat obscure until one catches the spirit of the poem, but its descriptive phrases grow more prominent as the music unfolds. The chief theme is announced by the flutes and is carried through a gamut of surprises until the violoncello and flute again take up the closing song. The limpid flow of harp tones were delicately traced and as the theme disappeared and came again fresh chords sprang out until the whole work seemed to vanish as a mist scatters in clear air.

The friendly William Tell overture brought the program to a close. It could hardly have been given better, and the vigorous strains of the familiar finale sets heads a-nodding in sympathetic rhythm.

## PROMOTING ANARCHY

Lowell Man Found Guilty in Criminal Court on Serious Charge

Konstanty Dobrolowski, 26, of 101 Lakeview avenue, this city, was found guilty yesterday afternoon in the superior criminal court at East Cambridge on a charge of promoting anarchy and was sentenced to nine months in the house of correction by Judge O'Connell. His brother, Felix Dobrolowski, was tried on a similar charge, but his plea of not guilty was accepted and the case against him placed on file.

The Dobrolowski brothers were arrested on Monday, Nov. 17, by state and local police, following the finding of a poster in the window of a store in Lakeview avenue alleged to depict a woman slain by capital during labor troubles in Pennsylvania. Patrolman John J. Ganley of the Lowell department testified in court yesterday that on Oct. 31 his attention was called to the poster. He said that above the picture was the inscription: "How Long Are We Going to Stand for This?"

Patrolman Ganley stated that he and Inspector Dwyer interviewed the two brothers and that while Felix denied all knowledge of the poster, Konstanty admitted that he had placed the poster in the window after receiving it from a radical publication.

In pronouncing sentence, Judge O'Connell said that the case seemed to be a single instance of propaganda work rather than a part of a system as far as Dobrolowski was concerned and for that reason he intended to make the sentence light. It is the first conviction to come under the anti-anarchy law passed by the state legislature last May.

## Use Famo Every Day If You Want Healthy Hair

The daily use of FAMO on the scalp is as necessary as the tooth-brush three times a day.

FAMO does kill the seborrhea germ that causes dandruff, after a few applications.

But that is really not enough. Unless the scalp is kept absolutely clean, the deadly germ will return.

We know of nothing but the daily use of FAMO that can make it impossible for the dandruff bacilli to grow and FAMO is the one hair preparation that you can safely use daily with beneficial results.

This regular use of Famo means not only a clean, healthy head.

It means also, soft, luxuriant hair and new hair—unless, indeed, the hair roots are dead.

FAMO prevents falling hair and itching scalp.

It has given relief to thousands of sufferers from dandruff.

It retards grayness. Alcohol dries the scalp and hastens grayness.

The application of FAMO takes but a moment.

Sprinkle FAMO on the head and almost at once it is absorbed into the scalp glands and is destroying the deadly seborrhea germ.

So use FAMO every day. No massaging or shampooing is necessary.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

The larger bottle contains a third more than the average.

If it does not give satisfaction, money will be refunded.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrheic excretion forms in scales or flakes and is commonly known as dandruff.

### FIRST IN SERIES OF WHIST PARTIES

The Mathew Temperance Institute held an enjoyable whist party last evening at its rooms in Central street, with music and dancing as supplementary features. Miss Maria J. Markham and John J. O'Grady won the first prizes, two chickens each. Mrs. Rhodes Schofield and William Ryan, the second prizes, to chickens each. Mrs. Rhodes and Arthur Flaherty won the third prizes, two five-pound packages of sugar. The booty prizes were soap and

soapine, won by Miss Lillian McGlynn and Walter Sloan.

The Mathews plan to have a similar party each week throughout the winter season. The committee in charge of last evening's successful affair included Patrick Nestor, Thomas Durkin, Bernard Tully, Arthur Flaherty and Gayton Welch.

**ZOUAVES OF NOTRE DAME DE LOURDES HOLD WHIST PARTY IN HIGHLAND HALL**

A very successful whist was conducted recently in Highland hall, Mid-

dsex street, by the Zouaves of Notre Dame de Lourdes, the event being for the benefit of the organization. The attendance was large and an elaborate program was given. The early part of the evening was devoted to whist under the direction of Arthur Beaucage and later the following entertainment program was given:

Notre Dame de Lourdes' orchestra, Arthur Gormier, piano; Alma Allain violin; E. St. Cyr, clarinet; Clarence Norkey, cornet and Philip Maille, drums; song by the young women of Notre Dame de Lourdes sodality; recitation, Albert Beaucage; recitation, R.

Lambert; one-act comedy, Joseph Belanger, Romeo Loxean and Romeo Loxanger; military drill by the Zouaves; cake auction; address by Rev. Joseph Denis, O.M.I.; orchestra.

The scores were Misses Lillian Beauregard, Eglantine Leclerc, Marie Perrin, Dolores Arsenault, Dora Camille, Cora Lafleur, Leona Lafleur and Flora Hebert.

The judges were Severin Belanger, Joseph Albert, Frank Ricard, Joseph Denis and Edmund Maille.

American Woolen Co. Announces Sick Benefit and Accident Insurance Plan

"Motherhood Insurance," a part of a plan announced by the American Woolen company, assures every prospective mother in the employ of that corporation of four weeks' benefits without any cost to her.

The American Woolen company today announced to its employees a plan of free sick and accident benefits effective at noon, Dec. 1, 1919. The plan includes every employee of the American Woolen company and its subsidiary companies.

The basis on which these benefits are computed is as follows:

No employee is insured under the plan who is not on the payroll of the company on Dec. 1, 1919, working for full time and full pay. An employee who is not at work Dec. 1st because of disability will be insured from the date of his return to employment on full time and full pay. After Dec. 1, 1919, new employees will be eligible when they have been in the employ of the company for a period of six continuous months.

Those on the payroll Dec. 1, 1919, and who have been employed for less than six months will receive 40 per cent of their average weekly income.

Those employed continuously over six months and not more than one year will receive 50 per cent of their average weekly income.

Those employed continuously over one year and not more than two years will receive 60 per cent of their average weekly income.

Those employed continuously over two years and not more than three years will receive 70 per cent of their average weekly income.

Those employed continuously over three years and not more than four years will receive 75 per cent of their average weekly income.

No employee will receive less than \$3 per week nor more than \$30 per week, regardless of his average weekly earnings.

These benefits will cover all cases of disability arising from sickness or accident inside or outside of the worker's place of employment, and are supplemental and in addition to the indemnities provided by the compensation acts of the different states where American Woolen company mills are located for accidents arising at occupation to the extent of the difference between the indemnities provided for by the above plan and the indemnities provided by the compensation acts of such states, except that new employees hired after Dec. 1, 1919, will be entitled only to benefits as provided by the compensation act until after they have completed six months' continuous service.

The benefits will begin only after seven days' loss of time and will continue thereafter for a period not to exceed 26 continuous weeks so that for

accidents occurring at occupation the amount of indemnity paid beyond 26 weeks and the duration of indemnity beyond 26 weeks, shall be only that provided for by the compensation law of the state in which the mill in which an employer works is located.

Benefits for maternity cases, including any illness due to such cases, for employed women will be paid for a period of four weeks only, in amounts dependent on length of service, as outlined in the above plan.

These benefits are in addition also to the American Woolen company group life insurance now in effect.

This is one of the most liberal announcements yet made by any corporation in this section and will undoubtedly produce a spirit of co-operation sufficiently strong to preclude the possibility of petty labor troubles.

The mills in this section, the employees of which will receive the benefits contained in this announcement, are the Beaver Brook, Bay State, Dracut Waste, Lambhead and Wamesit mills, all branches of the American Woolen company.

ANNIVERSARY AND ANNUAL ROLL CALL

It was a pretty gathering that took place in Castle hall last evening for the observance of the 45th anniversary of the founding of S. H. Hines' lodge, Knights of Pythias and the annual roll call of the organization. Sixty-seven members of the lodge answered the roll call and in addition there were guests present from Wamesit and Chevalier-Middlesex lodges of Lowell, Black Prince lodge of Lawrence, Roaring Brook lodge of Keene, N. H., Mount Belknap lodge of Lacota, N. H., and Queen City lodge of Manchester, N. H.

In the early part of the evening a brief business session was held and later the doors were thrown open to the public and entertainment numbers were given by Commissioner James E. Donnelly, George Freeman, the Honey Boy quartet and others. Remarks were made by Past Grand Chancellor Clifford E. Jones, deputy of the lodge; P. C. Clarence J. Way, P. C. Samuel Scott and Brother Merrill of Chevalier-Middlesex lodge. In the course of the evening light refreshments were served and cigars were passed. The committee in charge of the event was as follows: Fred W. Ireland, chairman; William H. Harvey, Wallace Langell, Daniel E. Starkey, Ernest L. Griffin and Charles S. Pettigrew.

THE FAMILAR 2-2-2

EXERCISES IN SCHOOLS

Thanksgiving Day Programs in Local Public and Private Schools

Lowell schools observed Thanksgiving today with appropriate programs of exercises. A number of the schools held formal exercises in the school hall, while others confined their efforts to programs carried out in the individual classrooms. But in some manner or other the spirit of Thanksgiving was brought to the minds of the pupils in song, story or recitation.

At the high school there were no formal Thanksgiving exercises although the students met in the assembly hall during the final period to make plans for support of the football eleven at tomorrow morning's game with Lawrence high.

At the Lincoln, Colburn, Washington and Riverside schools as well as in many private schools, the exercises were held in each classroom. Programs carried out in other schools were as follows:

EDSON SCHOOL

Reading: Governor Coolidge's Thanksgiving Proclamation, John Kenefick. Singing: "America." Grades 8 and 9. Recitation: "Thanksgiving Day in the Morning." Agnes Sharkey. GOOD-BYE, WEAK NERVES!

"Nothing wrong but my nerves." We hear it everywhere. Nervousness is a disease. A man or woman might better have a broken arm or leg than a shattered, run-down, nervous system.

Overwork and worry drains the nerve cells of all their strength and vitality; then come the sleepless nights, poor blood, nervousness, worry, and fear, that go with a run-down nervous system.

In cases of this kind, Phosphated Iron rarely fails to strengthen and build up the phosphate-hungry nerve centers. It takes hold right from the start.

The way the majority of people "come back" is remarkable. You can almost see their nerves grow strong, steady and peaceful. Their eyes sparkle, their cheeks are filled out, and flushed with the healthy, ruddy glow that only pure, red, ironized blood can give, and their whole system is alive with youth, energy and good spirits.

Phosphated Iron will do all this for old or young if they will give it a chance. Get a box today and watch it build you up. Ask for Phosphated Iron Capsules. Be sure you get capsules. For sale by

LAWRENCE WITHOUT STREET CARS AGAIN

Lowell people who had occasion to visit Lawrence this morning saw the unusual sight of a city overrun with jitneys and two street cars in operation. As a result of the act of the Bay State in withdrawing all its city line cars, the Lowell-Lawrence cars and those running between Lawrence and Haverhill by way of North Andover were the only ones which appeared in the streets. The Lowell cars as far as the transfer station where the Haverhill electric meets it. Not only was the fleet of jitneys composed of automobiles of every conceivable size and make, but many of them came from distant cities. Large busses from Lynn and Brockton were in operation, also Haverhill, Beverly and Swampscott.

SACO-LOWELL SHOP STRIKERS MEET

The striking employees of the Saco- Lowell shops met for a routine business session in Grafton hall at ten o'clock this morning. Reports of shop and picket committees were read and accepted and it was announced that the men will meet again tomorrow, Thanksgiving day morning at 9 o'clock. As far as new developments were concerned the meeting produced none. The strikers will commence to draw strike benefit money next week, the first payment of which will come on a week from Tuesday. The constitutional benefit is \$3 to married men and \$6 to single men per week, but this may vary according to local conditions.

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomel.

It should clean out your head and open your nose in two minutes and allow you to breathe freely.

Hyomel often ends a cold in one day, and brings quick relief from snuffles, hard crusts in the nose, hawking, spitting and catarrhal mucus.

Hyomel is made chiefly from a soothing, healing antiseptic oil, that comes from the eucalyptus forests of inland Australia where Catarrh, Asthma, Bronchitis, Gonorrhea, Influenza, Pneumonia and Consumption were never known to exist.

Hyomel is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, used as directed and relief is almost certain.

A complete Hyomel outfit, including inhaler and one bottle of Hyomel, costs but little at Druggists everywhere, if you already own an inhaler you can get an extra bottle of Hyomel at drug-cists.—Adv.

REAL "WOOLLY" WOLF COMES TO LOWELL

Several people who were in the vicinity of Merrimack square shortly before 10 o'clock this morning were given an opportunity to get a good look at a real live wolf, which was being given a little exercise through the streets of this city by a young man employed by Emerson & Parkhurst of Chelmsford Centre. This wolf, which is believed to be about six months old, is one of three recently purchased by Messrs. Emerson and Parkhurst from a trapper of northern Vermont. The animal is of a silver gray and weighs about 40 pounds. The other two are younger and smaller and their fur is of a darker shade. The young man who accompanied the "visitor" stated that the animals were purchased for their fur and that their days are numbered. They are being fed on meat, potatoes and bread and they are big feeders. They have been tamed to a certain extent, but they must not be given too much freedom for they are very wicked and have to be watched very closely. The wolf wore a strong collar around its neck and shoulders and was attached to a heavy chain.

Lake Superior in Grip of Storm

SAULT STE. MARIE, Mich., Nov. 26.—The storm that has swept Lake Superior since last Saturday, showed no signs of abatement today, reports reaching here indicating that shipping generally was laying up in various harbors. A high northeast gale was lashing the east end of the lake and two more vessels have been driven ashore in the blinding snowstorm. The steamer W. C. Richardson, disabled while seeking shelter from the storm, was being towed to this port. No word that would indicate the fate of the crew of the Myron, which went down Saturday, has been received and the owners of the vessel have all but abandoned hope for their rescue.

Demands by Esthonians Granted

REVAL, Tuesday, Nov. 25.—Demands by the Esthonian government that the Northwestern Russian government cease activities within the boundaries of Esthonia have been complied with, according to information in official circles here. Bolshevik forces continue their attacks against the Esthonians in the direction of Narva, using heavy forces in the fighting, which is very severe. New Bolshevik regiments are constantly being sent against the Esthonian positions, but Esthonian morale is said to be good and, being in fortified positions their losses have been small compared with those suffered by the reds. Bolshevik peace agitation is reported not to be influencing the rank and file of the Esthonian army.

One day in every week—one-seventh of a lifetime—women used to spend on washday tasks like this! Rinso washes your clothes WITHOUT RUBBING

# The Modern Way of Washing

You just *soak* your clothes clean instead of the old rubbing and boiling

Your clothes wore out this metal washboard—what did it do to your clothes?

YOU know the old way of washing well enough. The cluttered, messy kitchen. The long standing over the steaming boiler. The rubbing, rubbing of your clothes on the washboard—rubbing that frayed the edges of collars and cuffs, and faded the color out in specially hard-rubbed spots.

Next Monday, try the modern way of washing!

Just *soak* your clothes clean! Soak them with the wonderful new form of soap for the family washing—Rinso, the new soap product, in fine granules.

### Different from anything ever before produced

Rinso is different from anything you have ever used before.

There is no solid soap to stick to the fabric—there are no harsh cleansing agents in it. Your clothes *soak* as safely in Rinso suds as in water alone.

Its fine granules are so rich in cleansing

value, they loosen every bit of dirt as the clothes are soaking.

### Makes clothes last twice as long

You rinse the clothes in the morning, and all the loosened dirt is gone. Only a few badly soiled spots will need a light rubbing between your hands.

All the rubbing of cake soap on your clothes is saved, all the cruel rubbing on the washboard.

You need never boil your clothes, except occasionally, if you wish to sterilize. For Rinso cleans as perfectly in cold water as in hot!

Saved from all this hard treatment, your clothes actually last twice as long!

### Try it on the hardest things to wash

Give Rinso just one trial—a hard trial. Try it on kitchen aprons, that have so many hard-to-get-out things spilled on

them. Try it on dish towels, that you think now you have to *boil* clean. Try it on your small boy's suits, with the dirt just ground in

You will be amazed at the simplicity of it—at the ease—at the clothes so clean and white, without all the old-fashioned work.

You simply cannot believe how wonderful Rinso is until you have used it week after week, and seen how beautifully white your clothes keep. Until you have seen how much longer they wear, and keep their colors.

### Start using Rinso this week

Begin with your very next week's washing to launder clothes the modern way.

See what a simple matter the weekly washing becomes when you follow the easy directions on the Rinso package.

Get Rinso from your grocer. One package will do your whole week's washing.—Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)

### No more of this!

No more hours of drudgery over a steaming boiler. Rinso washes your clothes WITHOUT BOILING

Just soak the clothes over night. And rinse them out spotlessly clean!

### Rinso is not a "washing powder"

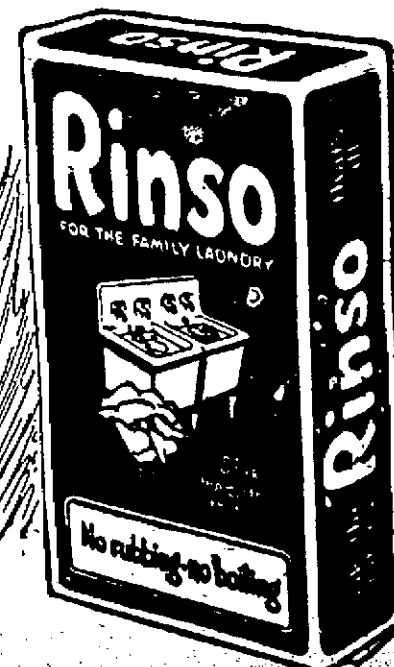

The fine granules of Rinso *look* much like a "washing powder," but—make this test. Use a heaping teaspoonful to a glass of boiling water

"WASHING POWDER"—high in harsh chemicals—low in sapon

## FIGHTING FOR LIFE

Startling facts which should make every citizen of Massachusetts sit up and take notice are being brought to light regarding the current danger of tuberculosis here.

Dr. Bernard W. Carey, in charge of the state's manifold activities against the White Plague, states that at least ninety per cent of the people, which means nine out of each ten of us, are carriers of the tubercle bacillus. This does not mean that we are affected with it in the active form. It means that at some time, usually before we reach the age 16, we acquired the germ. In the greater proportion of us the bacilli are "beaten over," that is they are in an inactive state. But the fact, the doctor says, remains that they are in us.

Now tuberculosis is primarily an infection of youth. We get it principally when we are children—too often very young. But we overcome it. The germ lies dormant in our bodies. We go along about our business finely enough, until the day comes when we have laid a stress upon our powers of resistance, upon our physical reserve of stamina, upon the "money in the bank" which the strength which we store away means to us. We are depleted and the inactive tubercle bacillus becomes active. The original seat of infection may have been in the abdomen, in the glands of the neck, in the lungs.

During thirteen weeks of continuous autopsy work in Germany at a leading medical school there in 1914—before the war—Dr. Carey was able to find but three cases out of the hundreds which were autopsied which did not carry the tubercle germ.

In connection with another phase of this subject, Dr. William R. P. Emerson, professor of children's diseases at Tufts college medical school, makes the statement now, that the need of the nutrition clinic for our school children and for all children is becoming one of the most pressing requirements of the country.

The answer to this, the physician states, is because one-third—that means one child in every three—are under-nourished. This includes children of the pre-school age—the babies—and those of school age.

It is a fact that we get germs when our resistance is low. If the baby or the growing child is given food that does not properly supply the demands and the needs of the body, or if not given sufficient quantities of the right kind of food to satisfy the needs of his system, he becomes an easy victim of the tubercle germ.

The first thing for us to do then, if we are going to rout out this deadly plague, is to look after the children. The tuberculosis fight begins with the little ones. The nutrition clinic for delicate children and for all children who are shown by examination to be under-nourished is a positive and pressing need in Massachusetts.

Not a child should be permitted to go to school who is not well fed and properly fed.

If this idea can be carried home to all of us it is highly probable that we shall gain a lap on tuberculosis. If we are to be able to carry out the nutrition clinic idea and to push all the other allied activities which are a part of the tuberculosis battle, it behooves us all to give what aid we can.

The sale of the Red Cross Christmas Seals begins December 1 and continues for ten days. We should all "get aboard." Every one of us should buy liberally. We should all volunteer for personal service where it is possible. It is an essential to success. The drive should go over the top with a whoop. Let Lowell in this as in other drives do her full duty.

In mill cities such as ours the percentage of deaths from tuberculosis is usually greater than in those in which a higher proportion of the people work in the open air. It is not implied, however, that factory conditions in Lowell are bad. They are as good as could be found anywhere else in the country, as good as conditions can be where large numbers of people are employed in the various processes of textile manufacture.

We have, therefore, a local and special reason for putting our shoulders to this movement for the sale of Red Cross Christmas Seals, a

part of the proceeds of which will be devoted to fighting the White Plague.

## THANKSGIVING

We—each of us—have many good and sufficient reasons for being thankful on Thanksgiving day, although some of us may not think so. And not the least of these is that we are Americans.

The Americanism, planted on the virgin soil of a new land, an unbroken wilderness of savages, and waste, shaped and guarded by the lifeblood of men noble and brave, is ours by inheritance and ours by acceptance. Through the hands of American patriots, in days of peace and war, it has come to us. It is indefinable, without limit, and comes alike to the old and the young, the rich and the poor, the man and the woman, the native and the foreign-born who will accept it.

It is this Americanism which stands so solidly against the enemy of civilization, the foe of humanity, the Red plotter of anarchy. It is this Americanism in our breasts which makes of Americans a people united when the time-honored principles of freedom and democracy are attacked. It is this same Americanism which so stoutly withstands the onslaughts of the foreign agitator and his co-conspirator, the native born, discontented advocate of minority rule.

Just as this spirit of Americanism made it possible for the people of the United States to throw the weight of the mightiest nation on earth into the scales of war when right and justice were sorely tried, just so will Americanism save the land from the internal chaos toward which the extremists on our shores would haul America in their mad endeavor to make of our government what the small handful of citizens desire and what the vast majority fear most earnestly—and with reason.

"When we have the rule Russia now has," exclaimed one Bolshevik sympathizer recently, "you'll hear no more of 'Americanism.' What is 'Americanism,' anyhow?" he screamed.

Americanism, we would like to explain to this individual, is government by the majority, not by the minority. It is government by ballot, not by bullet. It is government by law, not by license. And this is why we Americans give thanks for our Americanism.

He was right when he insisted that Americanism would become extinct with the advent in America of Russianism. Nothing more true was ever spoken. Americanism and Russianism could not live in the same land. Before Russianism could triumph here Americanism must die. Some there are who believe Americanism can be killed in American hearts. They are those who believe Russianism can rear its ugly head in the new world. We don't believe it. There are over ninety millions of other Americans who don't believe Americanism will ever cease to exist. Nothing in all the world is more alive, nor stronger, than this Americanism for which we Americans give thanks this day.

War's reaction—the period of social unrest and economic disturbance—has not weakened the spirit that dwells in the hearts of Americans, the spirit that took of a new world and made it the greatest, richest, most democratic country on earth. A year of peace has made us better Americans than ever, stronger Americans, more democratic Americans, more ardently wedded to the American doctrine that right shall prevail, that the majority shall rule, and that common justice shall go alike to all Americans.

Are we thankful that this is so? Most certainly! Truly and honestly thankful that we have this heritage of Americanism and that we may pass it on to our children's children.—N. E. A.

## DRIVE OUT THE REDS

It is announced in the news despatches that a number of the Reds are on strike at Ellis Island having refused to attend deportation hearings. It seems that this is the result of too much consideration for these agitators. They should be deported without any undue delay; and if the United States took them out into the Atlantic and dumped them overboard it would be giving them the treatment they deserve. The authorities, however, wish to deal with them strictly according to law and as a result there is some delay. On the other hand it is reported that Russian Reds are coming in here across the Mexican border. The government should see that no such invasion is tolerated. If this report be true, they are coming here to spread the soviet propaganda and help their fellow conspirators in promoting the revolutionary movement in this country. The proper treatment for these men would be to line them up in front of firing squads and have them disposed of in that way rather than by deportation. But as we have said the government is acting on strictly legal lines and will undoubtedly continue to do so; but the authorities are mistaken if they think that the people of the United States will tolerate any delay in driving these vipers out of the country.

## LOWELL'S THANKSGIVING

If we consider the conditions that exist in many other cities throughout this country we shall easily realize how much Lowell has to be thankful for. Although we have many different nationalities making up our population yet we are fortunately comparatively free from revolutionary elements that have made so much trouble in other cities.

Although we have had several strikes, none of them has been of very great importance, nor has any proved very injurious to the community. Our labor unions have shown a conservative policy by refusing to follow the advice of radicals a few of whom have undoubtedly found their way into the ranks of the union.

Our textile industries have fortunately been able to avoid labor troubles and are in a fairly prosperous condition. There is very little lack of employment for those who want to work although there is considerable difficulty in placing men in the particular kind of work for which they are best adapted. These conditions, however, will right themselves very soon and all that is needed is continued work at fair wages to insure permanent prosperity.

That we are free from any epidemic such as the influenza, free from the scourges of war and rejoicing in the fact that so many of our soldier boys have been able to return home, is proof that on the whole Lowell has a great deal to be thankful for.

There is very little poverty in our city despite the high cost of living and although the price of turkey is high, yet there will be more Thanksgiving turkeys disposed of at the family board this year than ever before in our history, for which let us be duly thankful.

## MR. FORD ON STRIKES

Henry Ford in a recent issue of his paper, the Dearborn Independent deals with labor strikes in rather an original way and in reference to the general subject says:

"When two unreasonable parties refuse to reach an agreement, their quarrel should be confined to themselves alone; it should be prevented from doing harm to others. But when two reasonable parties cannot come to agreement, it is time to look behind the scenes for a third party whose interest is to keep them quarrelling. This applies to labor disputes as well as other disputes. Sometimes both employer and employee are unreasonable and do not seek agreement but conquest; in which case their unreasonable behavior ought not to be permitted to cause inconvenience or loss to the public. But there have been occasions when both employers and employees were reasonable enough to be able to reach an agreement, and were prevented by hidden influences.

"There are interests that make money out of certain kinds of strikes. If these strikes did not pay somebody, there would be fewer of them."

It is not quite clear what Mr. Ford has in mind when he makes the final statement, whether he refers to a rival business or the professional agitators who usually find fat picking in some strikes, but in the long run the strikers or their friends have to pay the bill.

## CITY AUDITOR'S DUTIES

The city auditor is obliged to afford any citizen of Lowell facilities for securing information in regard to the present state of municipal finances, but he is not obliged to set the entire force of his office to work on campaign documents for any particular candidate. The books of the auditor's office and the reports of the financial condition of the city are available to all candidates alike, and the statement that the auditor refused to make out any elaborate digest of present and past expenditures and future contingencies, even if true, does not indicate that that official was not wholly within his rights in so doing.

## SEEN AND HEARD

Don't feel neglected if the lady of the house doesn't serve turkey tomorrow—you won't be alone in the world.

By feeling the bumps on a man's head, asserts Squire Abner Harrington, you often can tell what sort of a woman his wife is.

Could it be that the members of the school board feared there would be a surplusage of harmony if the Boston Symphony orchestra and the school committee held forth on the same evening?

If I have a dollar and you have a dollar and we exchange, you have a dollar and I have a dollar. But if I have an idea and you have an idea and we exchange, you have two ideas and I have two ideas.—Howard (Kan.) Courant.

A book-agent may be defined as a person who thinks he knows more about your business than you do and is confident that he can show you ways to improve your methods even though he has studied your business from the necessarily concentrated pages of an advertising booklet.

## Air Was All Right

In the bustling Christmas shopping crowd the little man was knocked down, trampled upon, and kicked about.

Then they made room for him. "Stand back," somebody cried, "give him air, and hurry up with a drink of whiskey."

"Never mind about the air, doctor," the patient whispered.

## Two Sisters Meet

The other day two sisters met. "An everyday happening," you say? Not on your life! These sisters, Mrs. S. R. Whitney of Kentville, and Mrs. Mary Lloyd of Jackson, Mich., hadn't seen each other in 62 years. They were separated in 1857, and their ways through life were so far from each other that they never came within calling distance until one was 83 and the other 86.

## New Walk Promoter

One of our best little old fashion writers has this to say:

"The short, tight skirt, the fuller hips, the lack of bodies, on dinner gowns have combined to bring on a new walk. It is not easy to describe, but a few slim, young people can do it very well. The body is thrown back from the waist and there is a suspicion of the goose step in the way the feet are thrown out. The hips move in such a way as to attract attention to the draperies or pockets or whatever else may trim them, and the result is as strange as a new dance and not more graceful."

You agree with us, don't you, that it couldn't be more graceful? Of course.

## Thank God For Rainy Day

Most of us are made more or less unhappy by rainy days and the following article by Rev. Chas. Stelzie, staff writer on religious topics for the N.E.A., may assist us in obtaining a different viewpoint.

It's raining. And, in spite of what Solomon said about the monotony of the dropping of a rainy day, I like it—sometimes. I like it not only because God made the rainy day as well as the sunny day, and therefore it must have its "hidden" blessings for mankind, but because I think I've discovered some of these secret blessings for myself. We'd get eternally tired of the constant shining of the sun—no soft morning when the clouds carry mist and when the hills are crowned with color. Give me the rainy day when sounds are softened—the kind of a day when the house seems cozier than ever, when the world is shut out and our loved ones shut in. Then is the time that we get closer together, and we have a chance to smile at each other. We discover things in the house that we never noticed before, and the old familiar things take on new meaning with their darker tones and their more intimate setting. And when it pours and pours as

### RED PILLS

for Pale and Weak Women

During my married life, I have had twelve children, but nevertheless, I had enjoyed the best of health until the change of life which left me in a critical state of health and in a weakened condition. I had been advised by friends to try RED PILLS, which were sold at a very reasonable price. I did as I was told, and after using about six boxes, I was astonished to see how much better I was feeling; therefore I continued to take them regularly until I was completely recovered. Without any outside help, I attend to all the household duties, cooking, and sewing for eight people, and still I enjoy perfect health.

## RED PILLS are for women only.

They are always sold in boxes of fifty pills, 50 cents a box, 5 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

Though the heavens would fall, we say to each other: "How fortunate that we have such a comfortable home." The mists that gather about the stately buildings make it appear that heaven has come closer to the city, and the low-lying clouds that touch the tree tops create the feeling that God is not far away. You sit cozily near the window and read and dream and plan and hope—and the rain brings a calmness that clears your mind of troubles and perplexities. The world takes on new meaning and life is sweetened and broadened and deepened.

## MAN ABOUT TOWN

It takes all kinds of people to make the world, the old saying goes, and I suppose that book agents are an integral part of the scheme of the universe. But for some reason or other I never could understand why men as capable and cultured as many of them seem to be, should resort to the method they do in selling their wares. I know of scarcely any other line of business or profession whose followers can be more offensive when they want to be. Even the ordinary man can tell in a few minutes whether he is boring or interesting the person with whom he is conversing, but the book agent, despite his constant meek-

## Try Making Your Own Cough Remedy

You can save about \$2. and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

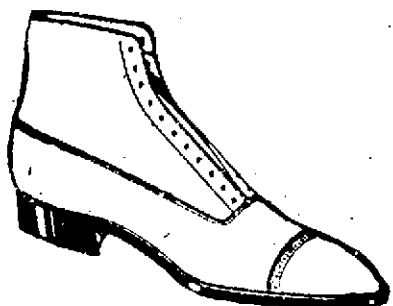

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept any thing else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

ing of men and women, always progresses on the theory that his listener is interested when nine times out of ten he is not and is really squirming within. A book agent "got" me the other day and talked to me for at least 15 minutes without my showing the slightest sign of interest. And yet he seemed a perfectly intelligent, likable fellow in other respects. Finally he said: "So it's only a matter of price, is it?" and walked off almost insolently.

What's the answer?  
The high cost of clothing is the cause of the army coat becoming the most popular coat this winter. I am told. I notice that many local ex-service men are wearing the khaki coat instead of paying \$50 or \$60 for a new one. Some of them have had the coats dyed various colors, particularly blue and black, and they present a smart appearance, too. The former doughboys say that they are the warmest things in coats that ever happened, and feel mighty glad that Uncle Sam has allowed them to retain possession of their garments.

## THANKSGIVING PRAYER ADOP-

ED BY INTER-CHURCH MOVEMENT OF N. AMERICA

The following beautiful Thanksgiving prayer has been officially adopted by the Inter-Church World Movement of North America for use in the churches of all Protestant denominations participating in the movement.

Almighty God, Who in earlier days led our fathers forth into a large inheritance, give us grace, we humbly beseech Thee to pass through these days of unrest and turmoil in confidence and courage that what has been so well begun will come to rich completeness.

Bless our land with the fruits of honest toil. Save us from the discord which misunderstanding brings. Keep our feet in the path of righteousness. Teach us to love liberty and justice and to practice them to the upbuilding of the entire world as well as our own native land. Fashion into one people

the multitudes brought hither out of many countries and make them true Americans.

Give us grateful hearts for the abundant harvests of the year. In the time of our prosperity temper our self-confidence with the recollection that "every good and every perfect gift is from above." Let no anxiety rob us of the consciousness of Thine abiding love. In the day of trouble suffer not our trust in Thee to fail. Be patient with us when our purposes break down or our endeavors seem of no avail.

Go with us into Thanksgiving Day. Teach us to give thanks for all the blessings of the time, to fear nothing but the loss of Thee and to perceive the sun of Thine enduring love forever shining behind every cloud.

Bless us all at the Thanksgiving board. Be with those who cannot be with us as well as those who can. Make us, wherever we may be, one in that unity of hope and faith and love which neither time nor distance can destroy. And send us forth into the future with Thanksgiving faces and Thanksgiving hearts—eager to labor, strong to endure, and useful to the land we love. Amen.

## HOUSE OF CORRECTION

Convicted of larceny in two separate complaints, James Laird, a Lowell young man, was sentenced to six months in the house of correction in the superior court in East Cambridge yesterday. A third charge of larceny was thrown out following a disagreement of the jury. Laird was arraigned in Lowell police court some time ago on charges of snatching women's pocketbooks and sentenced to 13 months in the house of correction. He appealed the case.

## PAY DAY AT CITY HALL

Municipal employees were paid off today instead of Friday by the treasurer, so that they may have the benefit of their money for the holiday. This week's payroll totals \$29,599.66 and includes the payment of the precinct officers who served at the city primaries.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double its beauty. You can't see it, but it's there.

## NEW BANKING ROOMS

Lowell Institution for Savings Has Well Appointed Quarters

The new home of the Lowell Institution for Savings in Shattuck street was thrown open for public gaze and inspection at 3 o'clock this afternoon. The privilege extending until well into the evening. This old banking house has moved down stairs to the ground floor of a splendidly remodeled building, sturdy in its exterior appearance and decidedly attractive and thoroughly modern in its interior appointments.

The highly polished woodwork shines like glass, while the metal counter tops and other furnishings added to beauty of the decorative scheme. Flowers adorned the railings and office desks and the bank personnel, headed by Edward B. Carney, treasurer, took justifiable pride in greeting many friends and showing them the splendid plant.

The changes which have converted the bank building from an old fashioned landmark into a modern, solidified structure of sanded brick and heavy stone trimmings have been sweeping. Until the present changes it was three stories in height and the roof slanted to ridge poles above that. Now it is a two-story affair with a flat roof. A heavy copper cornice changes the aspect of the building as much as any other one thing. A great light shaft in the roof brings direct sunlight down into the ground floor space of the new banking rooms. The trustees of the bank are inclined to nickname the building as the "daylight bank" as windows are numerous on both sides and the overhead light shaft adds materially to the light. The old time balcony rimming the second story windows on Shattuck street remains.

Another striking change in the old

structure is the elimination of the oval rotunda which made the second floor an unusual one. This was built in 1855 to be the stock exchange of Lowell, but the exchange never materialized. The great central light shaft occupies much of the space used by the rotunda.

The new ground-floor banking rooms are wonderfully attractive. The entering door is on the rounded corner in Shattuck street on the corner toward Merrimack street and the exit is on

EDWARD B. CARNEY, Treasurer

the corner of Shattuck and Middle streets. There is a wide door and a comfortable vestibule. This vestibule is finished in mahogany with cement floor and rubber mat. The entire floor to be used by the public is of high-grade terrazzo. One is struck at once on entering by the large size of the public space of the bank. It is large enough to permit of 100 persons

standing at one time. A handsome feature of this section of the banking rooms is the huge fireplace and mahogany mantel on the Shattuck street side. The old fashioned andirons and the beautiful clock add much to the appearance of the room.

At the left on entering, a few feet back from the door is the treasurer's consulting room, a mahogany paneled wall with ground glass windows. Adjoining this, behind the mahogany waist high railing is the treasurer's office where Edward B. Carney, the treasurer, and the third treasurer of the bank in all its 90 years, will have his desk. From his location the customers' counter continues straight across the length of the room so that the public space on the Shattuck street side is cut off from the working part of the bank. This counter is of the same mahogany finish, has nine openings for business and the counter itself is covered with linoleum with glass as a surface at the window openings. A dark bronze grill tops the counter from end to end.

Inside the counter the bank workers will be enclosed in a grill protection which will include the entire working space. On the Middle street side, beyond the working space and somewhat in the rear, is the telephone exchange room, also done in mahogany. In this will be the typewriters and adding machines. The clerks' dressing rooms and the stock room are in the rear corner. At the other end, behind the treasurer's space, is the trustees' room, a handsomely finished apartment done in mahogany. The entire bank is equipped with electric fixtures of an unusual and decorative style. The ceilings are cream color and the walls buff. In the center, in the rear of the counter work space, are the public coupon booths and behind them the toilet rooms. Planking these coupon booths are the huge vaults, one on each side.

These vaults, merit a description as they are the last word in safety and mechanism. The first is reached by the public for the purpose of using the safety deposit boxes, the vault having a capacity of 2500 such boxes of varying size and fitted with the double keyhole safety system. Entrance to this is by a special door through the counter and the passage is through a grillwork entry leading to the vault and the coupon booths. The huge safe door weighs 10 tons, has a time lock and possesses all the burglar alarm devices available. It is of special construction, steel, etc.

The vaults are both of steel and reinforced concrete and possess tops that are so heavily constructed that they cannot be crushed in. The safety deposit box vault is open on all four sides so that one may walk entirely around it. Within this vault one is impressed by its solidity and strength. In its rear, behind a steel fence, are the bank's own security boxes where millions of value will be safely stored. The other vault, larger in area, will be for the books and records of the bank. This has a five-ton door and will be fitted up for storing the books.

The entire ground floor is occupied by the banking rooms and has an area of 5500 square feet. It forms a most attractive room for both customers and bank workers. In the basement the

foundations for the vaults form two more vaults with heavy doors where storage can be had. The boilers and coal pockets are also there. In this basement the construction revealed an old and half forgotten well, long since filled up, where early tenants of the bank building were accustomed to draw water.

## WE HAVE MUCH TO BE THANKFUL FOR

Old Man Gloom will tell you there's nothing left for us humans to be thankful for tomorrow.

But he's all wrong.

And we can prove it.

"Instance, consider, if you will, the case of beer. True, we haven't any in Lowell just now, and perhaps never will, but we can still smoke.

And after they take our smokes away—which appears to be a possibility in the not far distant future—there is, no law that we know of which prohibits gum chewing.

Then here's another thing.

Back in the days when Thanksgiving was first inaugurated, a poor man had to walk to his daily tolls.

Now he can ride luxuriously to work in a street car and laugh at the wealthy citizens whose autos have broken down while on their way to business.

Back in those days one learns from the histories that a man was in constant danger of being shot by Indians.

In this present year of grace one can't even get "half shot."

A fellow had to go to church every Sunday then, whether he was sleepy or not.

Now he can stay in the hay from sunrise until sundown, and no one asks any questions.

In those times one had to go out and shoot a turkey for Thanksgiving.

But today all that is necessary is a trip to one's butcher, who will give one all the turkey he desires—at anywhere from 40 to 60 cents a pound.

Again, there are lots of things one gets free nowadays. There's fresh air, salvation, influenza and a lot of other things we can't think of this minute.

Which proves what we have already said, that Old Man Gloom is all wrong. There's lots of things to be thankful for—if one has the time and energy to think them up.

However, what we really started to unroll from our Remington was a little yarn about the cost of a Thanksgiving dinner. Perhaps you've already purchased yours, in which case we ask you to hand the story to some one who hasn't.

An investigation of the local market has proved to us that for the small sum of \$7 one may buy a fine dinner for the holiday—provided one's family isn't too large, or "company" is expected.

The piece de resistance, by which we refer to friend turkey, can be

bought, as aforesaid, at prices ranging from 40 to 60 cents a pound. Also the dealers will give you a written guarantee that it is not a cold storage bird—at least, one dealer we met stated he was willing to go even to this limit to back his convictions.

Ducks and geese, for the man with an epicurean taste, are not very plentiful here. Some marketmen have green geese at 45 cents a pound, and there are a few stores where fancy ducks are purchasable at 50 cents a pound. But the average dealer appears to be specializing this year in turkey, chicken and fowl. These cost from 30 to 60 cents a pound.

For those who prefer suckling pigs to turkey or chicken, there are many dealers who have just what you want at \$4.50. Fresh hams are bringing 35 to 40 cents a pound and whole hams cost from 30 to 40 cents.

Vegetables are plentiful. Squash is

four cents a pound, onions 5 to 8 cts. and turnips, carrots and parsnips 5 and 6 cents. Potatoes run from 50 to 55 cents a peck, squash and pumpkin may be bought at 1 cent, and spinach sells at 45 to 55 cents a peck. Celery sells at 33 cents a bunch and string and butter beans 25 to 31 cents a quart.

Cranberries are going begging at 10 cents a quart as a result of the sugar shortage. Mixed nuts sell for 30, 40, 45 and 50 cents a pound and Italian chestnuts are 40 and 45 cents. English walnuts sell at from 35 to 45 cents a pound. But, why enumerate, read The Sun ads and see for yourself.

## Break a Cold In Few Hours

First dose of "Pape's Cold Compound" relieves all stuffiness and distress—No quinine! Costs little!

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a cold and ends all griping misery. The first dose opens clogged-up nostrils and air passages of head; stops nose running; relieves headaches, dull-

ness, feverishness, sneezing, soreness, stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist on Pape's!—Adv.

It Isn't Necessary to Close the Kitchen Door Now That We Have a "Wear-Ever" Aluminum Griddle

A KITCHEN full of smoke and odor of grease is unknown to the woman who uses the "Wear-Ever" Griddle when making that distinctly American and most delicious breakfast dish—griddle cakes.

No grease necessary—and the cakes do not stick, but are browned beautifully and baked thoroughly—light, deliciously appetizing and wholesome.

Heat the griddle. (Some women place a bit of butter near the outer edge of the griddle. When the butter browns, griddle is hot enough to bake cakes.) Then turn down the flame about one-half. Save fuel!

It now is possible for you to get shapes and styles of "Wear-Ever" utensils which have been unobtainable during the war because so many thousands of tons of aluminum have been used in making cooking utensils for soldiers and sailors.

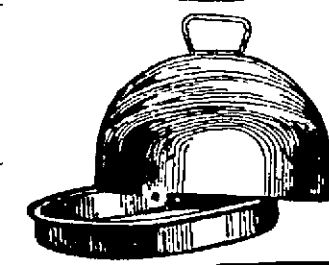

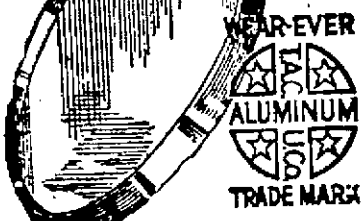

The utensils which gave enduring service there will give lasting service here.

## Salute the Ham and—

Think of All the Misguided Dyspeptics Who Refuse the Good Things to Eat for Fear of Indigestion. No Trouble Like That if you Follow Meals With Stuart's Dyspepsia Tablets

Lay a slice of broiled ham on a white plate with a couple of nice

fried eggs and there you have a picture. Salute the autocrat of the breakfast table. But don't say, "I can't eat ham and— they don't agree." This is the sort of prejudice a host of people have against many of the most tempting dishes, people who have just as much trouble with a glass of milk or oatmeal as they do with fried onions. Try eating what you like and follow your meal with a Stuart's Dyspepsia Tablet to relieve possible gasiness, rumbling, drowsiness, sour risings, heartburn, water brash, and the "stuffy" feeling after eating. These Tablets contain harmless ingredients that act with an alkaline effect just as the stomach does when it is perfectly normal.

Many physicians prescribe them for indigestion, dyspepsia and other digestive disorders, as they are sold in all drug stores everywhere. In the United States and Canada, the druggist recommends them as among his steady staples for they really give relief and are highly appreciated.—Adv.

## BIG GAME TOMORROW

Lowell and Lawrence, Rivals  
for 25 Years, Meet at  
Spalding Park

When the football teams of the Lowell and Lawrence high schools lineup opposite each other at Spalding park Thanksgiving day morning it will mark the 25th anniversary of the date on which these rival institutions commenced athletic relations in this great city of school and college sports.

Since 1891 when Lowell started the ball rolling with a 21 to 0 victory over Lawrence, the two schools have met 24 times. Thirteen of these games have resulted in Lawrence victories, five have been wins for Lowell, and four have been draws. In 1896, 1897, 1898, 1910, 1912 and 1913 no games were played, but in some of the intervening seasons two contests were staged, which bring the total to 24.

## Quarter Century of History

The two elevens which represent the schools this year have a quarter century of tradition and rivalry in the background to serve as incentive power for this last game on the 1914 schedule of each team. As regards weight, Lawrence seems to have the edge. A slight advantage will be hers in the forward line and her backs will carry more poundage. Her season also, has been a trifle more fortunate, but in this regard they are even. Lawrence is sure to rise to dizzy heights of accomplishment, often far in excess of pre-season form. It is the team with the ball and brains which comes out on top.

## Record of Games Played

The record of games played between two high schools since 1894 follows:

1891—Lowell 24, Lawrence 0.
1895—Lowell 4, Lawrence 4.
1896, 1897—No game.
1898—Lowell 5, Lawrence 33.
1899—No game.
1900—Lowell 0, Lawrence 30, 1st game.
1900—Lowell 0, Lawrence 11, 2nd game.
1901—Lowell 0, Lawrence 0.
1902—Lowell 6, Lawrence 0.
1903—Lowell 0, Lawrence 17, 1st game.
1903—Lowell 0, Lawrence 29, 2nd game.
1904—Lowell 0, Lawrence 24, 1st game.
1904—Lowell 0, Lawrence 19, 2nd game.
1905—Lowell 16, Lawrence 12, 1st game.
1905—Lowell 11, Lawrence 0, 2nd game.
1906—Lowell 5, Lawrence 0.
1907—Lowell 6, Lawrence 0.
1908—Lowell 0, Lawrence 0.
1909—Lowell 0, Lawrence 5.
1910, 1911—No game.
1912—Lowell 0, Lawrence 0.
1913—Lowell 0, Lawrence 7.
1914—Lowell 0, Lawrence 20.
1915—Lowell 13, Lawrence 13.
1916—Lowell 0, Lawrence 0.
1917—Lowell 0, Lawrence 7.
1918—No game.

According to this tabulation Lawrence has secured a total of 235 points to Lowell's 71. During these games have been played at Lawrence and 14 in this city. Aside from the 20 to 0 victory scored by Lawrence in 1914 the games during the past 10 years have been bitterly fought and violent, has been gained by the margin of a single touchdown. In fact after the disastrous stretch of games between the years of 1902 and 1905, the rival

elevens have been such in worth as well as name.

## Arounding the Spirit

A huge mass meeting, addressed by P. N. Woodward, acting headmaster, and Coach James Conway was held this noon at the school in the final attempt to bring out a record crowd Thursday morning. The team occupied chairs on the stage and were cheered individually and collectively. Capt. O'Day spoke briefly and echoed the optimistic feeling of his men. Pat Mulshine will lead in songs and cheers tomorrow and hopes to have a strong section massed at one point at the game. The contest will get under way promptly at 10 o'clock. Two 12 and two 15 minute periods will be played. The Lowell team worked out at Spalding park yesterday afternoon held a final light practice session today. No scrimmage was on the program, and each man was in top condition.

The following officials have been secured for the game: Referee, Robert Guild, Harvard; umpire, W. S. Cannell, Tufts; head linesman, Ralph Kendall, Bates.

## BOXING BOUTS HERE TOMORROW AFTERNOON

Tomorrow afternoon the Crescent A. A. will stage its weekly boxing entertainment with Johnny Downes of Boston and Frankie Brown of New York meeting in the main bout of 12 rounds. Downes appeared here a week ago and made a fine showing. He's a fast, aggressive and hard hitting performer. He is ever ready to mix with an opponent and seldom backs away. He boxed Patsy Green of Cambridge here and he hit him with everything but the water bucket. He has been training diligently all week and feels confident that he will win from Brown. The New Yorker has been at the game some time and during his career has met many of the leaders of his class. Word from his training camp says that he is in the pink of condition. Frank Mullins of Lowell, who is travelling at a fast clip and who has been enjoying remarkable success this season, will tackle Young Kenney of Lawrence, who boxed here several years ago. Kenney is attempting to stage a "come back" and those who have seen him in training never that he is in old time form. There will be two other bouts.

The matchmaker of the Crescent A. A. notified The Sun today that Frankie Brown arrived here this morning and expressed great confidence in his ability to beat Downes tomorrow night. Brown has a great record and his recent bout with Harry Carlson at Marlboro gave him a great boost in this section. On Nov. 11, he and Carlson engaged in a whirlwind number and while the referee called it a draw, many of the papers gave Brown the best of the milling. He also has the distinction of scoring a knockdown on Johnny Kibane in Philadelphia. He also put great battles against Benny Valgar and Battling Reddy recently. Downes has been matched to meet Carlson in Boston next week, but a win for Brown tomorrow night will give him the Boston bout.

## SWEET REVENGE

Vocation! Eleven Humbles  
H. S. 2nds, 6 to 3

The Lowell Vocational school football team yesterday showed its resentment towards the second rate opposition being sent against it and subsequently banged its way to a victory over the high school subs, 6 to 3. Some few days ago the vocational boys, unknown but unafraid, lined up against the high school first eleven and the result was 6 to 3. There was great improvement in the work of the team yesterday in addition to the contributing fact that the H.S. seconds were not any too powerful.

Gleason scored high school's three points with a drop kick from the 20-yard line in the first period. He and Daley attempted at carrying the ball throughout the game, but they were given little support. Daley, by the way, looks like first team material. It was not until the fourth period that the vocational instilled an advance that looked particularly threatening. They worked the ball nearer and nearer to the line, however, until they faced a fourth down on the two-yard line, with a foot to make for another first down, touchdown to go. A line plunger squeezed out the necessary foot, but that's all. It was a delicate piece of measuring which decided the distance. In three plays the vocational backs carried over the ball. It wasn't a back who scored as a matter of fact, but Capelle, right tackle, who came from his position and shot through the wide hole on the opposite side of the line. The try for goal was missed and

The Red Wing A.C. which has conducted several first rate athletic meets in months past will stage a 15-mile road race on the North cent. on Thanksgiving day, commencing at 10.30 a. m. Among the entered runners is Fred Couture, winner of the Lawrence-Lowell race on Columbus day. He is favored to win again tomorrow, but will get lots of light from Billie Salmon, William Nash, Chris Roddy, James Grove, Charlie Bryant, Joe Christo, George Goddard and Jimmy Carr. As an added attraction Joe Wells and Frank Thomas

will race over a one-mile course. Carl Richardson will hold the starter's gun, while Mike Wrenn, Jack St. Clair and James Mullen will serve as judges.

BRITT AND TIPLITZ  
BOX FAST DRAW

BOSTON, Nov. 25.—But for a great rally that Frankie Britt made in the 12th round of his battle with Joe Tiplitz of Philadelphia in Mechanicville building last night, the referee would probably have given Tiplitz the award instead of calling the bout a draw. There were many among the large crowd of spectators who were of the opinion that Tiplitz should have received the decision, but the award

seemed to please a majority of the fans.

The bout was a good one. From the start Tiplitz made Britt's stomach the target for his left hook, and in every round he slammed many punches to that spot. He also did some stiff jabbing. In most of the rounds boxing Britt in rapid-fire fashion with both hands.

In the 11th round he shook up Britt badly and it looked as though he would soon clinch the verdict. In the last session, however, Britt surprised the fans by the way he came back. He went after Tiplitz in great shape, sending both hands to the jaw and body, as he was tired under the punching Britt handed to him. Britt tried often to land a right on Tiplitz's jaw, but the most of these punches landed on the back of the shoulder. Those that did reach the spot were not resisted by the Philadelphia, neither were the blows that Britt caught him on the ear, face and body while at close quarters.

There was good swapping of punches and both men did some good countering. Each was warned several times by the referee. Britt for shoving Tiplitz head back with his head while in the clinches, and Tiplitz for hitting with a backhand punch.

MEL COGAN SUSPENDED  
MILWAUKEE, Nov. 26.—The Wisconsin boxing commission yesterday suspended Mel Cogan, Brooklyn lightweight boxer, and his manager, "Scotty" Monteith, for eight months for failure to post forfeit for the Pinky Mitchell bout in time and because Cogan boxed within six days prior to the originally arranged date of the bout, causing a postponement of the contest.

## SPORT WORLD STARS WHO MAY WELL BE THANKFUL

Around the festive board of the sport fans will be seated this day, in spirit if not in flesh, champions new and old.

Walter Hagen, winner of the metropolitan and open golf championship, will be there.

"Kid" Gleason, smiling even though his hopes of a world's champion ball club were denied, still can be thankful that he won the championship in the American League.

Seated next to him we have Pat Moran, leader of the world's champion Reds, gloomily gazing out upon a world in which there is nothing left to conquer, bearing in his hands the turkey, symbol of thanksgiving.

The sport fan, smiling over the return of sports after the eclipse by war, Jack Dempsey, no longer a contender, but "The Champion," smiles thankfully when he thinks of the past ten months.

Willie Hloppe, supreme in the world of billiards, sees no rival to mar his Thanksgiving dinner.

And the unknown, too, is there. The college football champion, the hero of the undergraduate, as yet unselected and over the naming of whom much ink and good white paper will be wasted.

All will partake of their Thanksgiving cheer with right good will in memory of a year which has brought to each much of profit and pleasure.

## WHIRLWIND POLO GAME

Lowell Defeats Salem in One of the Fastest Games of the Season

Playing whirlwind polo all the way, Lowell won from Salem before a large and appreciative crowd at the Crescent rink last night by the score of 5 to 3.

Victory had not come Lowell's way on the home surface for some time, and the players were out to chase the fox. True, the absence of one of the regulars for over a week had much to do with recent reverses, but with the lineup again intact, and the team in its stride following victories at Providence and Lawrence on Saturday and Monday nights the Harkins clan cut loose a burst of speed and brilliancy right at the outset that completely bewildered the opposition and gave Lowell a lead that never was threatened.

All the Lowell men were at their best. Every one did his bit and did it well. There was complete co-ordination, artistic driving, hooking and passing, remarkable blocking and obstruction. In fact, everything that goes to make a high class exhibition was in Lowell's repertoire last night.

The always brilliant Harkins was more brilliant than ever, the speedy and industrious Davies was in rare form, the ever reliable and effective Griffith was there with bells on, O'Brien played his best and most strenuous game of the season, while Pence at goal was ever alert and "in the way" of opposing bulls-eye shooters.

And while it is doubtful if any team in the league could have stopped

Lowell last night, the visitors certainly put up a fight all the way.

Kid Williams went like a house afire. He was here, there and everywhere, but at every turn he was confronted with a Lowell man. He never relaxed but play as he could, he was unable to shake off the Lowell defense men. Hardy, too, never worked harder. He was in the game all the way, rough at times, but that was to be expected under the circumstances. Alexander was busy all the time, but he too found the Lowell obstruction too formidable.

Lowell fans were all set for a strenuous battle and they came to cheer and root, to see Lowell half Salem's march to the top rung. A victory meant first place for Salem. Lowell players were out to prevent the climb and the fans were there to hope and pull for Lowell's success. None were disappointed and the vigorous remarks indicated that "these present" greatly enjoyed the outcome.

After just a little over three minutes of play Griffith hammered in the first score and the rink rocked with applause. Five seconds later Davies hooked on in. More applause. Four seconds later another landed in the net, a product of Harkins' hickory.

Vigorous clearing and applauding. "Go on up," cried the fans. Salem was desperate and all hands worked at great speed to stem the tide. It took more than nine minutes to land the first goal, this by Davies and 19 seconds later Harkins registered his second, and his team's fifth. Here the period ended.

After Davies had opened the second stanza auspiciously for Lowell, Williams came through with Salem's first of the night, Harkins followed with a goal, and Griffith brought the period to an end with a beautiful shot from the side of the rink.

In the final period with victory certain, Lowell played more of a defensive game, and Salem came to the front with two, one by Williams and the other by Hardy, but the rally was short lived and while both teams played fast polo right up to the limit there was no further scoring. The score:

At the last meeting of Div. 8, A.O.H., Vice President John O'Sullivan presiding, four applications for membership were received and considerable business was transacted. The division voted to attend in a body the high mass of requiem for the deceased members of the order, which will be celebrated at St. Patrick's church tomorrow morning at 9 o'clock. The committee in charge of the recent dance conducted by the division reported a great success and its members announced that another similar event will be organized in the near future. It was announced that the annual election will take place at the next regular meeting. A tribute was paid to the memory of the late John Kilroy and interesting remarks were made by Brothers Monahan, Moran, Larkin, Darsay and others.

## NATHAN TUFTS TO DELIVER EULOGY

Nathan A. Tufts of Waltham, district attorney, will deliver the eulogy at the annual memorial exercises to be held by the Lowell lodge of Elks on Sunday, December 7, at the Lowell Opera House. The Elks throughout the country will observe the custom of holding exercises in memory of their departed brothers on the first Sunday in December, and the local observance will be up to the usual high standard of previous years. The general public is cordially invited to attend. The exercises will begin promptly at 8 p. m., and the doors will open at 7.

# STOCK MARKET

NEW YORK, Nov. 26.—Irregular price changes at the outset of today's stock market session, indicated renewed selling for both accounts. The strongest issues of the previous day, notably the mortgage, oil, equipment and shipping stocks, were moderately lower and active. The reaction made further headway within the first half hour. General Motors extending its decline to 10 points.

The market's reactionary trend became more pronounced during the forenoon, with greater activity as prices yielded. Lacking a more definite reason, the increased pressure was ascribed to pessimistic reports dealing with foreign financial conditions. Crucial steel was especially weak, falling 10 points and Pierce-Arrow lost seven. General Motors recovered part of its loss, only to go lower than before. A few stocks stood out for their recovery. Rockefeller & Co. among such leaders as General Motors, Pierce-Arrow, Crucible Steel and Baldwin Locomotive extended from two to five points. These were again cancelled for the most part, however, and also developed increased heaviness.

Another rally in motors, oils and equipments in the last hour was checked by further weakness of standard industrials and rails. The closing was heavy.

The regular quarterly dividend of 1 1/2 per cent. also was declared on the preferred stock.

JACKMAN, Me., Nov. 26.—John A. Burke, a former deputy sheriff, was bound over without bail to the grand jury at the conclusion today of the closing arguments at the hearing in the western Somerset municipal court on the charge that he murdered Nelson W. Bartley, proprietor of the Moose River house here, on the night of Oct. 15.

BOSTON, Nov. 26.—William M. Wood, Jr., resigned today as first vice president of the American Woolen Co. He announced that he planned to go into the wool merchandising business for himself.

## COTTON MEN REFUSE WAGE INCREASE

FALL RIVER, Nov. 26.—The Cotton Manufacturers' association has unanimously refused the request of the Fall River textile council for an increase of 25 per cent. in wages. The reply from the manufacturers was received this afternoon by Secretary James Tansey and is as follows:

"Fall River, Nov. 26, 1919.  
Council:  
Dear Sir: The request for a 25 per cent. increase in wages of the textile operatives was presented at a meeting of the Cotton Manufacturers' association, and after careful consideration, it was unanimously voted that under existing conditions it is absolutely impossible to grant such an increase."

"A letter setting forth some of the reasons for this unanimous conclusion is in preparation and will shortly follow."

# SETTLEMENT IN ADRIATIC NEAR

Considerable Improvement in Situation as Result of Paris Conference

Compromise Satisfactory to All, Including d'Annunzio, in Sight

LONDON, Nov. 26.—Considerable improvement in the Adriatic situation is reported here as a result of conversations in Paris between British, French, Italian and Anglo-Slav representatives. The latest indications are there is a possibility of a compromise settlement satisfactory to all parties, including Captain d'Annunzio.

ROME, Nov. 26.—(Ilavias)—Premier Nitti held a long conference yesterday with Camille Barrere, the French ambassador, according to an announcement made by the Epoca.

CHICAGO, Nov. 26.—The national strike of bituminous coal miners entered its 26th day without marked developments regarding the situation at the mines themselves.

## MALONE SAYS \$1000 TAKEN AS FEE

NEW YORK, Nov. 26.—Dudley Field Malone, former collector of the port of New York, whose name was introduced at the hearing of the Lusk legislative committee investigating Bolshevism yesterday by Ludwig C. A. K. Martens, self-styled soviet ambassador appeared at today's session. He informed newspapermen that he had not been subpoenaed, but that he had come to ask an opportunity to address the committee in order that he might clear his name.

He admitted he had received \$1000 from Martens. This, he said, had been paid for professional services rendered when he had examined contracts which already had been placed by the "embassy" with American concerns for purchase of goods to be shipped to Russia. He said he was glad of this "employment," especially as his fee had been paid quickly, and that he saw nothing wrong in it.

"It is a fine state of affairs," he said, "when the chief law officer of the state so far forgets the constitution of the United States, that he does not remember it permits every man, whether alien or citizen, to employ counsel."

Malone was given permission by the committee to make a statement. He began by denouncing as "immoral, cowardly and un-American" the manner in which the investigation had been conducted by Attorney General Newton, the committee's counsel.

Mr. Newton attempted to interrupt Malone, but the latter declared he would cease only when ordered to do so by the chairman. This action was taken promptly by Assemblyman Martin who was presiding in the absence of Senator Lusk.

The attorney general then declared that if Malone wished to correct any of the testimony taken yesterday in regard to himself he could do so, but Mr. Newton urged the committee not to listen to an "unwarranted, improper and indecent" attack upon its activities.

Malone then was ordered to leave the stand but he protested vigorously and did not stop down until the sergeant-at-arms reached his side. He went out of the room asserting that the committee would hear "a great deal more about it" if there were any more "instructions" about him.

In a statement to the press, Malone declared that in accepting a fee from Martens, he had done no more than other reputable members of the New York bar.

NEW YORK, Nov. 26.—Bituminous coal operators were accused of obscuring the issue and again challenged to produce their income tax returns by William G. McAdoo, former secretary of the treasury. In a formal answer today to their telegram criticizing his earlier statement that they made "shocking and indefensible profits in 1917," and should not be allowed to increase prices of coal.

## SIMPLICITY IS CHARM OF SILK FROCK

BY BETTY BROWN  
NEW YORK, Nov. 26.—Here sketched is one of the most recent realizations of the eastern designers' dress. Its simplicity should charm the debutante, whether she needs a dinner gown or afternoon frock.

Brown faile silk makes the dress itself, with full, long overskirt, and waist shirred to a panel in the front. Rounding neck is softened with a fold of rose chiffon, and the very short sleeves are trimmed with brown ostrich. A touch of the same brown ostrich is effective on the skirt.

## BIG CONSIGNMENT FOR LOWELL ARMY STORE

Manager Broad of the local army store announced today that a generous supply of commodities will be available for sale Friday afternoon and the list includes a number of articles which will be of interest to many Lowell people. Tomatoes, soap, toilet paper, brooms, hard candy, butter, Scotch, chocolate, peppermints, and cloth articles, sizes 7, 8, 9 and 10, are among the articles which will be on sale at the store in Market street Friday afternoon and Saturday.

Mr. Broad also received a communication yesterday from the office of the director of sales of the war department, via the Boston army retail store, denying the rumor that the army stores were to be closed until next spring. The statement in full follows:

"The director of sales announces that with the single exception of the air service, no bureau of the war department having surplus war materials to dispose of contemplates any abatement of its efforts to market as expeditiously as possible its entire stock of surplus supplies. This statement is made in denial of rumors which have become current to the effect that the war department would suspend its sales activities until the spring."

"The sales organization of the air service, beginning today, will practically suspend its sales campaign for a brief period and center its efforts upon the completion of an inventory of its surplus stocks. This suspension of sales by the air service is not expected to exceed two weeks. With the completion of the inventory the air service will resume immediately its efforts to dispose of its surplus stocks and with the complete inventory information in its possession will be in a position to expedite sales and conclude prompt negotiations into which the bureau may enter with prospective purchasers of its supplies."

## NAMES BERNSTORFF IN MURDER CASE

CONCORD, N. H., Nov. 26.—Bert Ford, a Boston newspaperman, yesterday asked the governor and council to present to a special grand jury, evidence accumulated in the course of his investigations of the murder of William K. Dean in East Jaffrey in July, 1918. Mr. Ford brought into the story he told yesterday the name of Count von Bernstorff, former German ambassador to the United States. He said he could show that von Bernstorff, as far back as 1916, was interested in the East Jaffrey section, particularly the hills and mountains of the region. Mr. Dean, it is asserted, was killed following a report by him to officials that he had seen a mysterious airplane and equally mysterious lights, apparently flashed as signals at night from the Jaffrey hills. Mr. Ford will be given a further hearing at a later date.

# TO ACCEPT SURRENDER OF PEERAGE

LONDON, Nov. 26.—A bill introduced in the house of commons today under which Viscount Astor would have been able to give up the title inherited from his father, the late Viscount (William Waldorf) Astor, was defeated by a vote of 169 to 56.

The bill was introduced by J. H. Thomas, labor member. It was devised to meet the Astor case, the measure empowering the king to accept the surrender of any peerage. Its passage would have enabled the viscount to retain his seat in the house of commons. Mr. Thomas, in advocating the bill, said its object was to enable a man to choose in which house of parliament he would serve and, having done so, to renounce the rights and privileges to which he would be entitled in the other house.

The vote was taken after opposition to it had been voiced by Edward F. Wood, unionist member for the Ripon division of Yorkshire, who said he considered it objectionable to proceed piecemeal with such legislation, thereby prejudicing action towards reform of the house of lords.

## REV. LESLIE L. SANDERS PASTOR JAILED

INDIANAPOLIS.—Charged with using the mails to defraud, in boosting a mythical evangelical association, Rev. Leslie L. Sanders, father of six children, is in jail awaiting trial.

## WORK ON FIRST STREET HIGHWAY

Work on the First street highway which has been going on since last September will be finished on schedule time, Jan. 1, despite the large number of rainy days that have interfered with the project since it was started. Commissioner Dennis A. Murphy of the street and highways department said today. The work has been done in an exceptionally speedy manner, the commissioner says.

Owing to the rain today the sewer men who were laid off last Saturday but who were scheduled to return to their work this morning did not start again, but a small gang will go to work in South street Friday morning and the others Monday morning.

Commissioner Murphy planned to start work on the Princeton street sewer today but the state highway commission has notified him that it must approve his plans before the work can be started.

## DARTMOUTH COLLEGE MUSICAL CLUBS

The Dartmouth college musical clubs left Hanover today for a concert tour which will conclude at Rogers hall, Lowell, on Saturday evening of this week. Dancing will follow the concert. The clubs will be at Wellesley college tonight and at Somerville on Friday. On every visit of the Dartmouth clubs in past years one of the best social occasions of the season is enjoyed at Rogers hall and Saturday evening's event is much anticipated.

## Big Howitzers Reach Mexican Border

EL PASO, Tex., Nov. 26.—Fifty 155-millimetre Schneider howitzers, said to be the biggest guns ever brought to the border, have been added to the ordnance stores at Fort Bliss. The guns cost \$45,000 each.

## "Ellis Island Soviet" Continues Strike

NEW YORK, Nov. 26.—"The Ellis Island soviet" continued its hunger strike today while the house immigration committee held a hearing in the same building on immigration and deportation problems. Seventy-three radicals, avowedly anxious to go to soviet Russia, but on strike against attending deportation proceedings before immigration inspectors, again scorned a call to breakfast this morning. This was the fourth meal they have missed since adding a hunger strike to a "silence" strike, in an effort to see visiting relatives without an iron barrier between them.

## Members of Parliament Seek Increase

LONDON, Nov. 26.—Labor members of parliament are agitating for an increase in their parliamentary salaries, which now are about \$2,000 per annum. The present salary, which represents a pre-war purchasing value of approximately \$500, is regarded as hopelessly inadequate for the maintenance of a legislator in London. The demand which is being canvassed is that every member of parliament living out of London should be entitled to traveling expenses and a subsistence allowance of \$5 for every day on which he attends parliament.

## Sign Armistice Treaty Today

PARIS, Nov. 26.—Plenipotentiaries of Jugo-Slavia will sign the Austrian peace treaty at 5 o'clock this afternoon. They will attach their signatures simultaneously to the treaty for the protection of racial minorities, to the arrangement of reparations concerning Italy and also to the financial arrangement concerning the sharing of expenses in the liberation of the former Austro-Hungarian monarchy. The time for the signing of the Bulgarian peace treaty has been definitely fixed. The Bulgarian plenipotentiaries will sign the document at the Neuilly town hall at 10.30 o'clock Thursday morning.

CAIRO, Sunday, Nov. 23.—A British officer was murdered during a street riot here last night. Other British soldiers were fired upon by the demonstrators and one soldier was wounded.

## Put to Death

Continued.

According to a telegraphic report from Chihuahua City this morning, General Angeles was sentenced to death by four Carran generals in the Teatro de los Heros ("Theatre of the Heroes") at 10.45 o'clock last night. He was immediately taken from the building through a rear entrance to await execution, which was set for 7 a. m. today. This is the time he was shot, according to the report reaching here.

General Angeles was entirely unmoved apparently as sentence was passed. Throughout the trial the military leader, famous among military men of the world as the man who brought the French 75-millimetre gun to perfection and made it admittedly the best piece of artillery ordnance in the world, had presented a smiling countenance to his accusers.

General Angeles had been decorated by the French government, with the Cross of the Legion of Honor, in recognition for his services during the war. Referring to the Columbus raid by Villa, forces in 1916, General Angeles was quoted as having declared to the military court: "We showed ourselves to the whole world—for while the American is clean in mind, body and environment, we are absolutely and unequivocally opposite."

The other rebels executed with Angeles were Major Nestor Enciso de Arce and Antonio Trillo. All three men were captured near Parral, Chihuahua, by a force of home guards, Nov. 15.

## No Cars in Lawrence

Continued.

ney competition was removed, was given about two weeks ago by the railway trustees. Jitney licenses were revoked by the city council on Monday, but the buses continued operation on a "free will offering plan."

Street car service ended with the completion of regular runs last night. The bus owners, who have organized and are circulating petitions for a referendum on the question of substituting jitney for trolley service, attempted to meet the situation by bringing scores of additional vehicles from surrounding cities during the night. These were operated along the lines formerly traversed by the street cars. No fares were collected but contributions were accepted. The owners said returns were larger than if the usual fare of seven cents had been charged.

A special meeting of the city council was called this forenoon to consider the situation. The question of submitting to the voters at the city election the referendum proposed by the bus owners was also taken up. The drastic action of the railway trustees was not entirely expected. It had been thought today's action of the city council would be awaited before the threatened stop was put into effect. Any provisions that may have been made for the 250 uniformed railway employees affected, have not been announced.

Four jitney drivers summoned into court as a test case were charged with violating the city ordinance by running a public conveyance without a license. They were found guilty and fined \$10 each. All appealed.

Judge J. J. Mahoney of the district court who heard the cases, informed the police that in his opinion it would be futile to continue to bring jitney drivers into court for all would be likely to appeal their cases, and then continue to run. He suggested that the only way to deal with the present situation was to take steps to secure an injunction restraining the jitneys from running now that their licenses have been revoked by the city council.

Alderman Peter Carr, who as director of the department of public safety, is head of the police department, takes the ground that the withdrawal of the street car service has created an emergency, and this morning he notified the jitney drivers that he would not interfere with their running or with their charging fares so long as the street cars were not in operation.

At a special meeting today the city council adopted resolutions requesting a special committee comprising Mayor Hurley, Alderman Peter Carr and City Clerk Edward J. Wade to confer with Governor Campbell and request him to take

steps to have operations resumed immediately by the street railway company and that the commissioner of public safety be instructed to take whatever legal action he considered advisable to carry out the revocation of the jitney licenses.

It was later ascertained that an interview with the governor would be impossible as he would be obliged to leave the state house early and it was decided to seek a conference with the public trustees of the street railway company and the public service commissioners instead.

The council planned to meet again at 4.30 o'clock to receive a report from the special commission. At the meeting this forenoon, Atty. John C. Twomey, representing the jitney association, requested the council to defer action on the resolution and permit the jitneys to operate until Dec. 9, when the people could pass on the question at the election, but no action was taken.

## Bolshevik Agents

Continued.

bring the matter to the immediate attention of District Attorney Nathan Tutts and officials of the department of justice in Boston.

The local police have been ordered to arrest on sight any person found in possession of this propaganda, he declared.

Following closely on the heels of the conviction of a Lakeview avenue store keeper on charges of promoting anarchy, the story of which will be found in another column, this discovery has led the police to believe that a widespread and thoroughly organized campaign has been instigated here by the "Reds."

No stone will be left unturned in ferreting out the leaders of the movement, according to Superintendent Welch.

## OUR THANKSGIVING DAY

Washington Correspondent  
Digs Into Ancient Archives  
for Thanksgiving History

BY GEORGE B. WATERS

WASHINGTON, D. C., Nov. 26.—How  
thankful are the people for the things  
that make them happy!

This is what impresses one who digs  
into the ancient archives at the state  
department library and reads the dusty  
and faded documents of a century and  
a half, offering thanks to Almighty God  
for his blessings.

A true history of the Thanksgiving  
proclamations would be a fair history  
of Uncle Sam's wars.

And if a president should ever for-  
get to issue a proclamation, the people  
would celebrate Thanksgiving just the  
same. They had Thanksgiving before  
they had presidents and one year they  
had two of them.

The first Thanksgiving day in Amer-  
ica was held by the Pilgrims soon after  
their arrival here.

The first declaration by the continen-  
tal congress for Thanksgiving was  
made Nov. 1, 1777, for the surrender of  
Burgoyne.

The next year John Witherspoon of  
the continental congress wrote one  
with a single sentence, 300 words.

The last revolutionary proclamation

was reported to congress Oct. 18, 1753,  
fixing Thanksgiving on the second  
Thursday in December. There has been  
no happier moment in the history of  
the United States.

In these days a Thanksgiving pro-  
clamation was as important as a League  
of Nations covenant or an industrial  
conference is today.

George Washington issued two  
Thanksgiving proclamations and an in-  
teresting point about them was that  
they were intended for any one who  
believed in God. John Adams issued  
one which appealed only to Christians.  
Thomas Jefferson was opposed to  
Thanksgiving days and wouldn't issue  
any.

The first Washington proclamation  
was written by himself Oct. 3, 1789, the  
original of this is lost. But the origi-  
nal of the second one he signed is pre-  
served. It was written by Alexander  
Hamilton, secretary of the treasury.

It was Lincoln who inaugurated the  
national Thanksgiving. He held two  
in one year, his first being Aug. 6, 1863,  
to thank God for the victory of  
Gettysburg and the same year he pro-  
claimed Nov. 26 as national Thanks-  
giving. That was while the Civil war  
was raging.

Andrew Jackson had the people offer

thanks the first Thursday in December,  
1865.

President Cleveland used to send his  
proclamation to the state department in  
his own handwriting. Mr. McKinley  
was the first president to dictate his  
to a stenographer. Taft had the state  
department prepare his, and one was  
written by Miss Anne Shortridge, law  
clerk in the office of Harry Hoyt, then  
first counselor of the state department.  
She was perhaps the first woman to  
prepare a presidential proclamation.

President Wilson has written his own  
proclamations, and in them stands out  
emboldened by the light of sound and  
noble sentiment, the story of his love  
for man and God.

UNCLE SAM, M. D. ON  
THANKSGIVING DINERS

Thanksgiving is the one day in the  
year when every healthy American  
likes to put worries and cares away  
and interest himself only in making  
sure that there is a very fine turkey  
on the table to which he can address  
himself.

It is neither the time nor the place

GRANITE CANOPY COVERING 'THE WORLD'  
FAMOUS BOULDER "PLYMOUTH ROCK"

THE PILGRIM FATHERS

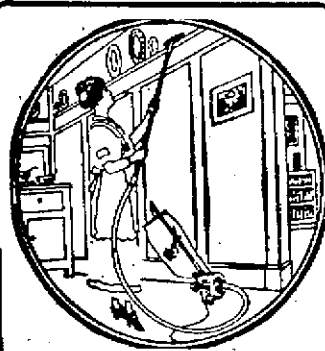

Called "Separatists," being Puritans who had "broken off" from  
public churches, having seceded from the Church of England.  
Fled to Leyden, Holland.

Planned emigration to the new world; receiving King James'  
consent, and the financial assistance of English merchants (at 50  
per cent interest.)

Returned to England for expedition.  
Sailed from Plymouth, England, in the Mayflower, less than a  
hundred in number, including Myles Standish, English soldier,  
not a member of the Pilgrim congregation.

Sighted Cape Cod, exploring the coast.  
Landed December 21, 1620, on that boulder (Plymouth, Mass.),  
which ever since has been known as Plymouth Rock.

Their first Thanksgiving Day was celebrated the following fall,  
after they had harvested their first crops.

Cleans Furniture  
as Well as Rugs

The Royal Electric Cleaner

CLOSED ALL DAY THURSDAY THE AMERICAN DAY OF THANKS

to become a death's head at the feast  
with the health officer's customary  
warning "beware overeating." Quite  
naturally no one would beware any-  
way, and what one eats will be limited  
largely by the size of the fowl and  
the capacity of the individual.

In this matter a little common  
sense will help a great deal. The  
average healthy person should feel  
perfectly safe in satisfying his ap-  
petite. No sensible person will stuff,  
or eat until he feels uncomfortable.  
To chew the food well, is a good rule,  
and one which will not interfere with  
the thorough enjoyment of the meal.

The person who frequently suffers  
from indigestion should be careful not  
to overtax his stomach.

After all the hearty meal at Thanks-  
giving is part and parcel of the cus-  
tom of celebration. It is not this meal,  
nor the one at Christmas that does  
the harm, but the habit of overload-  
ing the stomach every day, the con-  
stant overeating and the meals eaten  
in haste.

With turkey and "fixin's" on the  
menu it may be foolish to suggest a  
brisk walk before dinner to sharpen  
the appetite. However, after the feast  
a long walk in the open air to aid di-  
gestion, will pretty well take care of  
the Thanksgiving dinner.

THANKSGIVING DINNERS  
TO BE DISTRIBUTED

Girls of the Community Service club  
will distribute 15 heavily laden bas-  
kets of Thanksgiving dinners and  
other supplies to as many families  
this evening. Automobiles have been  
offered for this work by Miss Irene  
Hogan, Mrs. Napoleon Demaris, Mrs.  
Joseph Burke and Miss Mildred Bis-  
cornet. The club girls have secured  
the names of worthy families through  
their church parishes and have shown  
great delight in being able to bring  
this spirit of thanksgiving into so  
many homes.

One of the best dances of the sea-  
son will be held in the club rooms S. B. Rainrose of Fitchburg will pre-  
side.

members and friends will gather for  
informal socialibility. Fine dance  
music will be provided.

On Friday evening at 7.45 o'clock a  
Thanksgiving social will be held by  
the girls, with the Normal school girls  
as guests. English folk dances and  
songs will be included in the informal  
program and a luncheon will be  
served.

## UNION THANKSGIVING SERVICES

Union services will be held tomorrow  
at the Centralville Methodist Episcopal  
church at Bridge street. Representa-  
tive congregations from the French M.  
E. mission, Fifth Street Baptist, High-  
land Congregational, and the Dracut  
Centre Congregational church are cor-  
dially invited to attend this service  
which begins at 10.30 a. m. The Rev.

## LOWELL COKE

—FOR THE—

## KITCHEN STOVE

Lowell Coke is used by many families for kitchen fires, instead  
of Stove Coal. It makes an excellent fire for all purposes, and  
particularly for broiling, as the gas has been extracted from the  
coal. With care the fire will keep all night. Try a ton of our  
Fine Coke; you will find it very satisfactory. We have plenty  
on hand now; the supply of Stove Coal is quite limited, and  
we understand it will be more so.
